H. J. R. 10. MEMORIALIZING GOVERNOR WALLACE TO REACTIVATE THE THIRD ALABAMA VOLUNTEER CAVALRY CORPS AS A UNIT OF ALABAMA'S NATIONAL GUARD.

WHEREAS, there is a great need in Alabama for a reawakening and open and active expression of patriotism and individual responsibility; and

WHEREAS, a very outstanding brigade in the Army of the Confederate States of America was composed largely of Alabamians, who had been originally organized as the Third Alabama Volunteer Cavalry; and

WHEREAS, this brigade under the able leadership of General Joseph Wheeler, showed themselves to be brave men and true patriots and soon became known as "Wheeler's Corps" and as such won undying honor for Alabama; and

WHEREAS, General Wheeler, for whom this Corps was named, was a graduate of West Point who served with distinction as a cavalry officer in the United States Army, both before the War of Secession and again during and after the Spanish American War, as well as an officer in the Army of the Confederate States; and

WHEREAS, after General Wheeler's death, in memorial services held for him, he was declared by Northern and Southern survivors of the War of Secession, to have been the ideal cavalryman of all great wars, and it was then said that "his undying fame will live in history as the greatest cavalry leader of all time"; and

WHEREAS, the bravery, spirit and unflinching loyalty of the men of the Third Alabama Volunteer Cavalry were great factors contributing to General Wheeler's rapid rise on the military scale; now therefore,

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That the Legislature of Alabama hereby memorializes the Honorable George C. Wallace, Governor of Alabama, by executive order, to reactivate the historic Third Alabama Volunteer Cavalry, with headquarters in Gadsden, and to designate it "Wheeler's Corps."

BE IT FURTHER RESOLVED, That Governor Wallace is hereby memorialized also to authorize present day members of this glorious unit of Alabama citizen-soldiers to wear the uniform and accoutrements of the Confederate soldiers when drilling, holding ceremonies or representing the unit at social functions.

BE IT RESOLVED ALSO, That since private citizen members of this reactivated Third Volunteer Cavalry Corps will be wearing a regulation uniform formerly used by soldiers of the Confederacy, steadfastly dedicated to and widely acclaimed for their loyalty to the State of Alabama, the Legislature hereby charges all the officers and enlisted men of the reactivated Third Alabama Volunteer Cavalry to bear true allegiance to our State of Alabama, and like the general for whom the Corps is named also bear true allegiance to the United States of America. While dressed in the grey uniform of the Confederate Army, current members of the Wheeler Corps will be representing a noble heritage passed on by those Alabama men, who more than a century ago, fought for their beliefs and traditions as free men. Certainly the sight of the Third Alabama Cavalry, reactivated fully uniformed, will be a visible symbol of loyalty and will inspire the entire community wherever these "soldiers" appear.

BE IT FURTHER RESOLVED, That the reactivated Wheeler Corps, in full regalia, be called upon to perform honorable duties especially at historic functions and such other duties as may be designated by the Governor from time to time.

The Clerk of the House of Representatives is hereby directed to deliver a copy of this resolution to the Governor of the State of Alabama and a copy thereof to the Adjutant General of the State.

JOINT SESSION

The hour of 11:00 o'clock a.m., having arrived, the Senate and House of Representatives of the Legislature of Alabama met in joint session in the Hall of the House of Representatives, in accordance with House Joint Resolution 14 heretofore adopted, for the purpose of hearing an address by the Honorable George C. Wallace, Jr., Governor of the State of Alabama.

The joint session was called to order by Honorable John A. Teague, President Pro Tempore and Presiding Officer of the Senate.

Thereupon, Honorable George C. Wallace, Jr. Governor of the State of Alabama, delivered the following address to the Members of the Legislature of Alabama.

STATE OF THE STATE ADDRESS
BY
GOVERNOR GEORGE C. WALLACE
BEFORE
THE 1984 REGULAR SESSION OF
THE ALABAMA LEGISLATURE
FEBRUARY 9, 1984

Honorable John A. Teague (presiding),

Speaker Drake, Ladies and Gentlemen of the Legislature, My Fellow Citizens:

I come before you today as we begin the 1984 Regular Session to recount some of the past, examine our present, and discuss our thoughts of where we need to go in the future.

I can say today that Alabama has made good progress since I reported to you in January 1983. The state of the State of Alabama today is such that we can see light shining at the end of the economic tunnel. There are smiles back on many faces, and there is reason to believe that with continued hard work, prayer, and blessings from our Lord Almighty, we will soon again be leading our region in economic development. We have a wonderful state and great people. With continued commitment on the part of our leaders in government, business, labor and industry to work together, our recovery from the economic depression which hit Alabama will continue to be swift and sure.

Ladies and Gentlemen, last year our goal was survival, last January marked the third time that I had taken the reins of state government. Without a doubt, we were in the most deplorable economic state of affairs within state government that I have ever known or seen.

For starters:

1. The General Fund was in 15 percent proration with income running about 70 percent of the budget.
2. The Education Fund was in 10 percent proration.
3. We owed the federal government five million dollars on Hurricane Frederick.
4. We owed one hundred and nine million dollars because of misspent Revenue Sharing monies and federal funds.
5. We had just gone broke in the Unemployment Compensation Fund and had to borrow fifty-four million dollars from the federal government which would cost us heavily in interest.
6. Medicaid was funded largely on one-time money.
7. Bills owed by the State were not paid and behind for several weeks.
8. We faced a very real possibility of not being able to meet the first two payrolls.
9. We were in a heck of a mess!

Thanks to a lot of hard work, we are much better today. Through good fiscal management by the Finance Director, Department Heads and others, we have met payrolls, paid the State's bills, paid off much of the indebtedness, worked with our federal officials to get a forgiveness concession on the Revenue Sharing, and a payment plan on the hurricane disaster debt.

With the help of many of you here, we passed unemployment compen-

sation legislation which enabled us to pay back the fifty-four million dollar loan without any interest being assessed. That same legislation raised our benefit level to the Southeastern average when we had been on the very bottom.

Through a decline in unemployment, sound fiscal management and more confidence from our private sector, the growth in our Educational Trust Fund was phenomenal last year. Before the end of Fiscal Year 1982-83 last September, we were able to return all funds held back by proration to our school systems. No school system or school lost a dime because of proration in 1982-83.

Today, instead of being in proration, we have a working balance—real and projected—of three hundred and eight million dollars in the Special Educational Trust Fund. It is quite a turnaround to come from one hundred and forty million dollars down to a three hundred and eight million dollar advantage. This could not have been possible without your help and also with the help of our professional administrators in education, our teachers, and most of all the hard work and productivity of our working men and women in Alabama.

Our General Fund is in trouble! We cannot fund the agencies who live out of the General Fund to an acceptable level. The federal government continues to shift more and more of the funding burden to the states as they wrestle with the federal deficit. We are faced with curtailing or severely limiting some services or increasing funding. Medicaid costs have been held more in line than ever before, but if we are to continue this vital program to our elderly and disabled, we must provide additional revenue.

The state troopers have been forced into selective patrolling for some time. Last year when in proration, each trooper could only patrol a very few miles each day. We must increase funding to the state troopers if we are to ensure a reasonable degree of safety on our highways. We need additional troopers, vehicles, and operational resources.

Our state parks are in bad need of essential maintenance. If we do not make certain repairs, we will be facing greater costs in a very short time. We are blessed with an outstanding parks system which serves to attract many visitors and to keep many Alabamians vacationing in the State. We have simply got to take appropriate care of these parks.

Court operations are essential to the State and need additional resources.

The Revenue Department under Commissioner Jim White is doing an outstanding job. As we increase the collection responsibilities, the need for additional personnel is certainly understandable.

I will also be offering to you a recommendation for state employee compensation. Employees must be adequately compensated to assure that we attract and keep competent and dedicated employees. In line with compensation, we are also suggesting changes in the Retirement Systems.

I want to emphasize and underscore that our recommendations will not affect the benefits of any present employees or those employed prior to the date specified in the legislation. Today, the Retirement Systems are sound, but the State contributes millions of dollars each year to these systems. Public retirement systems have run into disastrous troubles in other states and cities. We must not allow that to happen in Alabama. Current state employees, teachers, judges and troopers should understand that the recom-

mentations that we are offering are necessary to preserve and ensure that their retirement is protected and that the Systems will not be in jeopardy during their retirement years.

The time to correct a problem is before it gets to be a crisis. We cannot continue to offer a retirement that in many cases rewards employees above their working salaries. I trust that each employee group will recognize our effort is designed toward future employees as to the level of benefits. I re-emphasize that current employees will not be affected in regards to benefits.

We are asking that all current employees increase by one percent the amount they contribute to their retirement. As we adjust compensation, this should be painless to all and fair to employees and taxpayers.

MENTAL HEALTH

Mental Health is underfunded by some seven to ten million dollars. We have space in some facilities for patients which cannot be used because the Department cannot pay for additional personnel. We must raise better than seven million dollars for Mental Health, and I am proposing legislation to do just that by equalizing the 2.2 percent utility license tax which is currently paid by every customer of Alabama Power Company, every rural co-op customer whether served by TVA, co-op power or Alabama Power. Some ten percent of the customers do not pay this tax because they are served by a city system. If some are going to pay as the ninety percent do, then it is only fair that all pay this tax. This revenue is already earmarked for Mental Health.

PRISONS

I appreciate the work that you did in the past sessions to bring about an upgrading of our prison system and to solve some of the problems that we faced there. We have opened the West Jefferson facility and moved toward building the new prison in Southeast Alabama. Overcrowding is down, but we are still gaining better than 156 prisoners per month.

One would have to look long and hard to find a state that has done as much as we have in the past year—and for that matter for the past six years—to upgrade a prison system and meet standards set by a federal court. I appreciate your help and the help of the people of Alabama.

Today, I ask the federal courts to recognize that progress. I ask them also to help us as we continue to meet with this problem. The Federal 11th Circuit Court action last week was encouraging as they stayed the contempt citation against state officials and stayed any release. Hopefully this action will soon be made permanent.

The Federal District Court contempt citation against the Attorney General and the Prison Commissioner was utterly ridiculous! On the one hand, the judge told the Prison Commissioner that you are doing a great job, but then later said, "I'm going to fine you anyhow because I need to show the Appellate Courts that I will fine somebody." The Federal judge is the one who should have been fined! This knee jerk action has cost our taxpayers over a half million dollars to date.

The space requirement of sixty square feet per prisoner is also ridiculous as ordered by the Court. We can meet the requirement in new facilities, but we cannot tear down the walls of the existing prisons built prior to the date of that court order.

Personally, I do not see anything wrong with prisoners sleeping two to a

cell. They should only be in the cells to sleep anyway. They should be working during the daytime hours and when they are not sleeping. They are not in the penitentiary for misbehaving in church. They are there for punishment and corrective training because of misdeeds against society. Many of our college students bunk two and three to a dormitory room. Many of our families are forced to live as two families in the same house or apartment. Also, many of us victims do not have sixty square feet. I have the space in which I can reach whether in this chair or lying in bed. The fellow who shot me has more square feet in which to live than I do even though he is in the penitentiary.

We will continue to improve our prisons. It is time for the federal courts to help us and not hurt us in this effort!

Judge, I must tell you, Alabama through two Governors and several legislatures have sacrificed and sacrificed to upgrade the conditions of our prisons since the original court order. You still hold the threat of the mass release of prisoners over us.

Well, Judge, there will not be any mass release of prisoners in Alabama again. If you are going to turn any loose—scot-free, it is only fair to warn you that you will have to come and get them! You will have to take them from this governor and I believe this legislature as well.

We are asking you for additional funding for prisons in the amount of fourteen million dollars. The opening of new facilities will demand staffing and operational funds.

JOBS

Alabama has a good business climate as evidenced by a Dunn and Bradstreet recent report showing Alabama with more business starts last year than any other state in the Nation. We had a good and successful year in the recruitment of new industries. Our state and our respective communities gained sixty-nine new industries during 1983. These industries will add over 5,000 jobs. We also had the expansion of 808 plants in Alabama with an increase of 17,000 jobs through those expansions. Every county had a new or expanding industry in 1983. I appreciate those who have worked at the Alabama Development Office, the local Industrial Development Boards, the local Chambers of Commerce, and others to recruit new industry into Alabama. We are especially appreciative and grateful to those who have decided to invest their resources in the State. We feel that you have made a wise investment in a state that has a good business climate and a state that will continue to improve that business climate.

We will intensify our efforts in the recruitment of industry and business both in the domestic and foreign markets. In 1984, Alabama and the city of Birmingham will host the Southeast United States/Japan Association meeting in Birmingham. Several of our foreign friends in business and industry will be visiting among us. We look at this as an opportunity for Alabama, and we will continue to work in those overseas markets to attract investment for new jobs and to help offset the balance of trade deficit which faces this nation and threatens us economically.

Since our trip overseas last year, we have announced a new television manufacturing plant expansion and a new microwave oven plant from Korea, a Mitsubishi plant to be built in the State of Alabama, and a soybean sale to the Republic of China in Taiwan. As I have stated, we will intensify those efforts again this year with missions by some of our top officials to foreign markets.

Unemployment is down. It has been reduced by about four percentage points. It is still around the 12 percent mark, and that is too high. It is way too high, and we will continue our jobs development efforts to lower unemployment into the single digit level in order that every Alabamian will have an opportunity to get a meaningful job.

I would like to commend the University of Alabama and General Motors for the working arrangement between the two of them that saved the Rochester Carburetor Plant in Tuscaloosa. Through the efforts of the University of Alabama in business and industrial research, General Motors increased productivity in the plant and saved that industry for Alabama workers. This effort has received national acclaim and will accrue many benefits to the State. We must continue our efforts with our universities and schools working closely with industry.

Alabama was hard hit by the trouble to the heavy metals industries in the United States. Thousands of steel and aluminum workers were laid off in recent years.

In Birmingham, 28,000 steel workers lost jobs. We cannot expect to regain all of these jobs, but the recent actions of U. S. Steel and the United Steel Workers Union were most encouraging. I was pleased to have personally been able to perform a role—successfully—in getting the Union and company to agree to a condition which is bringing about a large investment from U. S. Steel and will return 3,500 workers to their jobs. Hopefully, the investment by U. S. Steel will lead to expanded operations by that company and more jobs in the future. This was a classic example of industry, labor, and government working together to improve a state's economy.

EDUCATION

Education is expensive. Ignorance is much, much more expensive and eternally wasteful when the God-given abilities of our people are left underdeveloped for the lack of opportunity.

Alabama has made strides in the education progress, but the competition is fierce. Industries and businesses locate where educational opportunities exist. We have heard much about the emphasis on education in other countries. We are not only in competition with foreign countries as far as educational development, but inasmuch as industry and business seek out those areas where educational opportunities exist, we are in a heavily contested battle with our neighboring states. The quality of education will make or break Alabama in industrial development. If Alabama is to have a chance to live on par with our neighbors in the late 20th Century and the 21st Century, we must rededicate ourselves to a commitment of progress and excellence in education. There must be a war declared—not just on illiteracy—but also a major war against mediocrity in education.

The thrust of our new efforts in education must always be directed toward increasing the benefits to the students. Productivity through student excellence will bring tremendous rewards to the professionals in education.

At the same time, those of use who do not work day to day in the field of education must realize that the improvements that we seek to make will be made only through the dedicated efforts of those who work to administer and teach in education.

By a vast majority we have good teachers. In the case of my own children, those who cared for them the most and worked with them more than anyone outside the immediate family were their school teachers.

It is a sad commentary that as we are assembled very few of us here would today encourage a child of ours to pursue a career in public education.

We must set professional standards for our teachers and administrators and demand that those standards be met, and demand that those who do not meet them be gone! Teachers who teach and work with their students must be rewarded in line with their important station in our society. Those who do not know what or how to teach and work with students must be told to find a place or a job in which they can work.

Any law which serves to limit the advancement of the competent and the hard working and to protect the incompetent, the mediocre and the unwilling is nothing short of criminal, especially when we are dealing with the training of the minds of our precious youth!

I am asking the State Board of Education and each local board of education to adopt and implement teacher evaluation programs in all of our school systems. This program must identify the desired teacher skills and measure the degree to which those skills are performed. Criteria for improvement of any affected performance must be established with improved performance made a condition to continued employment. I strongly encourage our State Board of Education to study and upgrade teacher intern programs, certification requirements and entrance requirements and standards of our schools of education.

The State Superintendent should proceed to appoint a special task force to study and recommend changes to the State's Tenure Law if needed. I agree that teachers must be protected, but the need for protection must be balanced against the needs of students!

TEACHERS' SALARIES

If we are to demand and expect excellent teachers, we must be willing to pay a decent salary. In my budget recommendations, I am suggesting increases for elementary and secondary school teachers. To some of our teachers these increases will be viewed as small, to some of our public these increases will appear too large. We must be mindful that there was no increase last year. When inflation over the last two years is factored into this raise, the real increase will be a meaningful gain but in line with the State's ability to pay.

The fact is, ladies and gentlemen, that we are approaching a real shortage of teachers in Alabama. Last year we had very few math, physics, and chemistry majors certified to teach through our colleges of education. The demands for these disciplines in the business and industry sector are encouraging students to bypass the necessary training for teacher education courses.

We are also recommending an incentive and bonus program for which our teachers may compete. These will be monetary rewards for outstanding performance and available to all who have the initiative to pursue them.

We are asking for one million dollars in math and science scholarship funds. These scholarships will be awarded to outstanding students who commit to teach for a specified number of years to repay their scholarship.

Also recommended in our budgets are increases for additional research in our universities, increases to the post-secondary system and badly needed transportation funds to replace worn out school buses. We are also recommending increases in the textbook program and burned out school funds to

assist our local communities and to ensure that the students have the necessary tools with which to work.

KINDERGARTENS

The time has come for the State of Alabama to stop talking about kindergartens and make kindergartens available to every five year old child in this state. My budget recommendation provides funding for a statewide kindergarten program. I encourage you to leave the attendance requirement optional. We have many fine church and private kindergarten programs ongoing in the State. We can evaluate the performance of these programs and compare them with the performance of the public system. The private kindergartens are serving to keep much of the financial burden off the State. I commend those who are running these programs and encourage them to continue.

DR. TEAGUE'S AND STATE BOARD'S PLAN FOR EXCELLENCE—THE ALABAMA PLAN

I commend our state superintendent, Dr. Wayne Teague, and the State Board of Education for coming forth with the Plan for Excellence for Alabama's public schools. I know that Dr. Teague and members of his staff have been over the length and breadth of Alabama, explaining this plan to parents and educators in the various communities. The outpouring of interest in this plan underscores the public awareness and the public demand for excellence in our schools in the State of Alabama.

I endorse the Plan for Excellence, which Dr. Teague and the Board have asked me to call the Alabama Plan. I have asked Dr. Teague to convene a meeting of the State Board of Education this afternoon which I will attend, and we will consider resolutions to adopt points in the Alabama Plan which can be implemented through action by the State Board of Education. I will encourage those of you in the Legislature to consider the legislation which is required to implement the Plan in those areas which require legislation.

One of the most common questions asked of me in regards to this plan has been the mistaken impression that the Plan would do away with interscholastic athletics in our schools. I can assure you that that is not the case. Alabama's public schools enjoy an excellent athletic program. I have talked with Dr. Teague, and he agrees with me that what we are seeking is common sense and logic in the scheduling of athletic events during the school week, on the junior high level, and for that matter any level, we should not consider scheduling more than one athletic event during a week that would occur on a night preceding a school day. This would allow for a continued basketball program in our high schools and other athletic events which are important to the boys and girls in Alabama. Athletics serve as a cohesive force for many of our communities. They serve as a motivator for many of our students and actually entice many of our students to remain in school who otherwise might drop out.

I feel that we can continue to keep our fine system of championship playoffs in the State of Alabama, and would encourage the State Board to do so. Again, we must use common sense in our scheduling. Schools do not have to travel two and three hundred miles to play an athletic contest.

Some of the resolutions we will be asking the State Board to adopt to implement the Alabama Plan are as follows:

1. To require all teachers to include homework as a part of each stu-

dent's instructional program.

2. We need parent-teacher conferences for all students.
3. We need better guidance programs.
4. We must provide remediation for all students who are failing to learn.
5. Require that all social promotions be discontinued.
6. Require the basics for instruction in grades K-8 be broadened to include language arts, computer literacy, art, music and physical education.
7. We must establish specific learning goals for each grade level.
8. Require the awarding of a general and honors program diploma for students completing specified curriculum of study.
9. We must insist that required courses to obtain an honors diploma be made available to every student.
10. Require that kindergarten be made available to all five year olds.
11. Require that each school system provide adequate adult education programs.
12. We must see that teacher training programs be strengthened.
13. We must make needed changes in our teacher certification programs, allowing for some flexibility.
14. Develop an effective educator evaluation program. Let me assure you that the people affected by the evaluation will be involved in the development of the program.
15. Improve our existing math and science teacher scholarship program.
16. Require in-service and professional development programs for school personnel.
17. Require that students receive a full six hours of instruction per day.
18. We must preserve our outstanding fine arts, band, choral and debate programs. This can be done through proper planning.
19. We will ask every local school system to develop its own plan of excellence.
20. Finally, we must strengthen our curriculum requirements for all students in all program areas. The Alabama Plan provides for this in a very adequate way.

In order to fully implement the Alabama Plan, I am asking that you pass legislation establishing the Alabama Education Reform Commission. The Commission will be composed of representatives of business, industry, labor, education and citizens interested in seeing Alabama become a leader in quality education. It will be charged to study and develop reforms in teacher compensation and professional standards for teachers and administrators.

HIGHWAY PROGRAM

With the enactment of federal legislation last year, Alabamians commenced paying to the Federal Government an additional five cents per gallon on every gallon of gasoline they buy. These funds are set aside for repair

and maintenance of the federal road system throughout the country. Each state must match those funds with certain revenue. Over the next five years 1.4 billion dollars will be available to the State of Alabama to improve the federal roads and bridges in the State. To take advantage of this 1.4 billion dollars, the State of Alabama must match it with 200 million dollars. The Joint Legislative Committee on Highways has recommended a way in which the State would collect the revenue that would enable it to meet its matching requirements on a pay-as-you-go basis. I am going to recommend to you that you implement those recommendations in the Committee's report.

The economics of a 1.6 billion dollar highway program with 1.4 billion dollars being furnished by the federal government are obvious. If we do not use the federal monies paid in by Alabamians, they will be available to other states who do match them, and those funds would not come to Alabama.

By taking advantage of federal funding for the U. S. and interstate roads in Alabama, we will have more state funds available to maintain and upgrade our state and county road network. We are coming through a hard winter with heavy freeze damage to many of our roads. I urge that you move with haste to enact this needed highway legislation. Not only is it needed for our roads, but many jobs will be created through the state and federal road program.

Alabama's government will be as good as her people want and demand it to be in the future. We have all read and heard the calls from leaders in business, local governments, education, leadership groups in communities, the media, and others for improvements in development, research, and education in our state.

Last year, prior to becoming Governor, I appointed a task force on economic recovery. After reading the Task Force's initial report and in view of some of the recommendations they made, I asked them to study Alabama's tax structure and make additional recommendations for improvements in the tax system in light of Alabama's future needs. With financial help from the Governor's Office, they employed Price Waterhouse to make a study of the State's tax system at the present time. In view of Price Waterhouse's work and the Committee's further considerations, the Task Force has recommended certain options to me which I pass on to the Legislature.

The Task Force took particular note to say that they were recommending things they felt should be done and not necessarily things that can be done. Many of their recommendations have been attempted before with little or no success. It is going to take cooperation and leadership to bring about measurable improvements. If you desire a quality education program, if you desire a state that can compete for industry and commerce, if you desire a state where our children can stay and be productive on par with other states in our region, if you desire Alabama to be a meaningful part of the 21st Century, we must provide some long-range funding and identifiable quality standards and controls for public education. I am providing each of you with a copy of the Task Force's report to me. We will also be presenting for your consideration and passage some of the requested items, maybe modified somewhat. Funding measures will not apply to Fiscal Year 1984-85. They will be for future and long-range upgrading of schools and universities in our state.

In keeping with the Task Force's recommendations, I am asking that you submit to the people of Alabama two constitutional amendments designed to raise funds needed for future revenue in Alabama. One of the

amendments addresses property tax, while the other deals with individual and corporate income taxes.

Although the proposed income tax amendment revises the maximum individual income tax rate which can be levied from five percent to six percent, the accompanying enabling legislation which I propose will be structured so that there will be no increase in the tax burden of the average married couple. Those couples with yearly incomes of 20,000 dollars or less should not feel any effect from this legislation, and for every 10,000 dollars of taxable income above this amount, the increased tax will only be 100 dollars.

Corporate income tax would be raised from a flat five percent to six percent with passage of this amendment.

We will also propose a new six mill state property tax which will be used to provide funds for education, to provide new monies for the State General Fund and to provide new monies for the counties of this state for use both for education and for the counties' General Funds. It is my belief, however, that any tax increase should not burden the small homeowner or the small farmer, and so I am also proposing that the state homestead exemption from property taxes be increased by 20 percent so that the owner of a home valued at less than 50,000 dollars will not have to pay any state property tax. In addition, I am proposing a new exemption for the individual rural landowner (not corporations) whose property does not exceed 25,000 dollars in assessed value. These property tax proposals, of course, will not take effect unless approved by a vote of the people, and if approved, will provide our state with much needed monies for education and General Fund purposes, but will not burden small homeowners or owners of small farms.

All of us in state government face a stern challenge. This may *not* be the best time to be a member of the legislature or the Executive Branch. I know that we are presenting you with some difficult choices. Alabama's future depends on your decisions. Empty rhetoric and popular-sounding alternatives which you and all who are informed know will not provide solutions only serve to harm our state and probably to hurt those who would present them in a political sense in the future.

Now is the time for you who will be statesmen to come forth and help to lead Alabama into the future.

The President Pro Tempore and Presiding Officer of the Senate then announced that the purpose of the joint session having been accomplished, the Senate would retire to its Chamber.

The Speaker of the House then called the House to order.

H. J. R. 40. REQUESTING THAT THE INTERSTATE COMMERCE COMMISSION HOLD A PUBLIC HEARING ON AB-55 (SUB. No. 96).

WHEREAS, Baldwin County is a large agricultural county which produces many different kinds of row crops and especially grain and cattle; and

WHEREAS, the deletion of this section of railroad would leave this area without competitive rates in supplying grain, feed, and fertilizer to our important agricultural county; and abandonment of this rail would divert

shipping to state highway 59 which is a major tourist route, and

WHEREAS, this railroad is very important to future industry that might consider locating in this area; now therefore

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That the Interstate Commerce Commission hold a public hearing in or near Baldwin County concerning the abandonment of 33.5 miles of railroad between Bay Minette and Foley in Baldwin County, Alabama, so that the people involved may have an opportunity to present testimony that this railroad has been very vital to the agricultural and lumber industries in Baldwin County.

WHEREAS, there is to be published a proposed rulemaking of the Federal Highway Administration designating a system of highways allowing the use of this equipment in Alabama; and

WHEREAS, the compromise designated system contained in the "Stipulation of the Dismissal" of Civil Action No. 83-H-336-N, recently issued by the Alabama Attorney General is inadequate in the omission of many needed highway links to form a reasonable network for these counties; and

WHEREAS, it is appropriate and necessary within the provision for comments on this impending proposed rulemaking of the Federal Highway Administration to petition the addition of the designated highways for the use of this equipment; now therefore,

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That in the interest of the efficient flow of commerce, and the distribution of the products of industry, we call upon the Federal Highway Administration to add those highways of most direct access from Elba and Enterprise, Alabama, north and east to US Highway 231 at Troy, and west to I-65, at Evergreen, Alabama, to the proposed designated system contained in the Stipulation compromise.

RESOLUTION

The following resolution was introduced:

By Reps. McKee, Rice, Hooper and Cosby:

H. J. R. 47. REQUESTING THE GOVERNOR TO ESTABLISH AN INDEPENDENT, PRIVATELY FINANCED COST SURVEY COMMITTEE.

WHEREAS, a crisis exists in Alabama because citizens are beleaguered once again by the inexorable levy of additional fees, adjustments and new taxes; and

WHEREAS, taxes on the working people are too high already, as bread is taken from their table by a government intended to be their servant but now turning into a master; and

WHEREAS, additional taxes will only exacerbate the plight of the decent law abiding citizens of this State; and

WHEREAS, the Governor during his campaign for election promised there would be no new consumer taxes during his term; and

WHEREAS, the cost of financing government has become a real threat

to be continued prosperity and survival of industrious citizens and businesses; and

WHEREAS, there exists the possibility of pork barrel spending, duplication, waste, and programs unnecessary to perpetuate legitimate and vital state government services; and

WHEREAS, a privately financed, independent committee, composed of 161 corporate officials and chaired by Mr. J. Peter Grace, devoted 18 months to a study of the federal government; and

WHEREAS, this committee released a report on January 12, 1984, which outlined 2,478 ways to trim 424 billion dollars from the federal budget in practical, common sense measures over a period of four years; and

WHEREAS, the citizens of Alabama would react more favorably to any new tax proposals if they felt politicians had exhausted reasonable and prudent methods of setting government's fiscal house in order; and

WHEREAS, a committee constituted and charged as that chaired by Mr. J. Peter Grace would show good faith to Alabama's taxpayers and might discover savings, if not billions, perhaps millions, in budget expenses; now therefore,

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That the Governor is hereby requested to either appoint such a committee of private working people, small businessmen, and corporate officials, or give his aid and support as well as that of state government agencies to any credible committee organized for such a purpose voluntarily.

BE IT FURTHER RESOLVED, That in keeping with the present taxpayers' crisis, this committee should be activated as soon as reasonably possible.

S. 54. To provide further for funding of legislative services and to establish procedures therefor.

WHEREAS, operational expenses and all other financial obligations of the Legislature are derived from the state's General and Special Educational Trust Funds and must therefore be budgeted in advance, as is the case with all state departments similarly funded; and

WHEREAS, the Legislature, however, and perhaps more often than any other department or agency, is required by law to respond to emergency situations which can neither be foreseen nor budgeted in advance; and

WHEREAS, most particularly in recent years, the Legislature, through no fault of its own, has been increasingly faced with situations of an emergency nature including but not limited to numerous unplanned extraordinary sessions and the subsequent costs thereof; and

WHEREAS, in a sincere effort to eliminate the ongoing and ever-increasing problems relative to legislative funding, it is the intent of this Act to provide a funding formula that is both workable and responsible; now therefore,

RESOLUTION

The following resolution was introduced:

By Rep. Campbell:

H. J. R. 70. WHEREAS, the Judicial System of the United States has developed into an overly expensive, overly time consuming, inefficient and inadequate method of enforcing the laws of the United States of the various states and in insuring the rights and privileges of the citizens of this country, and

WHEREAS, the Judiciary, the Bar Association, and lawyers and judges as a whole have suffered and are suffering tremendous slippages in public esteem and public approval, and

WHEREAS, the Governor of the State of Alabama, governors of other states, and the Chief Justice of the United States Supreme Court have, both publicly and privately expressed sincere and serious concerns over developments that have taken place in the judicial system of the United States, and

WHEREAS, it is difficult, if not impossible for any individual state to make meaningful improvements in their individual judicial systems, without such improvements being coordinated with improvements in the entire judicial system of the United States, and

WHEREAS, the citizens of the greatest nation on earth are entitled too a judicial system which is equally great, but which obviously does not exist at the present time, and

WHEREAS, it is past the time for meaningful judicial reform to take place in the United States, which reforms must be led by the Congress of the United States and the Executive Department of the United States government, with the several states thereafter implementing appropriate action, and

WHEREAS, this problem is of such magnitude and is of such tremendous negative impact on the lives, freedoms, and well-being of the citizens of the United States that immediate remedial action is dictated.

THEN THEREFORE, BE IT RESOLVED, by the Legislature of the State of Alabama, both houses concurring, and with the approval of the Governor of the State of Alabama, we do hereby implore the President of the United States, and the United States Congress to act immediately, by the appointing of a special panel, task force, or commission to study the entire judicial system of the United States, and the several states, under a charge to fully investigate this matter and to make appropriate findings of fact, suggestions, and recommendations which may be implemented and which will be designed to bring about meaningful affirmative changes in the judicial system of the United States.

BE IT FURTHER RESOLVED that copies of this resolution be forwarded to the Governor, the President of the United States, the Alabama congressional delegation, and the Chief Justice of the United States Supreme Court.

On motion of Rep. Campbell, the rules were suspended and the resolution, H. J. R. 70, was adopted.

A BILL
TO BE ENTITLED
AN ACT

To amend Section 40-21-53 to provide that municipal corporations will also pay the 2.2% utility tax.

Be It Enacted by the Legislature of Alabama:

Section 1. Section 40-21-53, Code of Alabama 1975, is hereby amended to read as follows:

"Section 40-21-53. Electric or hydroelectric public utility — Generally. (a) Each person, firm or corporation, including municipal corporations, and any corporations organized under chapters 5, 6 and 7 of Title 37, operating an electric or hydroelectric public utility or gas public utility or any other public or municipal utility now paying the two and two-tenths percent shall be subject to the provisions of this section and shall pay to the state a license tax equal to two and two-tenths percent on each \$1.00 of gross receipts of such public utility for the preceding year; except, that gross receipts from the sale of electricity for resale by such electric or hydroelectric public utilities and gross receipts from the sale of electricity to the person identified in subsection (b) of this section shall be deducted in computing the amount of tax due hereunder. For the first year's business, where an existing electric public utility is taken over, such license tax payable to the state shall be equal to two and two-tenths percent of each \$1.00 of gross receipts for the preceding year of the electric utility taken over, after deduction of gross receipts derived from sales of electricity for resale and gross receipts from the sale of electricity to the persons identified in subsection (b) of this section and less whatever sum the prior operators shall have paid as such license tax on the gross receipts for that year. Where no existing electric public utility is taken over, the license tax for the first year upon such utility shall be based upon the first year's business, computed as provided hereinabove, but shall in no event be less than \$100.00 for the first year's business. Any person, firm or corporation, including municipal corporations, establishing a new electric public utility shall pay to the state the sum of \$100.00 and shall also at the same time execute a bond payable to the state of Alabama to insure payment of whatever sum in addition to such \$100.00 may be due when, at the end of the first year, the amount of gross receipts for the year is ascertainable. Such license tax shall be paid to the department of revenue by check made payable to the treasurer and shall be paid quarterly, one fourth on October 1, one fourth on January 1, one fourth on April 1, and one fourth on July 1, and shall become delinquent on the fifteenth day of each of said months. Payment shall be accompanied by a statement made by the president or other officer of the public utility or by the owner thereof giving the name of the person, firm or corporation, including municipal corporations, owning and operating such public utility and the principal place of business thereof, together with a statement under oath of the amount of gross receipts of such public utility for the preceding year. The books of every person, firm or corporation, including municipal corporations, operating such public utility shall be at all times open to the inspection of the department of revenue. Any person failing to make such sworn statement or willfully making a false statement of the gross receipts of such public utility shall be guilty of a misdemeanor and, upon conviction thereof, shall be fined not exceeding \$500.00 and shall also forfeit to the state three times the amount of the license for such public utility, but no

license under this schedule shall be paid to the county or counties.”

(b) (1) On or after October 1, 1981 any person who is 62 years of age or older or totally and permanently disabled and such person is head of a household and does not share his or her residence with more than one other adult person who is less than 62 years of age and who receives electricity at such residence from a utility which is subject to the 2.2 percent license tax levied in subsection (a) of this section shall be entitled to qualify, in accordance with the provisions of subdivision (2) of this subsection, for a credit on his or her monthly electric bill in the amount of the exemption from the 2.2 percent license tax with respect to sales of electricity to such person provided in subsection (a) of this section; provided that the combined gross incomes of all persons who live at the residence of such person 62 years of age or older or such totally and permanently disabled person shall not exceed \$12,000.00 annually. Eligibility for this credit applies only to the extent and amount that it is billed to the customers as a normal requirement under its rates.

(2) Any person who seeks to qualify for the credit provided in subdivision (1) of this subsection shall make application to the department of pensions and security in accordance with the rules promulgated by the department of pensions and security for the implementation and enforcement of this section. The department of pensions and security shall periodically notify, in writing, each electric utility in the state which is subject to payment of the 2.2 percent license tax levied in subsection (a) of this section regarding those customers who are entitled to receive the monthly credit. Within 45 days after receipt of notification for such monthly credit the electric utility shall commence providing such credit for gross receipts license tax that otherwise would be billed.

(3) Any person who wrongfully qualifies for such exemption by giving false information shall be guilty of a misdemeanor and upon conviction may be fined not to exceed \$500.00.

Section 3. All laws or parts of laws in conflict with this Act are hereby repealed.

(e) On July 16, 1982, without prior certification by the Secretary of State in meeting the requirements of Section 284 (as amended by Amendment 24) of the constitution of 1901 "that the election shall be in all things in accordance with the law governing general elections" as provided by Section 17-7-1, the Honorable Fob James, Governor of Alabama, proclaimed Tuesday, the 7th of September 1982 as the election date for the proposed constitutional amendment proposed by Act 81-889 and ordered advertising to commence in each county for four successive weeks preceding such election.

(f) Act 81-889 was published in each county for four successive weeks prior to the September 7th election.

(g) The Legislature in response to the Governor's proclamation sought and received an opinion of the Supreme Court, which said opinion in pertinent part stated "the Governor does not have the authority to approve or disapprove acts or resolutions proposing constitutional amendments. Constitution of 1901, Section 287.

Therefore, we are of the opinion that the Legislature, by Resolution, may validly and constitutionally redesignate the election date for the amendment proposed by Act 81-889."

(h) The Supreme Court in its opinion quoted from an earlier, 1963 Opinion of the Justices, 275 Ala, 372, 155 So.2d 329 (1963):

"We see no constitutional impediment in the same legislature at this succeeding regular session changing the date for holding the election on the proposed amendment. Our answer would probably be in the negative if a different legislature should pass the proposed resolution."

(i) Under the laws of Alabama a new legislature was elected on November 2, 1982 and following a federal court order, a second election for a new legislature was held November 8, 1983.

(j) The Secretary of State is custodian of proposed constitutional amendments and under provisions of state law and the constitution must certify to the Probate Judges by a time specified in the Code of Alabama all candidates and proposed constitutional amendments which are to appear on the ballot in any succeeding election. Pursuant to the Constitution of the State of Alabama, 1901, Article XVIII, Section 284 and 285 and the Code of Alabama, 1975, Section 17-7-1, and other provisions of the Constitution and Statutes of Alabama relating to elections, the Secretary of State, on February 1, 1984, did certify candidates and proposed Constitutional Amendments for the March 13, 1984 elections.

The questions are:

(1) May a different legislature, that is, may the current members of the Alabama House and Senate recall or repeal the proposed constitutional amendment provided by Act 81-889 in view of the fact that the proposed

constitutional amendment was certified by the Secretary of State to the Probate Judges in accordance with the constitution and laws of Alabama on February 1, 1984 for the election to be held March 13, 1984?

(2) Was the publication in each county for four successive weeks prior to the election in 1982 as provided by the Honorable Fob James, Governor of the State of Alabama sufficient to satisfy the notice requirement of Section 284 of the constitution of 1901, as amended, or does such section of the constitution require a second publication of such proposed constitutional amendment?

(3) May the Legislature pass an Act by a simple majority vote and thereby revoke an earlier Act proposing a Constitutional Amendment, passage of which required a three-fifths vote as required by the Constitution?

RESOLVE FURTHER, That the clerk of the House is hereby directed to send sufficient copies of this resolution and all pertinent attachments and documents to the clerk of the Supreme Court and to transmit this request to the Justices of the Supreme Court forthwith.

The resolution, H. R. 84, was read and referred to the Standing Committee on Rules.

SUBSTITUTE OFFERED

Rep. Johnson (Roy) offered the following substitute to the bill, H. 316:

A BILL
TO BE ENTITLED
AN ACT

To establish the Alabama Racing Commission for the regulation and supervision of dog and horse racing and pari-mutuel wagering thereon; to provide for the composition, powers and duties of the Alabama Racing Commission; to impose a privilege tax and to provide for the collection of the same under the provisions of this act; to provide a five-year exemption from the provisions of this act for existing racing facilities and for racing facilities hereafter established; to repeal other laws; to impose the state sales and use tax at all racing facilities in Alabama.

Be It Enacted by the Legislature of Alabama:

Section 1. DEFINITIONS. As used in this act, unless the context otherwise requires, the following words and phrases, and others evidently intended as the equivalent thereof, shall have the following respective meanings:

“COMMISSION” means the Alabama Racing Commission established pursuant to the provisions of this act.

“HANDLE”, when used with reference to any specified period of time, means the total amount deposited in all of the pari-mutuel pools originated by an Operator during such period of time.

“LOCAL RACING COMMISSION” means any commission, board, agency or other entity organized pursuant to the provisions of a Racing Law for the purpose of licensing, regulating and supervising dog racing or horse racing, or both, and pari-mutuel wagering thereon within one or more of the counties or municipalities within the State.

“OPERATOR” means a person licensed by a Local Racing Commission to conduct horse racing events or dog racing events, or both, and pari-mutuel wagering thereon in accordance with the provisions of the applicable Racing Law.

“OWNER” means a Person licensed by a Local Racing Commission to own a racing facility in accordance with the provisions of the applicable Racing Law.

“PERSON” means any natural person, corporation, partnership, joint venture, trust, government or governmental body, political subdivision or other legal entity as in the context may be possible or appropriate.

“RACING LAW” means (i) any duly enacted act of the Legislature of Alabama becoming effective at any time, whether before or after the effective date of this Act, or (ii) any duly adopted provision of the Constitution of Alabama which, in either case, authorizes, subject to such conditions as may be contained therein, the conduct of dog racing or horse racing, or both, and pari-mutuel wagering thereon within one or more of the counties or municipalities in the State.

"STATE" means the State of Alabama.

Section 2. ESTABLISHMENT OF COMMISSION; COMPOSITION THEREOF. The Alabama Racing Commission is hereby created and established and vested with the powers and duties specified in this act. The Commission shall consist of five members to be appointed by the Governor. Each member of the Commission shall have been a resident of the State during the five-year period immediately preceding the date of his appointment. The initial members of the Commission shall be appointed as soon as practicable after the effective date of this Act for initial terms of one year, two years, three years, four years and five years, respectively. After the expiration of such initial terms, each appointment to the Commission shall be for a term of six years. Upon the occurrence of any vacancy in office, a new member of the Commission shall be appointed by the Governor in the same manner as the original appointments. All appointments to the Commission, both initial and subsequent, shall be subject to confirmation by the Senate. An appointee shall hold office pending confirmation by the Senate. Each member of the Commission shall be of good moral character and shall never have been convicted of a felony or other offense involving moral turpitude.

The members of the Commission shall annually elect a chairman and vice-chairman from the membership thereof. No member of the Commission shall serve more than two consecutive terms as chairman. All members of the Commission must receive not less than twenty-four hours advance notice of all meetings of the Commission; provided, however, that members may waive such notice in writing. A majority of the members shall constitute a quorum for the transaction of business by the Commission. All meetings of the Commission shall be open to the public, except that executive or secret sessions may be held by the Commission when the character or good name of a person is involved. All proceedings of the Commission shall be reduced to writing and maintained in the permanent records of the Commission, a copy of which shall be made available for public inspection.

No member or employee of the Commission, and no spouse, child, parent, brother or sister of any such member or employee, (i) shall have any financial interest, direct or indirect, in any race track or operation incidental thereto which is subject to the provisions of this act or (ii) shall participate as owner of a horse, dog or otherwise as a contestant in any race subject to the jurisdiction of the Commission or have any pecuniary interest in the purse or prize contested for in any such race.

Section 3. COMMISSION EMPLOYEES; OTHER COMMISSION EXPENSES; SOURCE OF PAYMENT THEREOF. The Commission may employ an executive secretary and the executive secretary of the Commission may employ secretaries, clerks, legal counsel and other personnel as he may deem necessary, subject to the approval of the Commission. The Commission shall establish the number of employees needed by the Commission, as well as the job descriptions, job qualifications and salaries of any and all employees of the Commission. No employee of the Commission may be related in any manner whatsoever to any member of the Commission. The members of the Commission shall serve without compensation but any member of the Commission shall be reimbursed for expenses paid or incurred in the discharge of official business when approved by the Commission. All members and employees of the Commission shall be subject to the rules, regulations and requirements of the Alabama Ethics Commission.

For the period of five years beginning with the effective date of this act, the Commission may require all of the Operators in the state to pay certain

administrative fees to the Commission in order to provide for the payment of the expenses and costs of the Commission, including the compensation of the employees of the Commission. Such administrative fees may be imposed from time to time by resolution duly adopted by the Commission, provided that such fees shall not be imposed more frequently than semiannually and provided that the total amount of such administrative fees shall not exceed Fifty Thousand Dollars (\$50,000.00) in any calendar year. For any administrative fee imposed pursuant to the provisions of this section, the Commission shall provide each Operator in the State with notice thereof, which notice shall set forth the total amount of the fee to be collected, each Operator's share of such total fee, the date upon which such fee is due and payable [which shall not be earlier than thirty (30) days after the date of such notice] and the costs and expenses of the Commission which are to be paid with the moneys so collected. Each such administrative fee shall be borne by all of the Operators in the State on a proportionate basis, with each Operator's share thereof to be that percentage obtained by dividing (i) such Operator's Handle for the twelve-month period immediately preceding the date of imposition for such fee by (ii) the aggregate Handle of all of the Operators in the State for such twelve-month period. After the expiration of the initial five-year period after the effective date of this Act, the expenses and costs of the Commission shall be paid from the proceeds of the privilege tax provided for in Section 7 of this act. The Commission shall annually submit a budget to the Legislature.

Section 4. POWERS AND DUTIES OF THE COMMISSION. The Commission shall have the powers and duties necessary to carry out the provisions of this act, including, without limitation, the following powers and duties:

(1) The Commission shall have the power to sue and be sued in its own name in civil suits and actions and to defend suits against it.

(2) The Commission shall have the power to adopt and make use of an official seal and to alter the same at pleasure.

(3) The Commission shall have the power to adopt, alter and repeal bylaws, regulations and rules, not inconsistent with the provisions of this act, for the regulation and conduct of its affairs and business.

(4) The Commission shall be vested with supervision and authority over all dog races and horse races conducted within the State and over all persons conducting, participating in or attending such races. The Commission may eject or exclude from any racetrack or from any part thereof any person whose conduct or reputation is such that his presence may, in the opinion of the Commission, reflect adversely on the honesty and integrity of dog racing or horse racing or interfere with the orderly conduct thereof.

(5) The members and employees of the Commission may visit, investigate and have free access to the office, track, facilities or other place of business of an Operator, and may compel the production of any of an Operator's books, documents, records or memoranda for the purpose of satisfying itself that such Operator is truthfully complying with the provisions of this act, the provisions of the applicable Racing Law and the rules and regulations of the Local Racing Commission to the jurisdiction of which such Operator is subject.

(6) The Commission may issue subpoenas for the attendance of witnesses before it, administer oaths and compel production of records or other documents and testimony of such witnesses whenever the Commission finds

it necessary and appropriate so to do in order to carry out its duties under this act or to enforce the provisions of this act.

(7) The Commission shall have the power to compel an Owner or Operator to file with the Commission such information, including, without limitation, financial statements and information relative to stockholders and all others with any pecuniary interest in such Owner or Operator, as shall appear to the Commission to be necessary for the performance of its duties hereunder.

(8) The Commission shall have the power to enter into arrangements with any governmental or nongovernmental agency or association for the purposes of exchanging information, establishing security forces or performing any other act better to ensure the proper conduct of dog racing and horse racing.

(9) The Commission shall have the power to demand and obtain for its files the fingerprints of the following persons, which fingerprints may be taken by a representative of a governmental law enforcement agency as the Commission may designate: (i) all members, officers and employees of the Commission; (ii) every person who is an officer, director, partner or other principal of a corporation, partnership or other entity which holds a license as an Owner or Operator, and every employee of such a licensee whose duties relate to dog racing or horse racing; (iii) all owners of dogs or horses, trainers, jockeys, apprentices, stable employees, managers, agents, blacksmiths, veterinarians and other persons who actively participate in the racing activities of any Operator; and (iv) all other persons whose relationship to dog racing or horse racing and wagering activities is of such nature that the Commission, in the exercise of reasonable judgment, believes that it would be prudent to obtain the fingerprints of such persons.

Section 5. REVIEW OF LICENSES AND PERMITS. The Commission may review the records of each Local Racing Commission pertaining to the (i) licenses granted by such Local Racing Commission to Owners and Operators and (ii) the permits granted by such Local Racing Commission to other participants in racing activities. If the Commission determines, on the basis of any such review, that any such license or permit has been granted by a Local Racing Commission to a Person who is not, under the provisions of the applicable Racing Law (including, without limitation, provisions establishing residency requirements or setting forth general criteria with respect to character and integrity), a qualified holder thereof, then the Commission shall provide such Local Racing Commission with written notice of such determination, along with a demand that such Local Racing Commission either (a) suspend or revoke such license or permit or (b) require the holder of such license or permit to take such actions within a reasonable time as are necessary to comply with the provisions of the applicable Racing Law. Any such license or permit which is not suspended or revoked by such Local Racing Commission may be suspended or revoked by the Commission if the holder thereof has not complied with the pertinent provisions of the applicable Racing Law within a period of three months after the date of the Commission's initial notification to such Local Racing Commission of its determination with respect to such license or permit.

Section 6. REVIEW OF WAGERING OPERATIONS. (a) Pari-mutuel wagering with respect to dog racing and horse racing may be conducted only in accordance with the provisions of the respective Racing Law and the rules and regulations of the respective Local Racing Commissions; provided, however, that any Operator is hereby authorized to conduct pari-

mutuel pools where the bettors are required to select three or more dogs or horses. The Commission shall supervise the pari-mutuel wagering operations at each dog racing facility and horse racing facility within the State. In the event that the Commission determines that pari-mutuel wagering at a racing facility is not being conducted in accordance with the provisions of the applicable Racing Law and the rules and regulations of the Local Racing Commission having jurisdiction over such facility, then the Commission shall provide such Local Racing Commission with written notice of such determination, along with the demand for immediate enforcement of the applicable Racing Law and the rules and regulations thereunder in order to obtain compliance therewith. In the event that the actions required to obtain such compliance do not occur within three months after the date of delivery of such notice from the Commission to such Local Racing Commission, then the Commission may suspend or revoke the license of the Operator conducting the pari-mutuel wagering operation in question or take any other action which such Local Racing Commission is empowered by law to take in such situation.

(b) It is expressly provided that at any existing dog or horse racing track paying eight percent (8%) tax to the Local Racing Commission, the Operator shall be entitled to deduct an additional two percent (2%) from all pari-mutuel betting pools where the bettors are required to select three or more dogs or horses, which shall be added to the present allocation of the licensee.

Section 7. PRIVILEGE TAX. In addition to all other taxes, licenses, fees, assessments and commissions imposed by law, each Operator shall pay an annual privilege tax equal to one percent (1%) of its annual Handle to the State; provided, however, that, for any Operator which is now or hereafter required by law to pay a fee or tax to the Local Racing Commission having jurisdiction over it in an amount equal to or greater than eight percent (8%) of its Handle, the amount of the annual privilege tax hereby imposed shall equal one percent (1%) of that portion of its annual Handle derived from pari-mutuel pools where the bettors are required to select three or more dogs or horses.

In the event that any Racing Law heretofore or hereafter enacted requires any Operator subject to the provisions thereof to pay directly to the State, or any department or agency thereof, a tax, fee or other charge, the amount of which is determined by reference to the amount of such Operator's Handle, then such Operator shall be entitled to a credit against the tax imposed by this section in an amount equal to the amount of the tax, fee or other charge paid by such Operator pursuant to such Racing Law.

Section 8. COLLECTION OF PRIVILEGE TAX. The privilege tax imposed by this act shall be collected in the same manner as other privilege taxes levied by the State. The Department of Revenue of the State is hereby given the authority to examine all the books, records and other documents of each Operator to ensure compliance with the terms of this act and the prompt payment of the tax imposed hereby. The Department of Revenue of the State is hereby authorized to promulgate all rules and regulations necessary to implement the collection and distribution of the tax imposed by this act.

The revenue derived from the privilege tax imposed by this act shall be paid by the Department of Revenue of the State to the State Treasurer for deposit into the General Fund of the State.

Section 9. FIVE-YEAR EXEMPTION FROM PROVISIONS

HEREOF. The existing greyhound racing facilities located in Mobile County and Greene County shall be exempt from the provisions of this act, except for the assessments for the payment of the administrative fees provided for in Section 3 hereof, for the period of five years beginning with the effective date of this act. Any additional racing facility heretofore or hereafter authorized by law shall be exempt from the provisions of this act, except for the assessments for the payment of the administrative fees provided for in Section 3 hereof, for the period of five years beginning with the date upon which the first race is conducted at such racing facility.

Section 10. SEVERABILITY. The provisions of this act are severable. If any provision of this act shall be declared invalid, unconstitutional or void, the balance of this act shall remain in full force and effect.

Section 11. REPEAL OF OTHER LAWS; IMPOSITION OF SALES AND USE TAX AT ALL RACING FACILITIES. All laws or parts of laws which conflict with this act are hereby repealed. The provisions of any Racing Law which exempt the sale of tangible personal property from the Alabama Sales and Use Tax laws are hereby expressly repealed and the sales and use tax laws which are codified in Sections 40-23-1 through 40-23-110, Code of Alabama 1975, are hereby levied and imposed on the sale of all tangible personal property at all existing or future racing facilities in the State of Alabama. The sales and use taxes hereby levied and imposed shall be subject to all definitions, exceptions, exemptions, proceedings, requirements, rules, regulations, provisions, penalties, fines, punishments, deductions and discounts in accordance with the provisions of Sections 40-23-1 through 40-23-110 of the Code of Alabama 1975. Provided, however, that no sales or use tax shall be levied on the sale of alcoholic beverages at any existing or future racing facility licensed under this act.

Section 12. EFFECTIVE DATE. This act shall become effective immediately upon its passage and approval by the Governor, or upon its otherwise becoming a law.

A commission shall be vested with the powers and duties specified in this Act and all other powers necessary and proper to enable it to execute fully and effectively the purposes of this Act. Immediately upon the incorporation of a commission in accordance with the provisions of this Act, horse racing and pari-mutuel wagering thereon conducted in the sponsoring municipality in accordance with the provisions of this Act shall be lawful, notwithstanding any other provisions of law to the contrary.

Notwithstanding any provisions hereof which connect the state with the creation and control of a commission, any commission incorporated pursuant to the provisions of this Act shall not be deemed to be part of the state for any purpose, but shall be treated as a public corporation and body politic separate and apart from the state. Except for the state wagering fee, all fees, commissions and other moneys which a commission shall be authorized by this Act to charge, levy or receive shall be deemed to be moneys belonging exclusively to such commission, and no allocation or payment of such moneys authorized or mandated by this Act shall be considered to be an appropriation of moneys belonging to or controlled by the state.

Notwithstanding any provisions hereof which connect a commission with its sponsoring municipality, the host county or any other county or municipality [including, without limitation thereto, the provisions of Section 4 hereof regarding a referendum in the sponsoring municipality to approve the incorporation of a commission and the provisions of Section 5 hereof providing for (i) the mayor or other chief executive officer of the sponsoring municipality to serve ex officio as one member of a commission and to appoint another member and (ii) the president or other designated presiding officer of the county commission to serve ex officio as one member of a commission], any commission incorporated pursuant to the provisions of this Act shall not be deemed to be a local agency or instrumentality of the sponsoring municipality or the host county, but shall be treated as a public corporation and body politic having rights, powers and duties which, to the extent herein specified, shall be effective without reference to the rights, powers, duties and territories of the sponsoring municipality and the host county. Except for the state wagering fee, all fees, commissions and other moneys which a commission shall be authorized by this Act to charge, levy or receive shall be deemed to be moneys belonging exclusively to such commission, and the sponsoring municipality and the host county shall have no interest therein except to the limited extent expressly provided by this Act.

Section 4. Referendum to Approve Commission. The governing body of any Class 1 municipality shall call and provide for holding a referendum for the purpose of determining if a commission shall be incorporated for such municipality pursuant to this Act. The initial referendum shall be held not less than forty-five (45) days nor more than ninety (90) days after the effective date of this Act and shall be advertised, held, conducted and the results thereof canvassed and declared in the manner provided by law for advertising, holding, conducting and canvassing other municipal elections and as said governing body shall provide in the resolution or ordinance calling such election. The question to be voted on shall be stated on the ballots

or voting machine tags substantially as follows:

"Do you favor the authorization of horse racing and pari-mutuel wagering thereon in the City of _____ (insert the name of the municipality) and the creation of a racing commission for said city to license, regulate and supervise horse racing and pari-mutuel wagering thereon as provided in Act No. _____ (insert Act number) adopted at the _____ (insert session identification) Session of the Legislature of Alabama?"

If a majority of the votes cast in any referendum are "Yes", this Act shall become operative with respect to the municipality conducting such referendum, and horse racing and pari-mutuel wagering thereon shall be legal in such municipality as and to the extent conducted in accordance with the provisions of this Act; if the majority of the votes cast in such election are "No", this Act shall have no further effect with respect to such municipality, unless the governing body thereof should later call another referendum. One or more subsequent referenda may be called by the governing body of a Class 1 municipality if the question submitted at the initial or any subsequent referendum fails to receive a majority of favorable votes; provided, however, that not more than one referendum may be called by any municipality in each calendar year. Once authorized and incorporated, a commission may not be dissolved except pursuant to general act of the Legislature of Alabama applicable to such commission. The results of any referendum conducted for a Class 1 municipality pursuant to this Act shall be certified to the Secretary of State, within 30 days after the election returns are canvassed, by the officer then authorized by law to certify proceedings taken by the election commission, board of canvassers or other body then required by law to canvass and declare the results of elections held in such municipality.

Section 5. Members of Commission. (a) Every commission shall have five members, which shall constitute its governing body. All powers of a commission shall be exercised by its members or pursuant to their authorization. The mayor or other chief executive officer of the sponsoring municipality and the president or other designated presiding officer of the county commission of the host county shall each serve as a member ex officio, and the service of each such official as a member shall begin and end concurrently with the beginning and ending of his or her tenure in such office. The other three members shall be appointed in the manner hereinafter prescribed as soon as may be practicable after the certification to the Secretary of State of a favorable vote at a referendum called and held pursuant to Section 4 of this Act. The mayor or other chief executive officer of the sponsoring municipality, the host county house delegation and the host county senate delegation shall each appoint one member. The appointments of members by the host county house delegation and the host county senate delegation shall be made at meetings of the members of the respective delegations held pursuant to the call of the mayor or other chief executive officer of the sponsoring municipality, who shall provide the members of each delegation with written notice of any such meeting at least ten (10) days prior to the date set therefor. All meetings of the host county house delegation or the host county senate delegation called and held pursuant to this Act shall be open to the public. Any appointment of a member by the host county house delegation or the host county senate delegation must be approved by a majority of the members of such delegation voting in person at a public meeting called and held pursuant to this Act. Any meeting of the host county house delegation or the host county senate delegation at which fewer than a majority of the members of such delegation are present, or at which no appointment of a member is made because of a failure to obtain

the approval of a majority of the members of such delegation, may be adjourned to a future time and place announced at such meetings; provided that, if either delegation fails to appoint a member within thirty (30) days of the date of the first meeting called for the purpose of such appointment, the right of such delegation to appoint a member shall terminate and such appointment shall be made as soon thereafter as practicable by the mayor or other chief executive officer of the sponsoring municipality.

(b) The member to be appointed by the mayor or other chief executive officer of the sponsoring municipality shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the third calendar year next following the calendar year in which the referendum authorizing the incorporation of the commission shall be conducted; the member to be appointed by the host county house delegation shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the fourth calendar year next following the calendar year in which the referendum authorizing the incorporation of the commission shall be conducted; the member to be appointed by the host county senate delegation shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the fifth calendar year next following the calendar year in which the referendum authorizing the incorporation of the commission shall be conducted. Thereafter, the term of office of each appointed member shall be five years, commencing at noon on the July 1 on which the term of the immediate predecessor member shall end.

(c) If at any time there shall be a vacancy among the appointed members of a commission (i.e., those members who do not serve ex officio), a successor member shall be appointed to serve for the unexpired term applicable to such vacancy. The appointment of each appointed member (other than those initially appointed), whether for a full five-year term or to complete an unexpired term, shall be made by the officer or legislative delegation responsible for the appointment of the member whose term shall have expired or is to expire or in whose position a vacancy otherwise exists and shall be made not earlier than thirty (30) days prior to the date on which such member is to take office as such. If the term of any member shall expire prior to the reappointment of such member or prior to the appointment of his successor, such member shall continue to serve until his successor is appointed, and if such member is reappointed for a new term after the expiration of the immediately preceding term which he has been serving, his new term of office shall be deemed to have commenced at noon on the July 1 on which the immediately preceding term shall have expired. Members shall be eligible for reappointment without limit as to the number of terms previously served. In the event that any appointments are not made within sixty (60) days after the certification to the Secretary of State of a favorable vote at a referendum called and held pursuant to this Act (in the case of initial appointments), or within thirty (30) days of the end of a term or other vacancy, then a vacancy shall be filled or a successor member appointed by a majority of the members holding appointments already made or serving as ex officio members. Appointments shall be evidenced by a written certificate executed by the appointing official, or, in the case of appointments made by a majority of the other members, by a certificate signed by the members making such appointment, or, in the case of appointments made by a legislative delegation, by the members of the delegation voting for such appointment or by a member of the delegation designated to serve as the secretary of the meeting at which such appointment is made and to report the results thereof to the Secretary of State. The certifi-

cates evidencing the appointment of members of a commission shall be addressed and delivered to the Secretary of State, who shall maintain the originals of such certificates as official records in his or her office.

(d) Each appointed member of any commission shall have been a resident of the host county for a period of at least five years prior to his or her appointment and shall, at the time of his or her appointment and at all times during his or her term of office, be a resident of the host county and a qualified elector of the state, and a failure by any appointed member to remain so qualified during such term of office shall cause a vacancy of the office of such member. No person serving as a member of the Legislature of the state, serving as a member of the governing body of any municipality, county or other political subdivision of the state, or holding a full-time office or position of employment with the United States of America, the state, any county or municipality in the state, or any instrumentality, agency or subdivision of any of the foregoing, shall be eligible for appointment as a member of a commission. Service by any person as a member, director, trustee or other participant in the management or administration of any governmental agency, board or commission, or public educational institution, or other public body of the United States of America, the state, or any county or municipality or other political subdivision shall not render such person ineligible for appointment as a member of a commission unless such service constitutes full-time employment. Each appointed member shall be of good moral character and shall never have been indicted by a grand jury for any felony or other offense involving moral turpitude, shall never have been convicted of a felony or other offense involving moral turpitude, shall never have been the subject of injunctive or disciplinary action by any federal or state court or regulatory body charged with protecting the public against fraudulent or illegal conduct, and shall never have been made the subject, either singly or in conjunction with others, of an investigation by either a federal or state law-enforcement agency into activities that violate or allegedly violate federal or state laws against criminal conspiracy, racketeering, illegal gambling and other activities associated with organized crime. Each appointed member of a commission shall make and submit to the appointing officer or legislative delegation responsible for his or her appointment an affidavit confirming his or her qualifications, as set forth in the preceding provisions of this subsection (d), to serve as a member of a commission, which affidavit shall be filed with the Secretary of State along with the aforesaid certificate evidencing such appointment. Any appointed member of a commission who in such affidavit intentionally makes a false statement of material fact or intentionally fails to disclose any information necessary to make any statement of material fact made therein not misleading shall be guilty of perjury and shall be subject to prosecution and punishment therefor in the same manner as if he had committed perjury as a witness in open court.

(e) Any person who is an appointed member of a commission shall be deemed to vacate his or her office as such member by (i) the acceptance of any office or employment which, had such person held such office or been so employed at the time of his or her appointment as a member, would have rendered such person ineligible for appointment as a member or (ii) the occurrence of any event or circumstance involving the character of such person [including, without limitation, any of the events or circumstances described in the fourth sentence of subsection (d) of this section] which, had such event or circumstances occurred prior to the time of his or her appointment as a member, would have precluded such appointment. Any appointed member may be impeached and removed from office as a member

of a commission in the same manner and on the same grounds provided in Section 175 of the Constitution of Alabama of 1901, or successor provision thereof, and the general laws of the state for impeachment and removal of the public officers subject to said Section 175 or successor provision thereof. The mayor or other chief executive officer of the sponsoring municipality and the president or other designated presiding officer of the county commission of the host county may not be impeached and removed from office as a member of a commission apart from their impeachment and removal from the respective offices by virtue of which, ex officio, they serve as members.

Section 6. Incorporation of Commission. The five persons initially designated as members of a commission shall become a corporation with the power and authority provided in this Act by proceeding according to the provisions of this Act. To become a corporation, the persons so designated shall present to the Secretary of State an application signed by them which shall contain the following:

- (1) a statement that the applicant propose to incorporate a commission pursuant to this Act;
- (2) the name and principal residence of each of the applicants;
- (3) the date on which each applicant who is not an ex officio member was appointed and the expiration date of the term for which he was appointed;
- (4) the term of office for each applicant who is an ex officio member;
- (5) the name of the proposed corporation, which shall be "The _____ (name of the sponsoring municipality) Commission";
- (6) the location of the principal office of the proposed corporation, which shall be the sponsoring municipality; and
- (7) any other matter relating to such commission which the applicants may choose to insert and which is not inconsistent with this Act or the laws of the state.

The application shall be subscribed and sworn to by each of the applicants before an officer authorized by the laws of the state to take acknowledgements to deeds. The Secretary of State shall examine the application, and if the Secretary of State finds that it substantially complies with the requirements of this section, he shall receive, file and record it in an appropriate book of records in his office.

When the application has been made, filed and recorded as herein provided, the applicants shall constitute a corporation under the name stated in the application, without the necessity of any further action under any other laws of the state applicable to the creation of corporations, and the Secretary of State shall make and issue to the applicants a certificate of incorporation pursuant to this Act, under the Great Seal of the State, and shall record the certificate with the application. There shall be no fees paid to the Secretary of State for any work done in connection with the incorporation or dissolution of any commission.

Section 7. General Provisions Respecting Members of a Commission. No member shall vote on or participate in the discussion or consideration of any matter coming before a commission in which he, his immediate family, or any business enterprise with which he is associated has any direct or indirect pecuniary interest; provided, however, that when any such matter is

brought before a commission, any member having an interest therein which may be in conflict with his obligations as a member shall immediately make a complete disclosure to such commission of any direct or indirect pecuniary interest he may have in such matter prior to removing himself and withdrawing from the commission's deliberations and vote on the matter presented. In furtherance, and not in limitation of the foregoing provision, no member or employee on, and no spouse, child, parent, brother or sister of any such member or employee, (i) shall have any financial interest, direct or indirect, in any horse racetrack or operation incidental thereto which is subject to the provisions of this Act, or in any entity which has submitted an application for a license under this Act, or in the operation of any wagering authorized under this Act or (ii) shall participate as owner of a horse or otherwise as a contestant in any race subject to the jurisdiction of a commission or have any pecuniary interest in the purse or prize contested for in any such race. No appointed member or officer of a commission (e.g., any member or officer of a commission who does not serve as such by reason of his holding another office), no employee of a commission, and no spouse, child, parent, brother or sister of any such appointed member or officer or of any such employee, shall make, or cause to be made on his or her behalf, any contribution to any holder of any office of the state or any office of the sponsoring municipality or the host county of such commission or any contribution to any candidate for any such office.

The mayor or other chief executive officer of the sponsoring municipality and the president or other designated presiding officer of the county commission of the host county shall perform the duties of members of a commission, ex officio, without any compensation other than that to which they are respectively entitled as such municipal or county officers. Appointed members of a commission shall be entitled to such compensation for their services as the commission shall from time to time provide by duly adopted resolution, provided that no appointed member of a commission shall receive more than \$100 for each day or part thereof spent in the performance of his duties. Each member, whether appointed or serving ex officio, shall be reimbursed for his or her reasonable expenses incurred in the performance of his or her duties as a member of a commission. The compensation and expenses of members shall be paid out of the funds of a commission in accordance with such rules as shall be from time to time adopted by such commission. A majority of the members of a commission shall constitute a quorum for the transaction of business by such commission, and, in the absence of a rule incorporated in the bylaws of a commission that, in certain circumstances, may require the favorable vote of a designated percentage of all the members of a commission, decisions shall be made on the basis of a majority of the quorum then present and voting, with each member to have a single vote. No vacancy in the membership of a commission or the voluntary disqualification or abstention of any member thereof shall impair the right of a quorum to exercise all of the powers and duties of the commission.

Section 8. Officers of a Commission. The officers of a commission shall consist of a chairman, vice chairman, executive secretary, treasurer and such other officers as the commission shall deem necessary or appropriate. The chairman and vice chairman of a commission shall be elected by the commission from the membership thereof. The executive secretary shall be appointed as provided in Section 10 hereof. The principal financial officers of the sponsoring municipality of a commission shall serve ex officio as the treasurer of such commission.

Section 9. Treasurer of a Commission; Investment of Funds of a Com-

mission. The treasurer of a commission shall collect all the fees, commissions and other moneys provided for in this Act, and shall supervise, check and audit the operation of the pari-mutuel wagering pools and the conduct and distribution thereof. The principal financial officer of a sponsoring municipality shall perform the duties of the treasurer of a commission, ex officio, without any compensation other than that to which he or she is entitled as the principal financial officer of such sponsoring municipality, but he or she shall be reimbursed for expenses actually incurred in the performance of his or her duties as treasurer of a commission. All managerial, accounting and clerical personnel which the principal financial officer of a sponsoring municipality shall determine to be necessary to keep the books and records of a commission created for such sponsoring municipality and to perform the audit and other financial functions for such commission authorized or contemplated by this Act shall be employees of such sponsoring municipality and shall perform their duties under the supervision of such principal financial officer in his capacity as ex officio treasurer of such commission; provided, however, that the number, qualifications and compensation of personnel employed by such sponsoring municipality to perform all financial functions for such commission shall be subject to the approval of such commission, as well as to such other laws and regulations as may be applicable to such personnel as employees of such sponsoring municipality. Each commission shall reimburse the sponsoring municipality for all costs and expenses incurred in the performance of all financial functions for such commission, including a reasonable allowance for the time of the principal financial officer of such sponsoring municipality devoted to the business of such commission as its ex officio treasurer.

The funds of a commission which its treasurer determines are not then needed to discharge its obligations or to make the disbursements provided for in Sections 34 and 36 hereof may be invested in such of the following investments as its treasurer may determine to be most advantageous or convenient: (i) any time deposit with, or any certificate of deposit issued by, or any acceptance by, any bank which is organized under the laws of the United States of America or any state thereof and deposits in which are insured, in whole or in part, by the Federal Deposit Insurance Corporation or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation; (ii) any direct, general obligation of the United States of America; (iii) any obligation payment of the principal of and interest on which is unconditionally guaranteed by the United States of America; (iv) any direct, general obligation of, or any obligation payment of the principal of and interest on which is unconditionally guaranteed by, any agency or instrumentality of the United States of America (including, without limitation, the Federal National Mortgage Association); and (v) any repurchase agreement or reverse repurchase agreement with any bank which is a member of the Federal Deposit Insurance Corporation (or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation) or with any government bond dealer reporting to and trading with the Federal Reserve Bank of New York, provided that such agreement is secured by obligations or securities described in clauses (i), (ii), (iii) and (iv) of this sentence. Funds of a commission not invested in accordance with the preceding sentence shall be deposited in a bank the principal office of which shall be located in the sponsoring municipality and the deposits of which shall be insured, in whole or in part, by the Federal Deposit Insurance Corporation or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation.

Section 10. Powers and Duties of a Commission. A commission shall have the powers and duties necessary to license, regulate and supervise horse racing and pari-mutuel wagering incidental thereto, including, without limiting the generality of the foregoing, the powers and duties set forth hereinafter in this section or in other sections of this Act.

(1) A commission shall have succession in perpetuity, subject only to the provisions of this Act as it may be amended from time to time.

(2) A commission shall have the power to sue and be sued in its own name in civil suits and actions and to defend suits against it.

(3) A commission shall have the power to adopt and make use of an official seal and to alter the same at pleasure.

(4) A commission shall have the power to adopt, alter and repeal by-laws, regulations and rules, not inconsistent with the provisions of this Act, for the regulation and conduct of its affairs and business.

(5) A commission shall have the power (a) to borrow money from any source, including the sponsoring municipality (which is hereby authorized to lend such money to its related commission), for the purpose of paying expenses that may be reasonably incurred in carrying out its duties in advance of the receipt of fees, commissions and other moneys payable to it under the provisions of this Act, and (b) to pledge as security for the payment of the principal of and interest on the money so borrowed all or any of such fees, commissions and other moneys, which pledge shall be prior to any and all claims to such fees, commissions and other moneys from any intended recipients of breeding fund fees pursuant to Section 34 hereof or from any intended recipients of the net revenues pursuant to Section 36 hereof; provided, however, that no commission shall be entitled to borrow, or to allow to remain outstanding at any time, a principal amount in excess of (i) \$500,000 or (ii) the amount which the commission estimates will be its total operating expenses for the next three years, whichever of such amounts is the lesser.

(6) A commission shall establish and maintain a general business office within its sponsoring municipality for the transaction of its business at a place to be determined by such commission. A commission shall meet at such times and places within its sponsoring municipality as it shall determine.

(7) Each commission shall be vested with supervision and authority over all horse races licensed by it under the provisions of this Act and over all persons conducting, participating in or attending such races. A commission shall employ such persons to be present at race meetings as are necessary to ensure that they are conducted with order and the highest degree of integrity, and it may require that an operator pay such salaries to such of the commission's employees as it shall prescribe. A commission may eject or exclude from any racetrack or from any part thereof any person, whether or not he possesses a permit, whose conduct or reputation is such that his presence may, in the opinion of the commission, reflect on the honesty and integrity of horse racing or interfere with the orderly conduct of horse racing.

(8) A commission and its representatives and employees shall visit, investigate and have free access to the office, track, facilities or other place of business of an operator, and may compel the production of any of an operator's books, documents, records or memoranda for the purpose of satisfying itself that such operator is truthfully complying with the provisions of this

Act and the commission's rules and regulations. A commission shall require that there be delivered to it an annual balance sheet and income statement of each operator subject to its jurisdiction and also a copy of any management, concession or other contract to which any such operator is a party.

(9) A commission shall adopt and publish reasonable rules, regulations and conditions under which all types of racing subject to its jurisdiction, and pari-mutuel wagering, shall be conducted in its sponsoring municipality, and such other reasonable regulations as it deems necessary and appropriate to carry out the purposes and provisions of this Act. Such rules and regulations may include reasonable penalties for violations which shall be in the nature of civil and not criminal penalties.

(10) A commission may issue subpoenas for the attendance of witnesses before it, administer oaths and compel production of records or other documents and testimony of such witnesses whenever such commission finds it necessary and appropriate so to do in order to carry out its duties under this Act or to enforce the provisions of this Act or rules or regulations adopted pursuant hereto.

(11) A commission shall have the power to compel an owner or operator to file with such commission such information, including, without limitation, financial statements and information relative to stockholders and all others with any pecuniary interest in such licensee as shall appear to such commission to be necessary for the performance of its duties hereunder, and may prescribe the manner in which books and records of an owner or operator shall be kept.

(12) A commission shall have the power to enter into arrangements with any governmental or nongovernmental agency or association for the purposes of exchanging information, establishing security forces or performing any other act better to ensure the proper conduct of horse racing.

(13) A commission shall have the power to demand and obtain for its files the fingerprints of the following persons, which fingerprints may be taken by a representative of a law-enforcement agency of the county, state or federal government, by inspectors of such commission or by such qualified private security agency as such commission may designate: (i) all members, officers and employees of such commission; (ii) every person who is an officer, director, partner or other principal of a corporation, partnership or other entity which holds a license as an owner or operator, and every employee of such a licensee whose duties relate to the horse racing business in the sponsoring municipality; (iii) all owners of horse, trainers, jockeys, apprentices, stable employees, managers, agents, blacksmiths, veterinarians and other persons who actively participate in the racing activities of any operator; and (iv) all other persons whose relationship to horse racing and wagering activities under the jurisdiction of such commission is of such nature that such commission, in the exercise of reasonable judgment, believes that it would be prudent to obtain the fingerprints of such persons.

(14) A commission shall report annually to the governing body of its sponsoring municipality and to such state and federal authorities as shall be required by law.

(15) All books, records, maps, documents and papers of a commission, including those filed with such commission as well as those prepared by or for it, shall at all times be open for the personal inspection of any officer of the state, the sponsoring municipality or the host county or any official investigative body or committee of any thereof, and no person having charge

or custody thereof shall refuse this right to any officer or investigative body or committee, and it shall be the express duty of such person to assist such officer or committee in locating records or information. If any member of a commission violates the provisions of this paragraph, he shall be subject to removal from office.

(16) Subject to the provisions of Section 11 of this Act, a commission shall appoint an executive secretary and such other employees as it deems essential to perform its duties under this Act. Such employees shall possess such authority and perform such duties as the commission shall prescribe or delegate to them. Such employees may include stewards, chemists, veterinarians, inspectors, accountants, guards, and such other employees deemed by the commission to be necessary for the supervision and the proper conduct of the highest standard of horse racing. Such employees shall be compensated as provided by the commission.

(17) The executive secretary of a commission, in addition to any other duties prescribed by such commission, shall keep a true and full record of all proceedings of such commission and preserve at such commission's general office all books, documents and papers of such commission.

(18) A commission shall have the authority to employ legal counsel of its choice to advise such commission and represent it in all proceedings. The compensation of such counsel shall be paid out of funds of such commission.

Section 11. Qualifications and Commission Employees. Each appointed officer and each employee of a commission shall be of good moral character and shall never have been indicted by a grand jury for any felony or other offense involving moral turpitude, shall never have been convicted of a felony or other offense involving moral turpitude, shall never have been the subject of injunctive or disciplinary action by any federal or state court or regulatory body charged with protecting the public against fraudulent or illegal conduct, and shall never have been made the subject, either singly or in conjunction with others, of an investigation by either a federal or state law-enforcement agency into activities that violate or allegedly violate federal or state laws against criminal conspiracy, racketeering, illegal gambling and other activities associated with organized crime. As a condition of employment by a commission each employee shall make and submit to such commission an affidavit confirming his or her qualifications, as set forth in the preceding sentence, to be an employee of such commission, which affidavit shall constitute a part of the permanent personnel records of such commission. Any employee of a commission who in such affidavit intentionally makes a false statement of material fact or intentionally fails to disclose any information necessary to make any statement of material fact made therein not misleading shall be guilty of perjury and shall be subject to prosecution and punishment therefor in the same manner as it he had committed perjury as a witness in open court.

Section 12. Review of Commission Actions. Any person aggrieved by a refusal of a commission to issue any license or permit, or suspension or revocation of a license or permit, imposition of a fine, or any other action of the commission, may, within thirty (30) days of such action, appeal to the circuit court of the host county. If such court finds that the action of such commission was arbitrary, it shall order the issuance or reinstatement of such license or permit, abatement of such fine or such other action as it deems appropriate. The decision of such court shall be subject to appeal as in other cases at law.

Section 13. Commission may Obtain Injunctions. Whenever it appears

to a commission that any person has been violating or may violate any provision of this Act or any reasonable rule or regulation or final decision of such commission, it may apply to the circuit court of the host county for an injunction against such person. The order granting or refusing such injunction shall be subject to appeal as in other cases in equity.

Section 14. Licenses Required for Owners and Operators. No person shall construct or establish a horse racetrack where race meetings are to be held and pari-mutuel wagering permitted, or own any such track or racing facilities in the sponsoring municipality, unless he has obtained an owner's license issued by a commission in accordance with the provisions of this Act, which license when granted shall authorize the holder thereof to conduct, establish and own in the sponsoring municipality a horse racetrack where race meetings are held and pari-mutuel wagering permitted in compliance with this Act.

No person shall operate pari-mutuel wagering or conduct any race meeting at which wagering is permitted with his knowledge or acquiescence in the sponsoring municipality unless he has obtained an operator's license under the provisions of this Act, which license when granted shall authorize the holder thereof to operate pari-mutuel wagering or conduct a race meeting at which pari-mutuel wagering is permitted in the sponsoring municipality in compliance with this Act.

No license issued under the provisions of this Act shall be transferable without the approval of the commission which issued such license, such approval to be given or withheld under rules and regulations adopted by such commission.

Section 15. Application for Owner's License. Any person desiring to construct or own a racetrack at which pari-mutuel wagering is permitted shall file with the appropriate commission an application for an owner's license. Such application shall be filed at the time and place prescribed by such commission and shall be in such form and contain such information as may be prescribed by such commission, including the following:

(1) the name and address of such person; if a corporation, the state of its incorporation and the full name and address of each officer and director thereof; if a foreign corporation, whether it is qualified to do business in the state; and if a partnership or joint venture, the name and address of each general partner thereof;

(2) the name, and every address for the period of five years immediately preceding the date of such application, of each stockholder or member of such corporation, or each general partner of such partnership or joint venture, and or joint venture, and of each person who has contracted for a pecuniary interest in the applicant or the facilities at which such race meeting or pari-mutuel wagering will be conducted, whether such interest be an ownership or security interest, and the nature and value of such interest, and the name and address of each person who has agreed to lend money to the applicant; provided that if the applicant proposes to arrange further financing, subsequent to the award of an owner's license, through a sale of stock, partnership interests or other equity interests, the issuance of debt securities, the entering into of financing leases or otherwise borrowing money, then, in such case, such commission may grant an owner's license which sets forth conditions to be met in arranging such further financing or which reserves to such commission the right to approve any or all aspects of such further financing;

(3) such information as such commission deems appropriate regarding the character and responsibility of the applicant and the members, partners, stockholders, officers and directors of the applicant;

(4) the location and description of the racetrack, place or enclosure where such applicant proposes to hold race meetings; provided that such commission may require such information about the facilities and location of the track, including preliminary architectural plans, as it deems necessary and appropriate to determine whether they comply with the minimum standards provided in this Act, and whether the conduct of race meetings at such location would be in the best interests of the people of the state;

(5) such information relating to the financial responsibility of the applicant as such commission deems appropriate;

(6) if any of the facilities necessary for the conduct of racing or pari-mutuel wagering are to be leased, the terms of such lease; and

(7) any other information which such commission in its discretion deems appropriate.

Any application filed hereunder shall be verified by the oath or affirmation of an officer of the applicant, and shall be accompanied by a nonrefundable fee of \$15,000.

Section 16. Review of Application for Owner's License. A commission shall promptly consider any application for an owner's license submitted to it and shall grant or deny such license based on all information before it, including any investigations it deems appropriate. A commission shall deny a license to any applicant unless it finds as follows:

(1) that each natural person having an ownership interest in the applicant, either directly or indirectly, shall have been a resident of the state continuously for a period of five years next preceding the date of the application in question; and

(2) that the applicant's facilities will meet the following minimum standards: (a) that the facilities will provide a track racing surface of at least one mile; and (b) that the facilities will be appropriate for the conduct of year-round racing and night racing.

For purposes of clause (1) of the next preceding sentence of this section, a resident of the state shall be a natural person who during the period in question had such continuing presence in the state as would have satisfied the residency requirements for such person to be and remain a registered voter in the state during such period.

The provisions of this section which permit an owner's license to be granted to an owner only if each natural person having ownership interest in such owner has been a resident of the state continuously for the preceding five years shall not be construed (A) to impair the foreclosure rights of any mortgagee holding a mortgage on the racing facilities of such owner securing debt incurred to finance the costs of constructing or purchasing such racing facilities or (B) to impair the rights of any mortgagee holding such a mortgage, or the rights of any other person, corporation or other legal entity to which such racing facilities may be sold in foreclosure, to take and hold title to such racing facilities, to lease or sell the same, and to apply for and receive an owner's license therefor from the commission upon compliance with all other applicable provisions of this Act, irrespective of whether the aforesaid condition of five years' residency in the state shall be satisfied by each individual having an ownership interest in such mortgagee

or an ownership interest in a corporation or other legal entity to which such racing facilities shall be sold, as the case may be.

A commission shall deny a license to an applicant if it finds that for any reason the issuance of a license to such applicant would not be in the interests of the people of the sponsoring municipality, or that the applicant, or any officer, general partner or director of the applicant:

(i) has knowingly made a false statement of a material fact in the application or has deliberately failed to disclose any information called for in the application;

(ii) is or has been guilty of any corrupt or fraudulent act, practice or conduct in connection with any horse race meeting in the state or any other state;

(iii) has had a license or permit to hold or conduct a horse race meeting denied for just cause, suspended or revoked in any other state or country; or

(iv) is not qualified to do business in the state, or is not subject to the jurisdiction of the courts of the state.

Section 17. Terms of Owner's License. An owner's license issued under this Act shall be for a period determined by the commission issuing such license, not to be less than twenty-five (25) years, but shall be reviewed annually. A commission issuing an owner's license shall state therein the person to whom such license is issued, the duration of such license, the location of the proposed racetrack, and such other conditions of the license and related information as such commission shall deem proper. It shall be the policy of each commission to permit widespread ownership of stock or limited partnership interests in a corporation or partnership holding an owner's license and owning a racetrack facility.

While any owner's license or licenses theretofore issued by a commission shall remain in effect, such commission shall not issue (i) any other owner's license with respect to the racetrack covered by the owner's license or licenses already in effect or (ii) any other owner's license covering any other racetrack to be located in the sponsoring municipality without, in either case, the duly authorized consent of the owner or owners holding all owner's licenses already in effect, which consent shall be obtained in writing prior to the issuance of any such other owner's license. Any provisions of this Act or any other law to the contrary notwithstanding, a commission may, at the time of the issuance of an owner's license to an owner or at any time thereafter, enter into a contract with such owner establishing restrictive conditions under which such commission may license racetracks that would compete with the racetrack covered by the license of such owner, which conditions may, in the discretion of such commission, preclude the licensing of any competing racetracks while such owner's license shall remain in effect. The provisions of any such contract between a commission and an owner shall be deemed to be a part of the terms and conditions of the owner's license granted to such owner. Without in any way limiting the nature of the consideration that might be given by an owner to make such contract binding, the obligations (including any future obligations) of any operator using the racetrack covered by such owner's license to pay the state wagering fee and the commission wagering fee, together with the economic benefits to be derived by the state and by such commission and its sponsoring municipality from the establishment and continued operation of a racetrack, shall be deemed sufficient consideration to make such contract binding upon such commission and any state racing commission. Any such

contract between a commission and an owner shall be binding upon such commission and any state racing commission at any time exercising jurisdiction over such commission or such owner and shall not be impaired by any subsequent action of such commission or such state racing commission or by any act of the Legislature of Alabama which, through the authorization of another licensing entity or by any other means, would permit or encourage the establishment and operation of a competing racetrack in contravention of such contract.

A commission may require a bond with surety acceptable to it in an amount determined by it to be sufficient to cover the maximum indebtedness anticipated to be incurred by the licensee to such commission in any year. The amount of such bond may be adjusted from time to time as such commission may require.

Each commission may require the licensee to pay such commission a license fee of \$2,000 per month for a period beginning six months from the date of issuance of the owner's license to the date of the beginning of operation of the related racetrack. The license fee shall be used by the commission for operating expenses prior to the beginning of operation of the racetrack.

Section 18. Application of Operator's License. Any corporation desiring to hold race meetings at which pari-mutuel wagering is permitted shall file with the appropriate commission an application for an operator's license. Such application may be made in conjunction with an application for an owner's license. It shall be filed at the time and place prescribed by the commission and shall contain such information as prescribed by the commission, including all information required for an owner's license under this Act. Any application for an operator's license filed hereunder shall be verified by the oath or affirmation of an officer of the applicant and shall be accompanied by a nonrefundable fee of \$10,000.

Section 19. Review of Application for Operator's License. A commission shall promptly consider any application for an operator's license submitted to it and shall grant or deny such license based on all information before it, including any investigation it deems appropriate. A commission shall deny a license to any applicant unless it finds as follows:

(1) that such applicant is a corporation organized under Title 10 of the Code of Alabama 1975, or comparable law or laws of another state, and qualified to do business in the state;

(2) if the corporation is a stock corporation, that no one person owns more than thirty percent (30%) in voting rights or value of the stock of such corporation, and that no "family group" (which shall mean, for the purposes of this clause (2), any person and his or her spouse, parents, brothers and sisters) owns more than fifty percent (50%) in voting rights or value of the stock of such corporation; if the corporation is a nonstock corporation, that there are at least ten members, and that no more than twenty percent (20%) of the membership belongs to any family group;

(3) if the corporation is a stock corporation, that one hundred percent (100%) in voting rights and value of such corporation is owned directly or indirectly (through ownership of corporate stock, partnership interests or beneficial interests in one or more trusts or estates) by natural persons who have been residents of the state continuously for a period of five years next preceding the date of the application in question; if the corporation is a nonstock corporation, that members of such corporation possessing one

hundred percent (100%) of the voting rights are natural persons who have been residents of the state for a period of five years next preceeding the date of the application in question;

(4) that the members of the board of directors of such corporation, whether the same shall be a stock or a nonstock corporation, are individuals who have been residents of the state for a period of five years next preceding the date of the application in question;

(5) that the applicant's articles or certificate of incorporation or other corporate documents provide that it may, on vote of a majority of the stockholders or members, purchase at fair market value the entire stock or interest of any stockholder, or require the resignation of any member who is or becomes unqualified for such position under this Act;

(6) that the applicant would be qualified, under the provisions of this Act, for a license to own the racetrack facilities at which it desires to hold a race meeting;

(7) that the applicant shall have made, or shall have committed to make, arrangements satisfactory to such commission for the detection and prosecution of any corrupt or fraudulent act, practice, or conduct in connection with any race meeting, including utilization of the services of a protective agency acceptable to such commission; and

(8) that the applicant shall have obtained and committed to maintain membership in such racing associations (as, for example, the Thoroughbred Racing Association or the United States Harness Association) as such commission finds necessary or desirable to assist an operator to operate race meetings. For purposes of clauses (3) and (4) of the next preceding sentence of this section, a resident of the state shall be a natural person who during the period in question had such continuing presence in the state as would have satisfied the residency requirements for such person to be and remain a registered voter in the state during such period.

Section 20. Terms of Operator's License. An operator's license issued under this Act shall be for a period determined by the commission issuing such license, not to be less than twenty-five (25) years, but shall be reviewed annually. Any such license issued under this Act shall permit the holder thereof to hold and conduct one or more race meetings each year at the racetrack to which such license shall be applicable. Races may be conducted six days or nights a week throughout the year, but not on Sunday.

A commission issuing an operator's license shall state therein the corporation to which such license is issued, the location of the racetrack where meetings are to be conducted, the period during which such license shall be in effect, and such other conditions of the license and related information as such commission shall deem proper.

While any operator's license or licenses theretofore issued by a commission shall remain in effect, such commission shall not issue any other operator's license with respect to any racing events of the kind covered by the operator's license or licenses already in effect without the duly authorized consent of the operator or operators holding all operator's licenses already in effect, which consent shall be obtained in writing prior to the issuance of any such other operator's license. Any provisions of this Act or any other law to the contrary notwithstanding, a commission may, at the time of the issuance of an operator's license to an operator or at any time thereafter, enter into a contact with such operator establishing restrictive conditions under which such commission may license the conduct of racing events that

would compete with the racing events or activities covered by the license of such operator, which conditions may, in the discretion of such commission, preclude the licensing of any competing racing events or activities while such operator's license shall remain in effect. The provisions of any such contract between a commission and an operator shall be deemed to be a part of the terms and conditions of the operator's license granted to such operator. Without in any way limiting the nature of the consideration that may be given by an operator to make such contract binding, the obligations (including any future obligations) of any operator to pay the state wagering fee and the commission wagering fee, together with the other economic benefits to be derived by the state and by such commission and its sponsoring municipality from the conduct of horse racing and pari-mutuel wagering thereon, shall be deemed sufficient consideration to make such contract binding upon such commission and any state racing commission. Any such contract between a commission and an operator shall be binding upon such commission and any state racing commission at any time exercising jurisdiction over such commission or such operator and shall not be impaired by any subsequent action of such commission or such state racing commission or by any act of the Legislature of Alabama which, through the authorization of another licensing entity or by any other means, would permit or encourage the conduct of racing events or activities by persons other than such operator in contravention of such contract.

A commission issuing an operator's license shall require a bond with surety acceptable to it, and in an amount determined by it to be sufficient to cover the maximum indebtedness anticipated to be incurred by the holder of such license to such commission in any year. The amount of such bond may be adjusted from time to time as such commission may require.

Section 21. Suspension or Revocation of License. A commission may suspend or revoke any license or fine the holder thereof not to exceed \$5,000 after hearing with fifteen (15) days' notice in any case where it has reason to believe that any regulation of the commission has not been complied with or has been violated. Annually, each commission shall review the performance of each licensee for compliance with the provisions of this Act and the rules and regulations of such commission. Deliberations of a commission under this section may be conducted in executive session, unless otherwise requested by the licensee. If any such license is suspended or revoked, the commission shall state its reasons for doing so, which shall be entered of record. Such action shall be final unless appealed in accordance with the provisions of this Act.

Section 22. Application to Acquire Interest in Operator. Any person desiring to acquire stock in, or become a member of, a corporation which holds an operator's license hereunder shall apply to the commission which issued such license on a form prescribed by it for approval of such acquisition or membership; provided, however, that no stock in any stock corporation holding an operator's license may be acquired or transferred pursuant to the provisions of this section unless all the natural persons who will ultimately own, directly or indirectly, all the voting rights and value represented by such stock shall have been residents of the state (as "resident of the state" is defined in Section 19 hereof) continuously for a period of five years next preceding the date on which such stock is to be acquired or transferred; provided further that no person shall become a member of any nonstock corporation holding an operator's license unless such person is a natural person who shall have been a resident of the state (as "resident of the state" is defined in Section 19 hereof) continuously for a period of five years next preceding the date on which such person is to become a member

of such corporation. The commission shall consider such application forthwith, and may, if it finds it necessary, demand additional information concerning the proposed acquirer or transferee of stock or the proposed member in a nonstock corporation, as the case may be. If, in the judgement of the commission the acquisition or transfer of stock or membership in a corporation holding an operator's license would be detrimental to the public interest, to the honesty and integrity of racing, or to the reputation of racing, the application shall be denied. If the application is not denied within sixty (60) days, it shall be deemed approved. It shall be the policy of each commission to favor the widespread ownership of stock in operators by residents of the state.

Section 23. Permits Required for Certain Individuals and Companies. No person, firm, corporation or partnership shall participate in any horse racing subject to the jurisdiction of a commission or in the conduct of any racing event or pari-mutuel wagering thereon, whether as a horse owner, trainer, jockey, exercise boy, groom, stable foreman, valet, veterinarian, agent, pari-mutuel employee, concessionaire or employee thereof, or track employee, or enter the track enclosure in any capacity other than as a spectator, unless such person or the firm, corporation or partnership employing such person possesses a permit therefor from the appropriate commission and complies with the provisions of this Act and all reasonable rules and regulations of such commission. No permit issued under this section shall be transferable.

The provisions of this section which require a concessionaire to obtain a permit from the appropriate commission in order to operate a business selling food, beverages, souvenirs or other merchandise to persons attending racing events shall not be construed to permit any commission to charge a concessionaire any license or permit fees measured by its gross revenues or to derive any economic benefit from the operations of such concessionaires other than the permit fees authorized by Section 24 of this Act, it being expressly provided that the owner and the operators for each racing facility shall have the exclusive rights (as they may by contract allocate such rights among themselves) to determine the business conditions under which concessionaires shall operate at racing facilities under the jurisdiction of any commission and to retain all moneys (except for the commission's permit fee as aforesaid) which any concessionaire is willing to pay for the privilege of conducting business at such racing facilities.

Section 24. Application for Permit. Any person, firm, corporation or partnership desiring to obtain a permit as required by this Act shall make application therefor on a form prescribed by the appropriate commission. Each individual applicant and each principal of any firm, chief executive officer of any corporation and managing partner of any partnership applying for a permit for such firm, corporation or partnership, as the case may be, shall be photographed and fingerprinted and shall supply such information as such commission may require. All information contained in, or submitted in support of, any application for a permit shall be confirmed by an affidavit of the person or persons making such application, whether such application shall be made on behalf of such person or persons or on behalf of a firm, corporation or partnership. Any application for a permit made by an individual who seeks to work at a racing facility under the jurisdiction of a commission and any application for a permit made by a firm, corporation or partnership that seeks to provide services or sell merchandise at such racing facility, as the case may be, shall include a statement as to whether such individual, or any owner, principal, officer, director or partner of such firm, corporation or partnership, or any employee of such firm, corporation or

partnership who will actually work at such racing facility, has even been indicted by a grand jury for any felony or other offense involving moral turpitude, has ever been convicted of a felony or other offense involving moral turpitude, has ever been the subject of injunctive or disciplinary action by any federal or state court or regulatory body charged with protecting the public against fraudulent or illegal conduct, or has even been made the subject, either singly or in conjunction with others, of an investigation by either a federal or state law-enforcement agency into activities that violate or allegedly violate federal or state laws against criminal conspiracy, racketeering, illegal gambling and other activities associated with organized crime. Any firm, corporation or partnership which has previously received an effective permit from a commission to provide services or sell merchandise at a racing facility shall, as a condition of maintaining such permit, file with such commission supplemental information (including the statement described in the preceding sentence) concerning any new or additional owners, principals, officers, directors or partners of such firm, corporation or partnership, as the case may be, or any new or additional employees thereof who will actually work at such racing facility. A commission shall be entitled to charge fees for permits according to such schedule as it shall adopt from time to time, and in addition to the fee that it may charge a firm, corporation or partnership having employees at a racing facility under its jurisdiction, it may charge a separate fee for each individual employee of such firm, corporation or partnership working at such racing facility; provided, however, that (i) the permit fee for any one firm, corporation or partnership shall not exceed \$1,000 in any period of one year and (ii) the permit fee for any individual shall not exceed \$50 in any period of one year, regardless of whether such individual is self-employed or is employed by a firm, corporation or partnership also paying a permit fee.

Section 25. Review of Applications for Permits. A commission shall promptly consider any application for a permit submitted to it and shall issue or deny such permit based on the information in the application and all other information before it, including any investigation it deems appropriate. If an application for a permit is approved, the commission approving such application shall issue a permit which shall contain such information as such commission deems appropriate. Such permit shall be valid for one year.

A commission shall deny any such application and refuse to issue a permit, which denial shall be final unless an appeal is taken under the provisions of this Act, if it finds that the issuance of such permit to the applicant therefor would not be in the interest of the applicant, the people of the sponsoring municipality or the horse racing industry in the sponsoring municipality, or that the applicant:

(1) has knowingly made a false statement of a material fact in the application or has deliberately failed to disclose any information called for by the application;

(2) is or has been guilty of any corrupt or fraudulent practice or conduct in connection with any horse racing activity in the state or any other state;

(3) has failed to comply with the provisions of this Act or the reasonable rules and regulations of the commission;

(4) has had a permit to engage in an activity related to horse racing for just cause, suspended or revoked in any other state, and such denial, suspension or revocation is still in effect; or

(5) is unqualified to perform the duties required for the permit sought.

Section 26. Suspension or Revocation of Permit. A commission may suspend or revoke a permit issued under this Act or fine the holder of such permit not to exceed \$1,000, after hearing with fifteen (15) days' notice to such holder, in any case where it has reason to believe that any provisions of this Act, or any reasonable rule or regulation of the commission, has not been complied with or has been violated. The commission may revoke such permit, after such hearing, if it finds that facts not known by it at the time it considered the application for such permit indicate that such permit should not have been issued. Deliberations of a commission concerning the suspension or revocation of a permit may be conducted in executive session unless otherwise requested by the holder of such permit. If any permit is suspended or revoked, the commission shall state its reasons for so doing and shall enter the same in the permanent records of its proceedings. The suspension or revocation of a permit shall be final unless an appeal is taken in accordance with the provisions of this Act.

Section 27. License Required for Stewards; Appointment of Stewards for Race Meetings. Any person desiring to act as a steward for any race meeting conducted pursuant to this Act must obtain a license from the commission having jurisdiction over such race meeting. Each commission shall require each applicant for a steward's license to pass one or more examinations on matters relating to the duties of stewards. Such examinations shall be prepared and administered in accordance with rules and regulations to be adopted by each commission. Any commission may establish other requirements, in addition to successful completion of such examinations, which must be met by any applicant in order to obtain a steward's license, including, without limitation, payment of reasonable license fees. Any steward's license issued pursuant to this Act shall have a term not exceeding two years, provided that the term of any such license may be extended or renewed at the option of the appropriate commission.

Three licensed stewards shall be appointed to supervise each race meeting conducted pursuant to this Act. Two of such stewards shall be appointed by the commission governing such race meeting and one shall be appointed by the operator conducting such race meeting. Such stewards shall exercise such powers and perform such duties at each race meeting as may be prescribed by the rules and regulations of the governing commission.

Section 28. General Provisions Respecting Pari-mutuel Wagering. Pari-mutuel wagering conducted by an operator shall be conducted in accordance with the provisions of this section. An operator shall provide a place or places at the racetrack operated by it at which such operator shall conduct a pari-mutuel system of wagering by its patrons on the results of horse races held at such racetrack. Such place or places shall be provided with the electronic or mechanical equipment necessary to issue pari-mutuel tickets, as well as the electronic or mechanical equipment necessary to record the wagering, compute the odds, and determine the awards to winning bettors, all in an accurate and speedy manner. All such equipment shall be approved by the commission licensing such operator before being used, but such commission shall not require the installation of any particular make of such equipment.

Subject to the provisions of the next succeeding paragraph, an operator shall distribute to the winners of each pari-mutuel pool the total amount wagered with respect to that pool, less the following deductions to be re-

tained by such operator as in the case may be applicable:

(i) in the case of any pari-mutuel pool where the bettor is required to select one horse, there shall be deducted an amount equal to seventeen percent (17%) of the total amount wagered with respect to that pool plus the breakage applicable to the winning bets for that pool;

(ii) in the case of any pari-mutuel pool where the bettor is required to select two horses, there shall be deducted an amount equal to twenty-one percent (21%) of the total amount wagered with respect to that pool plus the breakage applicable to the winning bets for that pool; and

(iii) in the case of any pari-mutuel pool where the bettor is required to select three or more horses, there shall be deducted an amount equal to twenty-three (23%) percent of the total amount wagered with respect to that pool plus the breakage applicable to the winning bets for that pool.

In addition to the amounts permitted by the preceding sentence to be deducted from all pari-mutuel pools and retained by an operator, such operator shall be permitted to retain all moneys represented by unclaimed, uncashed, or abandoned pari-mutuel tickets; provided, however, that no pari-mutuel ticket shall be deemed to be unclaimed, uncashed, or abandoned unless it shall not be presented for payment within six months from the date of the running of the race to which such pari-mutuel ticket pertains.

During any period in which an operator shall be required to pay the state wagering fee, such operator shall have the right to increase the deduction permitted by the next preceding paragraph by an amount up to one percent (1%) of the total amount wagered with respect to any pari-mutuel pool, any provisions of this act or any other law to the contrary notwithstanding. It is hereby expressly declared that this right is conferred upon each operator licensed by a commission for the purpose of enabling such operator to generate all or part of the money necessary to pay the state wagering fee, and any increase in the amount deducted by an operator from any pari-mutuel pools pursuant to the exercise of such rights shall not be made the basis of any increase in the state wagering fee, the commission wagering fee or any other taxes, fees or commissions payable by such operator. No increase in the amount deducted from any pari-mutuel pool shall be permitted pursuant to this paragraph until such time as an operator shall become liable for the state wagering fee, but thereafter, and for so long as such operator shall remain liable for the state wagering fee, the right conferred by this paragraph to increase the amount deducted may be exercised at any time and from time to time (including the right to institute an increase and thereafter discontinue and resume it any number of times), may be exercised with respect to all pari-mutuel pools or with respect to some and not to others, and may be exercised with respect to any pari-mutuel pool in any degree of increase, not exceeding in any case more than one percent (1%) of the total amount wagered with respect to that pool, all as such operator shall determine in the exercise of its sole discretion without direction or influence from the commission licensing such operator, any state racing commission or any other governmental body.

A commission shall adopt and maintain rules and regulations for each kind of pari-mutuel pool that may be operated by an operator licensed by such commission, and such rules and regulations shall be published by such commission in book or pamphlet form for general distribution to all interested persons. Under the pari-mutuel system of wagering hereby authorized, an operator shall be permitted to provide separate pools for bets to win, place, and show, as well as separate pools for more complex wagers involv-

ing such combinations of races and such combinations of the outcomes of races as shall be approved by the commission licensing such operator. Each pool (less the amount that the operator is permitted to retain pursuant to the provisions of this section) shall be distributed separately to the winners thereof in accordance with the rules and regulations of the governing commission for that kind of pari-mutuel pool. If there is no ticket bet on the winning horse or combination of horses for any pari-mutuel pool, the portion of the pool which would have been distributed to any winners thereof shall be distributed to the holders of tickets for such pool in accordance with the rules and regulations of the governing commission for that kind of pari-mutuel pool.

Section 29. State Wagering Fee. No license tax, fee or equivalent charge shall be levied by the State against horse racing or pari-mutuel wagering thereon licensed and regulated by a commission during a period beginning with the effective date of this Act and continuing until the end of the fifth (5th) calendar year next succeeding the calendar year in which racing events shall first be conducted under the jurisdiction of such commission. Beginning with the sixth (6th) calendar year next succeeding the calendar year in which racing events shall first be conducted under the jurisdiction of a commission, and continuing thereafter for so long as such commission shall continue in existence, each operator licensed by such commission shall pay to the department of revenue of the state (or such other department or agency of the state as may be provided by law) a state wagering fee in an amount equal to one percent (1%) of the handle of such operator. The state wagering fee shall be paid in installments referable to the calendar months during which racing events shall be conducted by an operator, and the installment referable to any calendar month shall be an amount equal to one percent (1%) of the handle of such operator for such calendar month and shall be paid to the department of revenue of the state (or such other department or agency of the state as may be provided by law) prior to the end of the next succeeding calendar month. The department of revenue of the state (or other collecting department or agency of the state) is hereby authorized to promulgate and enforce such rules and regulations, not inconsistent with the provisions of this Act, as shall be reasonably necessary for the determination and collection of the state wagering fee. The department of revenue of the state (or other collecting department or agency of the state) may require a bond with surety acceptable to it in an amount determined by it to be sufficient to cover the maximum liability for the state wagering fee that may at any time be incurred by an operator.

The Legislature hereby finds and determines that the state wagering fee authorized by this Act is the maximum license fee or equivalent tax or charge which can be levied by the State against horse racing or pari-mutuel wagering thereon without impairing the economic viability of horse racing and lessening its contribution to increased employment and tourism in the State. No state racing commission shall have the power to increase the state wagering fee above the limits provided in this Act, to impose the state wagering fee for any period not herein authorized, or to levy or impose any additional license fee or equivalent tax or charge against horse racing or pari-mutuel wagering thereon conducted under the provisions of this Act.

Section 30. Commission Wagering Fee. Each operator shall pay to the treasurer of the commission licensing such operator a commission wagering fee for each calendar year during which it conducts any racing events. The amount of the commission wagering fee for an operator for a given calendar year shall be equal to the sum of (i) two percent (2%) of the handle of such

operator for such calendar year to the extent that such handle does not exceed one hundred fifty million dollars (\$150,000,000) and (ii) four percent (4%) of the portion of the handle of such operator for such calendar year that exceeds one hundred fifty million dollars (\$150,000,000). Each operator shall make payment of its commission wagering fee for each calendar year to the treasurer of the licensing commission in monthly installments. For each calendar year, the monthly installment referable to any month (other than the month during which the final racing event for such calendar year shall be conducted) shall be equal to two percent (2%) of the handle for such month. The monthly installment referable to the month during which the final racing event for any such calendar year shall be conducted shall be equal to the sum of (i) two percent (2%) of the handle for such month and (ii) two percent (2%) of the portion of the aggregate handle for such calendar year in excess of \$150,000,000. The installment of the commission wagering fee referable to any calendar month shall be paid to the treasurer of the appropriate commission prior to the end of the next succeeding calendar month.

If at any time during a calendar year the aggregate handle of an operator for such calendar year exceeds \$150,000,000, then such operator shall, in order to assure the availability of moneys required to pay the final installment of its commission wagering fee for such calendar year, set aside and invest moneys in an amount equal to two percent (2%) of the portion of such aggregate handle in excess of \$150,000,000 in investments of the kind in which the funds of a commission are permitted by Section 9 hereof to be invested by its treasurer. Any such investments acquired by an operator shall be held by it in trust for the benefit of the commission licensing such operator in order to secure the payment of the commission wagering fee, but the operator shall be entitled to any interest earned from such investments until the due date of the final installment of the commission wagering fee for such calendar year.

The Legislature hereby finds and determines that the commission wagering fee authorized by this Act is the maximum license fee or equivalent tax or charge which can be levied by a commission or by any political subdivision of the state against horse racing or pari-mutuel wagering thereon without impairing the economic viability of horse racing and lessening its contribution to increased employment and tourism in the state. No commission shall have the power to increase the commission wagering fee above the limits provided in this Act or to levy or impose any additional license fee or equivalent tax or charge against horse racing or pari-mutuel wagering thereon conducted under the provisions of this Act.

Any provision of this Act or any other law to the contrary notwithstanding, a commission may, at the time of the issuance of an owner's or operator's license or at any time thereafter, enter into a contract with the owner or operator to which such license may be issued for the purpose of establishing limits on the amount of the taxes, fees and commissions that may be levied or charged by the state, any political subdivision thereof or any other governmental body for the granting, use or continuation of an operator's license with respect to a particular racetrack during the term or duration of such license, which limits may not provide for license fees less than the license fees established at the time of such contract by this Act or any other then effective law amending or supplementing this Act. The provisions of any such contract between a commission and an owner or operator shall be deemed to be a part of the terms and conditions of the license in connection with which such contract is made. Without in any way limiting the nature of the consideration that may be given by an owner or opera-

tor to make such contract binding, the obligations (including any future obligations) of any operator to pay the state wagering fee and the commission wagering fee, together with the other economic benefits to be derived by the state and by such commission and its sponsoring municipality from the conduct of horse racing and pari-mutuel wagering thereon, shall be deemed sufficient consideration to make such contract binding upon such commission and any state racing commission. Any such contract between a commission and an owner or operator shall be binding upon such commission and any state racing commission at any time exercising jurisdiction over such commission or such owner or operator and shall not be impaired by any subsequent action of such commission or by any act of the Legislature which attempts to increase the fee for an operator's license covered by such contract or to impose any tax or additional license fees in excess of the limits established by such contract.

Section 31. Purses. From the moneys deposited in pari-mutuel pools which are not distributed to the holders of winning tickets, each operator shall apply an amount equal to seven percent (7%) of its total handle to provide purse moneys for races conducted by such operator. Prior to the commencement of any race meeting, the operator conducting such meeting shall estimate the amount of its handle to be derived from such meeting. Based upon such estimate, the operator shall adopt a schedule providing for a reasonable allocation of purse moneys over the period of the anticipated race meeting. Any such schedule may be amended from time to time during the course of a race meeting if it becomes apparent that the operator's actual handle for such race meeting will not match its original estimate.

Each operator shall provide the commission licensing such operator with periodic reports respecting the amounts applied by such operator to provide purse moneys. If at the close of any race meeting it is determined that the operator conducting such meeting failed to apply an amount equal to seven percent (7%) of its handle for such meeting to provide purse moneys, then any excess shall be deducted from, and any deficiency shall be added to, the amount which such operator is required to provide as purse moneys for its next succeeding race meeting.

Section 32. Television or Radio Transmission of Racing Events. Each commission shall have the power to adopt rules and regulations specifying the conditions under which television or radio coverage of racing events held at racetracks located outside the state may be transmitted for public viewing to facilities within the sponsoring municipality which are under the jurisdiction of such commission and there made the object of pari-mutuel wagering. Subject to such exceptions as a commission may approve by rule or regulation in order to satisfy applicable requirements of federal law, all pari-mutuel wagering with respect to such racing events that are subject to television or radio coverage shall be subject to the rules governing pari-mutuel wagering on racing events conducted at racetracks under the jurisdiction of such commission, including the provisions of Section 28, 29 and 30 hereof.

Each commission shall also have the power to adopt rules and regulations specifying the conditions under which television or radio coverage of racing events held at racetracks under the jurisdiction of such commission may be either (i) transmitted on a live or delayed basis by a commercial television or radio station or network for the entertainment of the public or (ii) transmitted to specific locations in other states for the purpose of pari-mutuel wagering at such locations.

Section 33. Admission Fee. The governing body of a sponsoring municipality may by ordinance impose a fee on an operator licensed hereunder to conduct a race meeting of \$.25 on the admission of each person on each day of such meeting, except those persons holding valid permits under this Act and actually employed at such track in the capacities for which such permits were issued. The operator may collect such amount from the ticket purchaser in addition to the amount charged for the ticket of admission.

Section 34. Breeding Fund. Each commission shall establish a special fund to promote the breeding, raising and racing of thoroughbred and standardbred horses in the state, which shall be known as "The _____ (name of the sponsoring municipality) Racing Commission Breeding and Development Fund." Each operator shall pay to its licensing commission a breeding fund fee for each month during which it conducts any racing events. For each operator, the breeding fund fee for any month shall be an amount equal to one-half of one percent ($\frac{1}{2}\%$) [or, in the case of any such fee referable to any month during the period of three years immediately following such operator's receipt of an operator's license, one-fourth of one percent ($\frac{1}{4}\%$)] of the handle for such operator for such month. The breeding fund fee payable by an operator for a given month shall be paid to the treasurer of the commission governing such operator before the end of the succeeding month. All breeding fund fees received by a commission shall be deposited into its breeding fund.

Twenty percent (20%) of the aggregate amount of breeding fund fees received by each commission in each calendar year shall be set aside for distribution to the schools of veterinary medicine at Auburn University and Tuskegee Institute. Each commission shall distribute the moneys so set aside on such schedule as shall be administratively reasonable and convenient, but in any event all such moneys referable to the breeding fund fees received in any calendar year shall be distributed not later than sixty (60) days after the end of such calendar year. Each commission shall divide the twenty percent of the breeding fund fees required to be set aside for the schools of veterinary medicine at Auburn University and Tuskegee Institute between such schools in an equitable manner, taking into account the number of students served by each school, the nature and quality of equine research conducted at each such school and such other factors as such commission shall deem relevant in the circumstances; provided, however, that neither of such schools of veterinary medicine shall receive less than twenty-five percent (25%) of the total amount required to be set aside by the provisions of this paragraph in any calendar year. All moneys distributed to the schools of veterinary medicine at Auburn University or Tuskegee Institute pursuant to this paragraph shall be used exclusively for supportive research on the health and diseases of the horse.

Each commission shall adopt rules and regulations governing the maintenance and administration of its breeding fund and the disbursement of the moneys deposited therein, provided that such moneys may be used only for the purposes specified in the next preceding paragraph of this section and for the following additional purposes:

(1) to provide awards to breeders and owners of Alabama-bred thoroughbred or standardbred horses finishing first, second, third or fourth in pari-mutuel races run in the state;

(2) to provide awards to stallion owners whose Alabama stallions have sired Alabama-bred thoroughbred or standardbred horses finishing first, second, third or fourth in pari-mutuel races run in the state;

(3) to provide purse moneys for races conducted exclusively for Alabama-bred thoroughbred or standardbred horses under conditions which have been approved by such commission;

(4) to advance and promote the breeding and raising of thoroughbred and standardbred horses in the state by the publication and dissemination of information relating thereto;

(5) to promote equine research through grants to universities within the state; and

(6) to provide for the administration and management of such breeding fund.

Section 35. No Taxes in Addition to Fees. The state wagering fee, the commission wagering fee and any other fees imposed by this Act on pari-mutuel wagering shall be in lieu of all license and excise taxes imposed on horse racing and pari-mutuel wagering thereon by the state or any county, municipality or other political subdivision thereof; provided, however, that this section shall not be construed to confer any exemption with respect to any uniform taxes levied generally on property, income or business activity, including, without limitation (i) income taxes levied by the state, (ii) occupational taxes levied on wages by a sponsoring municipality or host county, (iii) ad valorem taxes levied on any racing facility at the same rates as are applicable to other commercial property having comparable market value, and (iv) state and local sales taxes on merchandise sold by operators or their concessionaires at racing events.

Section 36. Application of Net Revenues. All commission wagering fees and other fees, commissions and moneys, including fines and forfeitures, to which a commission shall be entitled under the provisions of this Act shall be paid to the treasurer of such commission and shall be deposited by said treasurer to the account of such commission. All such moneys remaining after (i) the payment of all expenses incurred in the administration of this Act, including, without limitation thereto, the payment of the salaries and expenses of the members and employees of such commission and (ii) the deposit into the breeding fund of all amounts required by Section 34 hereof to be deposited therein shall be allocated and paid not less frequently than once each calendar year as follows:

(1) eighteen percent (18%) of the net revenues shall be allocated to the sponsoring municipality, subject to the condition that five percent (5%) of the amount so allocated shall be contributed to the general employees' pension fund of the sponsoring municipality for the purpose of providing cost-of-living increases in pension benefits;

(2) ten percent (10%) of the net revenues shall be allocated in total to the county or counties in which the sponsoring municipality or any part thereof shall be located, subject to the conditions that

(i) if the sponsoring municipality is located in more than one county, the portion of the said ten percent of net revenues allocated to each such county shall be determined in proportion to the population of the sponsoring municipality residing in such county as determined by the most recent federal decennial census,

(ii) one-half of the amount of net revenues allocated to any county shall be used for county-wide purposes (including both incorporated and unincorporated areas) in such manner as shall be determined by the governing body of such county, and

(iii) one-half of the amount of net revenues allocated to any county shall be used to defray the cost of governmental operations conducted in the unincorporated parts of such county or shall otherwise be used for the exclusive benefit of the unincorporated parts of such county in such manner as shall be determined by the governing body thereof;

(3) if the Board of Trustees of the University of Alabama operates a college, graduate school, extension center or other educational facility located in any county in which the sponsoring municipality or any part thereof shall be located, nine percent (9%) of the net revenues shall be allocated to the Board of Trustees of the University of Alabama, subject to the conditions that

(i) such amount shall be used exclusively in the county or counties in which the sponsoring municipality or any part thereof shall be located,

(ii) one-twelfth (1/12) of the amount of net revenues allocated to the Board of Trustees of the University of Alabama shall be used for the support of any programs operated for the correction or treatment of learning disorders of any kind or research into the causes of such disorders, and if no such programs are operated by the Board of Trustees of the University of Alabama in the county or counties in which the sponsoring municipality or any part thereof shall be located, such portion of the net revenues shall be used in such county or counties for such other purposes or programs as may be determined by said Board of Trustees, and

(iii) one-twelfth (1/12) of the amount of net revenues allocated to the Board of Trustees of the University of Alabama shall be used for the support of any programs or laboratories operated for research in virology, and if no such program or laboratories are operated by the Board of Trustees of the University of Alabama in the county or counties in which the sponsoring municipality or any part thereof shall be located, such portion of the net revenues shall be used in such county or counties for such other purposes or programs as may be determined by said Board of Trustees;

(4) three percent (3%) of the net revenues shall be allocated in total to public junior colleges [other than any public junior colleges described in paragraph (5) of this section] located in the county or counties in which the sponsoring municipality or any part thereof shall be located; and if there shall be more than one of such public junior colleges, the said three percent of the net revenues shall be apportioned equally among such junior colleges;

(5) two percent (2%) of the net revenues shall be allocated in total to public junior colleges which are located in the county or counties in which the sponsoring municipality or any part thereof shall be located and the student enrollment of which is predominantly drawn from economically disadvantaged minorities; and if there shall be more than one of such public junior colleges, the said two percent of the net revenues shall be apportioned equally among such colleges;

(6) two percent (2%) of the net revenues shall be allocated in total to public technical colleges located in the county or counties in which the sponsoring municipality or any part thereof shall be located; and if there shall be more than one of such public technical colleges, the said two percent of the net revenues shall be apportioned equally among such colleges;

(7) two percent (2%) of the net revenues shall be allocated to any public corporation or authority which provides public transportation in an area including the sponsoring municipality;

(8) twenty percent (20%) of the net revenues shall be allocated in total to all county, municipal, district or other public school systems operating primary and/or secondary schools in any county or counties in which the sponsoring municipality shall be located; and if there shall be more than one of such school systems, the said twenty percent of the net revenues shall be allocated to such school systems in proportion to their average daily attendance during the most recently completed school year;

(9) if any incorporated municipalities other than the sponsoring municipality are located in the county or counties in which the sponsoring municipality or any part thereof shall be located, six percent (6%) of the net revenues shall be allocated in total to such other municipalities; and if there shall be more than one of such municipalities, the said six percent of the net revenues shall be allocated to such municipalities in proportion to their population as determined by the most recent federal decennial census;

(10) two and one-half percent (2½%) of the net revenues shall be allocated in total (i) to any public fire districts or volunteer fire departments organized and operating in unincorporated parts of the county or counties in which the sponsoring municipality or any part thereof shall be located and (ii) any municipal fire departments operated by municipalities that are located in the county or counties in which the sponsoring municipality or any part thereof shall be located and that have populations of one thousand (1,000) persons or less according to the most recent federal decennial census; and if there shall be more than one of such public fire districts, volunteer fire departments or municipal fire departments, the said two and one-half percent of the net revenues shall be allocated equally among such public fire districts, volunteer fire departments and municipal fire departments, with each thereof to receive an equal share, regardless of the number of participating firemen, the extent of the territory or number of buildings protected, or any other measure of the relative sizes of such public fire districts, volunteer fire departments and municipal fire departments; provided, however, that if any commission shall be created pursuant to this Act for which the sponsoring municipality shall be the City of Birmingham, then, and in such case, the two and one-half percent of the net revenues referred to in this paragraph (10) shall be allocated to one or more public fire districts, volunteer fire departments and municipal fire departments in Jefferson County on such basis and in such manner as shall be determined by a public agency or authority to be created pursuant to law enacted at the session of the Legislature at which this Act is enacted or any subsequent session of the Legislature;

(11) two percent (2%) of the net revenues shall be allocated in total to any hospitals which are owned by any county, municipality or public corporation or authority and which are located in the county or counties in which the sponsoring municipality shall be located; and if there shall be more than one of such hospitals, the said two percent of the net revenues shall be allocated to such hospitals in proportion to their average patient census during the most recently completed annual period selected by the commission for the purpose of making such allocation;

(12) one-half of one percent (½%) of the net revenues shall be allocated in total to any public authority or corporation at any time created by law to alleviate or solve, or to assist in the alleviation or solution of, flooding problems caused by creeks in the sponsoring municipality and host county as the result of heavy rainfall; and if no such authority or corporation shall be in existence at the time of any allocation required to be made pursuant to this paragraph (12), such allocation shall be made to the sponsoring mu-

municipality for use in alleviating or solving such flooding problems, provided that the sponsoring municipality may use such allocation for other purposes if its governing body shall determine that no such flooding problems occur in the sponsoring municipality;

(13) one percent (1%) of the net revenues shall be allocated to the Tannehill Furnace and Foundry Commission established pursuant to Code of Alabama 1975, §§ 41-9-320 through 41-9-330, inclusive;

(14) one-half of one percent ($\frac{1}{2}\%$) of the net revenues shall be allocated in total to the civil defense department at the time and from time to time maintained and administered by the sponsoring municipality;

(15) one percent (1%) of the net revenues shall be allocated to the Alabama State Fair Authority established pursuant to Act No. 215 enacted at the 1947 Regular Session of the Legislature of Alabama; and

(16) if and to the extent that the allocations of net revenues described in this paragraph can be lawfully made to recipients satisfying the applicable conditions as herein set forth, the commission shall allocate and disburse the following percentages of the net revenues for the following purposes:

(i) three percent (3%) of the net revenues shall be allocated in total to private, not-for-profit colleges which are located outside the corporate limits of the sponsoring municipality in any incorporated or unincorporated part of any county in which the sponsoring municipality or any part thereof shall be located and the student enrollment of which is predominantly drawn from economically disadvantaged minorities;

(ii) three percent (3%) of the net revenues shall be allocated in total to private, not-for-profit law schools which are located outside the corporate limits of the sponsoring municipality in any incorporated or unincorporated part of any county in which the sponsoring municipality or any part thereof shall be located and the student enrollment of which is predominantly drawn from economically disadvantaged minorities, it being expressly provided that the receipt by a college of any amount pursuant to the provisions of subparagraph (i) of this paragraph (16) shall not disqualify any law school affiliated with such college from receiving any amount for which such law school would otherwise qualify pursuant to the provisions of this subparagraph;

(iii) one-half of one percent ($\frac{1}{2}\%$) of the net revenues shall be allocated in total to private, not-for-profit colleges which are located in the sponsoring municipality and the student enrollment of which is predominantly drawn from economically disadvantaged minorities;

(iv) one percent (1%) of the net revenues shall be allocated in total to not-for-profit organizations, whether public or private, which operate in any county in which the sponsoring municipality or any part thereof shall be located and which promote, undertake or otherwise assist the career orientation, training and employment of persons belonging to economically disadvantaged minorities;

(v) one percent (1%) of the net revenues shall be allocated in total to not-for-profit organizations, whether public or private, that are located in the sponsoring municipality and that promote economic development in the surrounding municipality and the surrounding metropolitan area;

(vi) five percent (5%) of the net revenues shall be allocated in total to private charitable hospitals located in the sponsoring municipality that pri-

marily provide care for children;

(vii) one percent (1%) of the net revenues shall be allocated in total to not-for-profit organizations, whether public or private, which are located in any county in which the sponsoring municipality or any part thereof shall be located and which sponsor, promote or conduct research and education related to the cure or control of sickle cell anemia or provide treatment or other aid for victims of that disease;

(viii) subject to the provisions of subparagraph (ix) of this paragraph (16), one and one-half percent (1½%) of the net revenues shall be allocated in total to not-for-profit organizations (including any particular branch thereof) which are located in the sponsoring municipality (including, without limitation thereto, organizations such as the Young Men's Christian Association and the Young Women's Christian Association) and which provide education and recreational activities for young persons predominantly belonging to economically disadvantaged minorities;

(ix) the provisions of subparagraph (viii) of this paragraph (16) to the contrary notwithstanding, if any commission shall be created pursuant to this Act for which the sponsoring municipality shall be the City of Birmingham, then, and in such case, one-half of one percent (½%) of the net revenues of such commission shall be deducted from the amount to be allocated pursuant to the said subparagraph (viii) and shall instead be allocated to Partners in Neighborhood Growth for use in providing recreational or educational activities for young persons;

(x) one and one-half percent (1½%) of the net revenues shall be allocated in total to not-for-profit organizations (including particularly any research development and scholastic assistance fund), whether public or private, which are located in any county in which the sponsoring municipality or any part thereof shall be located and which promote and encourage scientific or technical education at the secondary and college levels by any means, including (without limitation thereto) financial assistance to schools and students, the development of improved curricula, and the training of teachers; provided, however, that if any commission shall be created pursuant to this Act for which the sponsoring municipality shall be the City of Birmingham, then, and in such case, the one and one-half percent of the net revenues of such commission referred to in this subparagraph (x) shall be allocated in its entirety to the Research, Development and Scholastic Assistance Fund for Science and Technology, Inc., a private, not-for-profit corporation organized under the laws of Alabama;

(xi) one percent (1%) of the net revenues shall be allocated to the local chapter or affiliate of The National Urban League that is based in the sponsoring municipality;

(xii) one percent (1%) of the net revenues shall be allocated to the local chapter or affiliate of the United Cerebral Palsy Association, Inc. that is based in the sponsoring municipality;

(xiii) one-half of one percent (½%) of the net revenues shall be allocated in total to private, not-for-profit organizations which are located in the sponsoring municipality and which sponsor and promote ballet and similar forms of the art of dance by any means, including the training of dancers and the giving of performances; and

(xiv) one-half of one percent (½%) of the net revenues shall be allocated in total to not-for-profit organizations which are located in the sponsoring municipality and which assist and coordinate the activities of artists

or groups of artists which perform or display their works within the sponsoring municipality.

Except as may herein be specifically provided otherwise, if there shall at any time exist more than one institution or organization which qualifies for a portion of any generic allocation of net revenues made pursuant to any of subparagraphs (i) through (xiv), inclusive, of paragraph (16) of this section, then, and in such case, a commission shall apportion such allocation among all institutions or organizations which evidence to such commission (in such manner as it shall reasonably require) their respective qualifications to receive a portion of such allocation. Any such allocation shall be apportioned among the qualifying institutions and organizations of each generic category in an equitable manner to be determined by the commission, taking into account the relative scale of activities of each qualifying institution or organization, the number of persons served thereby or other relevant factors. A commission shall have reasonable discretion in determining whether, in the light of the legislative intent, a particular institution or organization shall be entitled to an allocation of any portion of the net revenues pursuant to the provisions of this section.

A commission and the individual members thereof shall be fully protected against any charge of malfeasance in relying upon an opinion of the Attorney General of the State of Alabama that a portion of the net revenues may be lawfully allocated and paid to any institution or organization pursuant to any of the provisions of paragraph (16) of this section, unless a court of competent jurisdiction shall declare invalid the allocation of net revenues to any such institution or organization.

If any allocation of any portion of the net revenues pursuant to any provision of this section cannot be made for any reason (including, without limitation thereto, the legal invalidity of the provisions of this Act authorizing such allocation, lack of lawful authority by a commission to make such allocation, the nonexistence of any public body or any public or private institution or organization entitled to receive such allocation, or any other failure to satisfy the conditions of such allocation), then, and in such case, the failure of such allocation shall not impair the validity or effectiveness of any part of this Act other than the provisions hereof specifically providing for such allocation, nor shall the failure of such allocation adversely affect any other allocation of net revenues under this Act. Any portion of the net revenues that, for any reason, cannot be allocated in accordance with the specific provisions of paragraphs (1) through (16) of this section shall be apportioned among those governmental bodies, institutions and organizations actually receiving lawful allocations hereunder in proportion to the respective amounts of net revenues which would have been allocated to such governmental bodies, institutions and organizations if there had been no need to reallocate any net revenues that could not be allocated in accordance with the specific provisions of said paragraphs (1) through (16).

It is hereby expressly declared that the primary purpose of this Act is to provide a means for permitting and regulating horse racing and pari-mutuel wagering thereon in Class 1 municipalities and, further, that it is not a primary purpose of this Act to provide funds for the various governmental bodies and public or private institutions and organizations to which allocations of portions of the net revenues of each commission are made pursuant to this section. The Legislature recognizes that one or more of such governmental bodies, institutions or organizations may not exist in the sponsoring municipality or in the surrounding county or counties, as the case may be, and that, even if the intended recipients do exist and satisfy the applicable

conditions, any one or more of such allocations of the net revenues may fail because of legal invalidity or other reasons. The allocations of net revenues made pursuant to this section represent the legislative effort to confer an incidental benefit upon a wide spectrum of governmental and charitable activities, all of which may not be present in the same degree in every Class 1 municipality subject to this Act. Therefore, the legal invalidity or other failure of one or more allocations of net revenues made pursuant to this section should not impair the general validity of this Act or prevent the provisions hereof, other than those relating to the invalid or ineffective allocations, from being implemented as a coherent whole. If and to the extent that any allocation of net revenues made to any governmental body or any institution or organization is of such character as to cause this Act to be a local act, it is the legislative intent that the provisions for such allocation be severed from this Act and thereby prevented from causing this Act to be a local act.

Section 37. Conducting Race Without License and Wagering Thereon Prohibited. Any person who directly or indirectly holds any horse race without having procured a license as prescribed in this Act, shall be guilty of a misdemeanor. Any person wagering upon the results of such a race, except in the case of pari-mutuel wagering conducted by an operator in accordance with the provisions of this Act, shall be guilty of a misdemeanor. Upon conviction of any of the above misdemeanors in a court of competent jurisdiction, the penalty shall be a fine of not less than one hundred dollars (\$100), nor more than one thousand dollars (\$1,000), or imprisonment of not less than five days nor more than six months, or both, such fine and imprisonment to be in the discretion of the court.

Section 38. Disqualification Due to Gambling Activities. No person who engages in the practice of professional gambling on horse races, or in the practice of making gambling or wagering books on such races, or who knowingly takes any part in such practice, shall be eligible as an applicant for any license or permit to own or operate a racetrack or conduct racing activities under the provisions of this Act, or to be connected therewith in any capacity, and any corporation, partnership or other entity which has an officer, director, stockholder, partner or executive or who employs any person who engages in such practices shall likewise be ineligible as a licensee, and each commission is hereby empowered to inquire into such matters in entertaining any such application and otherwise in administering this Act.

Section 39. Tampering with Horses Prohibited. No person shall influence or have any understanding or connivance with any owner, trainer, jockey, driver, groom or other person associated or interested in any stable, horse or race in which any horse participates, to prearrange or predetermine the results of any such race, nor shall any person stimulate or depress a horse, for the purpose of affecting the results of a race by use of any electrical device or any electrical equipment or by any mechanical or other device not generally accepted as regulation racing equipment, nor shall any person stimulate or depress a horse through the administration of any drug or chemical, or knowingly enter any horse in any race within a period of twenty-four hours after any drug or chemical has been administered to such horse, for the purpose of increasing or retarding the speed of such horse.

No person shall, except for medical purposes, administer any poison, drug, medicine or other substance to any horse entered or about to be entered in any race, or expose such substance to a horse with the intent that it be taken, or cause any foreign substance to be taken by or placed upon or in the body of such horse, with intent to impede or increase its speed, endur-

ance, health or physical or mental condition.

Any person violating the provisions of this section shall be guilty of a felony and, upon conviction thereof, shall be imprisoned for not less than one year nor more than ten years, or fined not less than one thousand dollars (\$1,000) nor more than five thousand dollars (\$5,000), or both, in the discretion of the court.

Section 40. Transmission of Racing Information Prohibited. With the exception of television or radio coverage of races authorized in accordance with Section 32 of this Act, it shall be unlawful for any person to transmit or communicate to another by any means whatsoever the results, changing odds, track conditions, or other information relating to any horse race from any racetrack in any sponsoring municipality between the period of time beginning one hour prior to the first race of the day and ending thirty (30) minutes after the posting of the official results of each race, as to that particular race, except this period may be reduced to permit the transmitting of the result of the last race each day not sooner than fifteen (15) minutes after the official posting of such results; provided, however, that each commission may by rule permit the immediate transmission by radio, television (other than television or radio coverage pursuant to Section 32 hereof), or press wire of any pertinent information concerning feature races.

It shall be unlawful for any person to transmit by any means whatsoever racing information to any other person or relay the same to any other person by word of mouth, by signal, or by use of telephone, telegraph, radio or any other means when the information is knowingly used or intended to be used for illegal gambling purposes or in furtherance of such gambling purposes.

Any person violating the provisions of this section shall be guilty of a felony and, upon conviction, shall be imprisoned for not less than one year nor more than ten years, or fined not less than one thousand dollars (\$1,000) nor more than five thousand dollars (\$5,000), or both, in the discretion of the court.

Section 41. Possession of Certain Drugs Prohibited. The possession or transportation of any drug or chemical except those permitted by regulations of the appropriate commission within the racing enclosure is prohibited except upon a bona fide veterinarian's prescription with complete statement of uses and purposes on the container. A copy of such prescription shall be filed with the stewards.

Section 42. Misuse of License. Any credential, license or permit issued by a commission, if used by the holder thereof for a purpose other than identification and in the performance of legitimate duties on a racetrack, shall be automatically revoked whether so used on or off a racetrack.

Section 43. Racing under Unregistered Name Prohibited. No person shall knowingly enter or race any horse in any running or harness race under any name or designation other than the name or designation assigned to such horse by and registered with the Jockey Club, the United States Harness Association or other applicable association or knowingly instigate, engage in or in any way further any act by which any horse is entered or raced in any running or harness race under any name or designation other than the name or designation duly assigned by and registered with the Jockey Club, the United States Harness Association or other applicable association.

Section 44. Wagering by Underage Persons Prohibited. No person

shall wager on or conduct any wagering on the outcome of a horse race pursuant to the provisions of this Act unless such person be twenty-one years of age or older. No person shall accept any wager from a person under the age of twenty-one years.

Section 45. Exemption from Jurisdiction of State Racing Commission. In the event that a state racing commission shall be created, organized or established at any time, whether before or after the effective date of this Act, each commission created hereunder and all owners and operators licensed thereby shall be exempt from the jurisdiction of such state racing commission and from the force and effect of all laws providing for or relating to such state racing commission for a period beginning with the effective date of this Act and continuing until the end of the fifth (5th) calendar year next succeeding the calendar year in which racing events shall first be conducted under the jurisdiction of such commission created hereunder. It is hereby expressly declared that no act enacted at the session of the Legislature during which this Act is enacted or at any subsequent session shall be construed to effect a repeal or negation of the exemption conferred by this section, whether by implication or otherwise, in the absence of a provision in such act expressly repealing the provisions of this section.

Section 46. Severability. The provisions of this Act are expressly declared to be severable. If any provision of this Act shall be adjudged to be invalid by any court of competent jurisdiction (including, without limitation thereto, any particular allocation of net revenues or other provision which, if not severed from this Act, would cause it to be a local act in violation of any constitutional limitation or condition applicable to local acts), such provision shall be severed from this Act in order to effectuate the legislative intent that such judgment shall not affect, impair or invalidate the remainder of this Act, and the operation of such judgment shall be limited to the provision thereof directly involved in the action in which such judgment shall have been rendered.

Section 47. Provisions of this Act Control. Insofar as the provisions of this Act may be inconsistent with the provisions of any other law concerning activities and actions authorized by this Act, the provisions of this Act shall control, it being specifically declared that any other provisions of existing law that prohibit or regulate horse racing, gambling or pari-mutuel wagering shall not be applicable to any activities or actions authorized by this Act.

Section 48. Section Captions. The section headings or captions contained in this Act are included for convenience only and should not be considered a part of this Act or affect in any manner the construction or interpretation of this Act.

Section 49. Effective Date. This Act shall become effective immediately upon its passage and approval by the Governor or upon its otherwise becoming a law.

And the substitute was adopted.

Be It Enacted by the Legislature of Alabama:

Section 1. It is hereby found and declared as follows: the conduct within the City of Birmingham in Jefferson County of horse racing events and pari-mutuel wagering thereon will generate additional revenues for governmental and charitable purposes, provide additional jobs for the residents of the state and benefit the businesses related to tourism and recreation within Birmingham and throughout the surrounding areas of the state; it is desirable to permit the qualified voters of Jefferson County to determine through referendum whether horse racing and pari-mutuel wagering thereon

will be permitted in the county; and it is necessary and desirable to provide for the establishment of a racing commission to regulate horse racing and pari-mutuel wagering thereon and to administer and enforce the provisions of this Act.

The definitions set forth herein shall be deemed applicable whether the words defined are used in the singular or plural. Whenever used herein, any pronoun or pronouns shall be deemed to include both singular and plural and to cover all genders.

Section 3. A commission is authorized to be created in accordance with the provisions of this Act for the City of Birmingham in Jefferson County and shall be named "The Birmingham Racing Commission" and shall be a public corporation having a legal existence separate and apart from the state and any county, municipality or political subdivision thereof, and shall be vested with the powers and duties specified in this Act and all other powers necessary and proper to enable it to execute fully and effectively the purposes of this Act. Immediately upon its incorporation, horse racing and pari-mutuel wagering thereon conducted in the city in accor-

dance with the provisions of this Act shall be lawful, notwithstanding any other provision of law to the contrary.

Notwithstanding any provisions hereof which connect the state with the creation and control of the commission, any commission incorporated pursuant to the provisions of this Act shall not be deemed to be part of the state for any purpose, but shall be treated as a public corporation and body politic separate and apart from the state. All fees, commissions, and other moneys which the commission shall be authorized by this Act to charge, levy or otherwise receive shall be deemed to be moneys belonging exclusively to such commission, and no allocation or payment of such moneys authorized or mandated by this Act shall be considered to be an appropriation of moneys belonging to or controlled by the state.

Notwithstanding any provisions hereof which connect a commission with the City of Birmingham or Jefferson County, any commission incorporated pursuant to the provisions of this Act shall not be deemed to be a local agency or instrumentality of the City of Birmingham or Jefferson County, but shall be treated as a public corporation and body politic having rights, powers and duties which, to the extent herein specified, shall be effective without reference to the rights, powers, duties and territories of the City of Birmingham or Jefferson County. All fees, commissions and other moneys which the commission shall be authorized by this Act to charge, levy or otherwise receive shall be deemed to be moneys belonging exclusively to such commission, and the City of Birmingham and Jefferson County shall have no interest therein except to the limited extent expressly provided by this Act.

Section 4. The Jefferson County Commission shall call and provide for holding a county-wide referendum for the purpose of determining if a commission shall be incorporated for the City of Birmingham pursuant to this Act. The initial referendum shall be held not less than 45 days nor more than 90 days after the effective date of this Act and shall be advertised, held, conducted and the results thereof canvassed and declared in the manner provided by law for advertising, holding, conducting and canvassing other county elections and as the county commission shall provide in the resolution calling such election. The question to be voted on shall be stated on the ballots or voting machine tags substantially as follows:

"Do you favor the authorization of horse racing and pari-mutuel wagering thereon in the City of Birmingham and the creation of a racing commission for said city to license, regulate and supervise horse racing and pari-mutuel wagering thereon as provided in Act No.____ (insert Act number) adopted at the 1984 Regular Session of the Legislature of Alabama?"

If a majority of the votes cast in said county-wide referendum are "Yes", this Act shall become operative and horse racing and pari-mutuel or mutuel wagering thereon shall be legal in the city as and to the extent conducted in accordance with the provisions of this Act; if the majority of the votes cast in such election are "No", this Act shall have no further effect. Once authorized and incorporated, a commission may not be dissolved except pursuant to a General Act of the Legislature of Alabama applicable to such commission. The results of the referendum conducted pursuant to this Act shall be certified to the Secretary of State, within 30 days after the election returns are canvassed, by the officer then authorized by law to certify the results of such election.

Section 5. (a) The commission shall have five members, which shall constitute its governing body. All powers of the commission shall be exer-

cised by its members or pursuant to their authorization. The mayor of Birmingham and the president of the Jefferson County Commission shall each serve as a member ex officio, and the service of each such official as a member shall begin and end concurrently with the beginning and ending of his or her tenure in such office. The other three members shall be appointed in the manner hereinafter prescribed as soon as may be practicable after the certification to the Secretary of State of a favorable vote at the referendum called and held pursuant to Section 4 of this Act. The city mayor, the Jefferson County house delegation and the Jefferson County senate delegation shall each appoint one member. The appointments of members by the Jefferson County house delegation and the Jefferson County senate delegation shall be made at meetings of the members of the delegations held pursuant to the call of the city mayor of Birmingham or other chief executive officer of the City of Birmingham, who shall provide the members of each delegation with written notice of any such meeting at least 10 days prior to the date set therefor. All meetings of the house delegation or the senate delegation called and held pursuant to this Act shall be open to the public. Any appointment of a member by the house delegation or the senate delegation must be approved by a majority of the members of each such delegation voting in person at a public meeting called and held pursuant to this Act. Any meeting of the house delegation or the senate delegation at which fewer than a majority of the members of each such delegation are present, or at which no appointment of a member is made because of a failure to obtain the approval of a majority of the members of such delegation, may be adjourned to a future time and place announced at such meeting; provided that, if either delegation fails to appoint a member within 30 days of the date of the first meeting called for the purpose of such appointment, the right of such delegation to appoint a member shall terminate and such appointment shall be made as soon thereafter as practicable by the city mayor.

(b) The member to be appointed by the mayor shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the first calendar year next following the calendar year in which the referendum authorizing the incorporation of the commission shall be conducted; the member to be appointed by the Jefferson County house delegation shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the second calendar year next following the calendar year in which the referendum authorizing the incorporation of the commission shall be conducted; the member to be appointed by the Jefferson County senate delegation shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the third calendar year next following the calendar year in which the referendum authorizing the incorporation of the commission shall be conducted. Thereafter, the term of office of each appointed member shall be two years, commencing at noon on the July 1 on which the term of the immediate predecessor member shall end.

(c) If at any time there shall be a vacancy among the appointed members of a commission (i.e., those members who do not serve ex officio), a successor member shall be appointed to serve for the unexpired term applicable to such vacancy. The appointment of each appointed member (other than those initially appointed), whether for a full two-year term or to complete an unexpired term, shall be made by the officer or legislative delegation responsible for the appointment of the member whose term shall have expired or is to expire or in whose position a vacancy otherwise exists and shall be made not earlier than 30 days prior to the date on which such

member is to take office as such. If the term of any member shall expire prior to the reappointment of such member or prior to the appointment of his successor, such member shall continue to serve until his successor is appointed. Members shall not be eligible for reappointment. In the event that any appointments are not made within 60 days after the certification to the Secretary of State of a favorable vote at a referendum called and held pursuant to this Act (in the case of initial appointments), or within 30 days of the end of a term or other vacancy, then a vacancy shall be filled or a successor member appointed by a majority of the members holding appointments already made or serving as ex officio members. Appointments shall be evidenced by a written certificate executed by the appointing official, or, in the case of appointments made by a majority of the other members, by a certificate signed by all members jointly making such appointment, or, in the case of appointments made by a legislative delegation, by all members of the delegation jointly voting for such appointment or by a member of the delegation designated to serve as the secretary of the meeting at which such appointment is made and to report the results thereof to the Secretary of State. The certificates evidencing the appointment of members of a commission shall be addressed and delivered to the Secretary of State, who shall maintain the originals of such certificates as official records in his office.

(d) Each appointed member of any commission shall have been a resident of Jefferson County for a period of at least five years prior to his or her appointment and shall, at the time of his or her appointment and at all times during his or her term of office, be a resident of Jefferson County and a qualified elector of the state, and a failure by any appointed member to remain so qualified during such term of office shall cause a vacancy of the office of such member. No person serving as a member of the Legislature of the state, serving as a member of the governing body of any municipality, county or other political subdivision of the state, or holding a full-time office or position of employment with the United States of America, the state, any county or municipality in the state, or any instrumentality, agency or subdivision of any of the foregoing, shall be eligible for appointment as a member of a commission. Service by any person as a member, director, trustee or other participant in the management or administration of any governmental agency, board or commission, or public educational institution, or other public body of the United States of America, the state, or any county or municipality or other political subdivision shall not render such person ineligible for appointment as a member of a commission unless such service constitutes full-time employment. Each appointed member shall be of good moral character and shall never have been indicted by a grand jury for, nor convicted of, any felony or other offense involving moral turpitude, shall never have been the subject of injunctive or disciplinary action by any federal or state court of regulatory body charged with protecting the public against fraudulent or illegal conduct, and shall never have been made the subject, either singly or in conjunction with others, of an investigation by either a federal or state law enforcement agency into activities that violate or allegedly violate federal or state laws against criminal conspiracy, racketeering, illegal gambling and other activities associated with organized crime. Each appointed member of a commission shall make and submit to the appointing officer or legislative delegation responsible for his or her appointment an affidavit confirming his or her qualifications, as set forth in the preceding provisions of this subsection (d), to serve as a member of a commission, which affidavit shall be filed with the Secretary of State along with the aforesaid certificate evidencing such appointment. Any appointed member of a commission who in such affidavit intentionally makes a false statement of material fact or intentionally fails to disclose any information

necessary to make any statement of material fact made therein not misleading shall be subject to prosecution and punishment therefor under the general laws of this state.

(e) Any person who is an appointed member of a commission shall be deemed to vacate his or her office as such member by (i) the acceptance of any office or employment which, had such person held such office or been so employed at the time of his or her appointment as a member, would have rendered such person ineligible for appointment as a member or (ii) the occurrence of any event or circumstance involving the character of such person [including, without limitation, any of the events or circumstances described in the fourth sentence of subsection (d) of this section] which, had such event or circumstance occurred prior to the time of his or her appointment as a member, would have precluded such appointment. Any appointed member may be impeached and removed from office as a member of a commission in the same manner and on the same grounds provided in Section 175 of the Constitution of Alabama of 1901, or successor provision thereof, and the general laws of the state for impeachment and removal of the public officers subject to said Section 175 or successor provision thereof. The city mayor and the president of the county commission of Jefferson County may not be impeached and removed from office as a member of the commission apart from their impeachment and removal from the respective offices by virtue of which, ex officio, they serve as members.

Section 6. The five persons initially designated as members of the commission shall become a corporation with the power and authority provided in this Act by proceeding according to the provisions of this Act. To become a corporation, the persons so designated shall present to the Secretary of State an application signed by them which shall contain the following:

- (1) A statement that the applicants propose to incorporate a commission pursuant to this Act;
- (2) The name and principal residence of each of the applicants;
- (3) The date on which each applicant who is not an ex officio member was appointed as a member and the expiration date of the term for which he was appointed;
- (4) The term of office for each applicant who is an ex officio member;
- (5) The name of the proposed corporation, which shall be "The Birmingham Racing Commission";
- (6) The location of the principal office of the proposed corporation, which shall be in the City of Birmingham; and
- (7) Any other matter relating to such commission which the applicants may choose to insert and which is not inconsistent with this Act or the laws of the state.

The application shall be subscribed and sworn to by each of the applicants before an officer authorized by the laws of the state to take acknowledgements to deeds. The Secretary of State shall examine the application, and if the Secretary of State finds that it substantially complies with the requirements of this section, he shall receive, file and record it in an appropriate book of records in his office.

When the application has been made, filed and recorded as herein provided, the applicants shall constitute a corporation under the name stated

in the application, without the necessity of any further action under any other laws of the state applicable to the creation of corporations, and the Secretary of State shall make and issue to the applicants a certificate of incorporation pursuant to this Act, under the Great Seal of the State, and shall record the certificate with the application. There shall be no fees paid to the Secretary of State for any work done in connection with the incorporation or dissolution of any commission.

Section 7. No member shall vote on or participate in the discussion or consideration of any matter coming before the commission in which he, his immediate family, or any business enterprise with which he is associated has any direct or indirect pecuniary interest; provided, however, that when any such matter is brought before the commission, any member having an interest therein which may be in conflict with his obligations as a member shall immediately make a complete disclosure to the commission of any direct or indirect pecuniary interest he may have in such matter prior to removing himself and withdrawing from the commission's deliberations and vote on the matter presented. In furtherance, and not in limitation of the foregoing provision, no member or employee of a commission, and no spouse, child, parent, brother or sister of any such member or employee (i) shall have any financial interest, direct or indirect, in any horse racetrack or operation incidental thereto which is subject to the provisions of this Act, or in any entity which has submitted an application for a license under this Act, or in the operation of any wagering authorized under this Act or (ii) shall participate as owner of a horse or otherwise as a contestant in any race subject to the jurisdiction of the commission or have any pecuniary interest in the purse or prize contested for in any such race. No appointed member or officer of the commission (e.g., any member or officer of the commission who does not serve as such by reason of his holding another office), no employee of a commission, and no spouse, child, parent, brother or sister of any such appointed member or officer or of any such employee, shall make, or cause to be made on his or her behalf, any contribution to any holder of any office of the state or any office of the city or county or any contribution to any candidate for any such office.

The city mayor and the president of the Jefferson County Commission shall perform the duties of members of the commission, ex officio, without any compensation other than that to which they are respectively entitled as such municipal or county officers. Appointed members of the commission shall be entitled to such compensation for their services as the commission shall from time to time provide by duly adopted resolution, provided that no appointed member of a commission shall receive more than \$100.00 for each day or part thereof spent in the performance of his duties. Each member, whether appointed or serving ex officio, shall be reimbursed for his or her reasonable expenses incurred in the performance of his or her duties as a member of a commission. The compensation and expenses of members shall be paid out of the funds of the commission in accordance with such rules as shall be from time to time adopted by the commission. A majority of the members of the commission shall constitute a quorum for the transaction of business by the commission, and, in the absence of a rule incorporated in the bylaws of the commission that, in certain circumstances, may require the favorable vote of a designated percentage of all the members of the commission, decisions shall be made on the basis of a majority of the quorum then present and voting, with each member to have a single vote. No vacancy in the membership of the commission or the voluntary disqualification or abstention of any member thereof shall impair the right of a quorum to exercise all of the powers and duties of the commission.

Section 8. The officers of the commission shall consist of a chairman, vice chairman, executive secretary, treasurer and such other officers as the commission shall deem necessary or appropriate. The chairman and vice chairman of a commission shall be elected by the commission from the membership thereof. The executive secretary shall be appointed as provided in Section 10 hereof.

Section 9. The treasurer of the commission shall collect all the fees, commissions and other moneys provided for in this Act, and shall supervise, check and audit the operation of the pari-mutuel wagering pools and the conduct and distribution thereof. The principal financial officer of the City of Birmingham shall perform the duties of the treasurer of a commission, ex officio, without any compensation other than that to which he or she is entitled as the principal financial officer of the City of Birmingham, but he or she shall be reimbursed for expenses actually incurred in the performance of his or her duties as treasurer of a commission. All managerial, accounting and clerical personnel which said ex officio treasurer shall determine to be necessary to keep the books and records of the commission, and to perform the audit and other financial functions for the commission, shall be employees of the City of Birmingham and shall perform their duties under the supervision of such principal financial officer in his capacity as ex officio treasurer of such commission; provided, however, that the number, qualifications and compensation of personnel employed by the City of Birmingham to perform all financial functions for the commission shall be subject to the approval of such commission, as well as to such other laws and regulations as may be applicable to such personnel as employees of the City of Birmingham. The commission shall reimburse the City of Birmingham for all costs and expenses incurred in the performance of all financial functions for the commission, including a reasonable allowance for the time of the principal financial officer of the City of Birmingham devoted to the business of such commission as its ex officio treasurer.

The funds of the commission which its treasurer determines are not then needed to discharge its obligations or to make the disbursements provided for in Section 35 hereof may be vested in such of the following investments as its treasurer may determine to be most advantageous or convenient: (i) any time deposit with, or any certificate of deposit issued by, or any acceptance by, any bank which is organized under the laws of the United States of America or any state thereof and deposits in which are insured, in whole or in part, by the Federal Deposit Insurance Corporation or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation; (ii) any direct, general obligation of the United States of America; (iii) any obligation payment of the principal of and interest on which is unconditionally guaranteed by the United States of America; (iv) any direct, general obligation of, or any obligation payment of the principal of and interest on which is unconditionally guaranteed by, any agency or instrumentality of the United States of America (including, without limitation, the Federal National Mortgage Association); and (v) any repurchase agreement or reverse repurchase agreement with any bank which is a member of the Federal Deposit Insurance Corporation (or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation) or with any government bond dealer reporting to and trading with the Federal Reserve Bank of New York, provided that such agreement is secured by obligations or securities described in Clauses (i), (ii), (iii) and (iv) of this sentence. Funds of the commission not invested in accordance with the preceding sentence shall be deposited in a bank the principal office of which

shall be located in the City of Birmingham and the deposits of which shall be insured, in whole or in part, by the Federal Deposit Insurance Corporation or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation.

Section 10. The commission shall have the powers and duties necessary to license, regulate and supervise horse racing and pari-mutuel wagering incidental thereto, including, without limiting the generality of the foregoing, the powers and duties set forth hereinafter in this section or in other sections of this Act.

(1) The commission shall have succession in perpetuity, subject only to the provisions of this Act as it may be amended from time to time.

(2) The commission shall have the power to sue and be sued in its own name in civil suits and actions and to defend suits against it.

(3) The commission shall have the power to adopt and make use of an official seal and to alter the same at pleasure.

(4) The commission shall have the power to adopt, alter and repeal by-laws, regulations and rules, not inconsistent with the provisions of this Act, for the regulation and conduct of its affairs and business.

(5) The commission shall have the power (a) to borrow money from any source, including the City of Birmingham (which is hereby authorized to lend such money to the commission), for the purpose of paying expenses that may be reasonably incurred in carrying out its duties in advance of the receipt of fees, commissions and other moneys payable to it under the provisions of this Act, and (b) to pledge as security for the payment of the principal of and interest on the money so borrowed all or any of such fees, commissions and other moneys, which pledge shall be prior to any and all claims to such fees, commissions and other moneys from any intended recipients of the net revenues pursuant to Section 35 hereof; provided, however, that the commission shall not be entitled to borrow, or to allow to remain outstanding at any time, a principal amount in excess of (i) \$500,000 or (ii) the amount which the commission estimates will be its total operating expenses for the next three years, whichever of such amounts is the lesser.

(6) The commission shall establish and maintain a general business office within the City of Birmingham for the transaction of its business at a place to be determined by such commission; the commission shall meet at such times and places within the city as it shall determine.

(7) The commission shall be vested with supervision and authority over all horse races licensed by it under the provisions of this Act and over all persons conducting, participating in or attending such races. The commission shall employ such persons to be present at race meetings as are necessary to ensure that they are conducted with order and the highest degree of integrity, and it may require that an operator pay such salaries to such of the commission's employees as it shall prescribe. The commission may eject or exclude from any racetrack or from any part thereof any person, whether or not he possesses a permit, whose conduct or reputation is such that his presence may, in the opinion of the commission, reflect on the honesty and integrity of horse racing or interfere with the orderly conduct of horse racing.

(8) The commission and its representatives and employees shall visit, investigate and have free access to the office, track, facilities or other place of business of an operator, and may compel the production of any of an

operator's books, documents, records or memoranda for the purpose of satisfying itself that such operator is truthfully complying with the provisions of this Act and the commission's rules and regulations. The commission shall require that there be delivered to it an annual balance sheet and operating statement of each operator subject to its jurisdiction and also a copy of any management, concession or other contract to which any such operator is a party.

(9) The commission shall adopt and publish reasonable rules, regulations and conditions under which all types of racing subject to its jurisdiction, and pari-mutuel wagering, shall be conducted in the City of Birmingham, and such other reasonable regulations as it deems necessary and appropriate to carry out the purpose and provisions of this Act. Such rules and regulations may include reasonable sanctions for violations which shall be in the nature of civil sanctions and not criminal penalties.

(10) The commission may issue subpoenas for the attendance of witnesses before it, administer oaths and compel production of records or other documents and testimony of such witnesses whenever such commission finds it necessary and appropriate so to do in order to carry out its duties under this Act or to enforce the provisions of this Act or rules or regulations adopted pursuant hereto.

(11) The commission shall have the power to compel an owner or operator to file with such commission such information, including, without limitation, financial statements and information relative to stockholders and all others with any pecuniary interest in such licensee as shall appear to such commission to be necessary for the performance of its duties hereunder, and may prescribe the manner in which books and records of an owner or operator shall be kept.

(12) The commission shall have the power to enter into arrangements with any governmental or nongovernmental agency or association for the purposes of exchanging information, establishing security forces or performing any other act better to ensure the proper conduct of horse racing.

(13) The commission shall have the power to demand and obtain for its files the fingerprints of the following persons, which fingerprints may be taken by a representative of a law enforcement agency of the county, state or federal government, by inspectors of such commission or by such qualified private security agency as such commission may designate: (i) all members, officers and employees of such commission; (ii) every person who is an officer, director, partner or other principal of a corporation, partnership or other entity which holds a license as an owner or operator, and every employee of such a licensee whose duties relate to the horse racing business in the City of Birmingham; (iii) all owners of horses, trainers, jockeys, apprentices, stable employees, managers, agents, blacksmiths, veterinarianarians and other persons who actively participate in the racing activities of any operator; and (iv) all other persons whose relationship to horse racing and wagering activities under the jurisdiction of such commission is of such nature that such commission, in the exercise of reasonable judgment, believes that it would be prudent to obtain the fingerprints of such persons.

(14) The commission shall report annually to the city governing body and to such state and federal authorities as shall be required by law.

(15) All books, records, maps, documents and papers of the commission, including those filed with the commission as well as those prepared by or for it, shall at all times be open for the personal inspection of any officer of

the state, the City of Birmingham or Jefferson County or any official investigative body or committee of any thereof, and no person having charge or custody thereof shall refuse this right to any officer or investigative body or committee, and it shall be the express duty of such person to assist such officer or committee in locating records or information. If any member of the commission violates the provisions of this paragraph, he shall be subject to removal from office.

(16) Subject to the provisions of Section 11 of this Act, the commission shall appoint an executive secretary and such other employees as it deems essential to perform its duties under this Act. Such employees shall possess such authority and perform such duties as the commission shall prescribe or delegate to them. Such employees may include stewards, chemists, veterinarians, inspectors, accountants, guards, and such other employees deemed by the commission to be necessary for the supervision and the proper conduct of the highest standard of horse racing. Such employees shall be compensated as provided by the commission.

(17) It is further expressly provided that no member of the Jefferson County Legislative Delegation shall be employed in any capacity by the commission, or by any owner or operator which is licensed by the commission, which such person serves in the state legislature.

(18) The executive secretary of a commission, in addition to any other duties prescribed by such commission, shall keep a true and full record of all proceedings of such commission and preserve at such commission's general office all books, documents and papers of such commission.

(19) The commission shall have the authority, subject to subsection (17) hereof, to employ legal counsel of its choice to advise such commission and represent it in all proceedings. The compensation of such counsel shall be paid out of funds of such commission.

Section 11. Each appointed officer and each employee of the commission shall be of good moral character and shall never have been indicted by a grand jury for, nor convicted of, any felony or other offense involving moral turpitude, nor shall never have been the subject of injunctive or disciplinary action by any federal or state court or regulatory body charged with protecting the public against fraudulent or illegal conduct, nor shall ever have been made the subject, either singly or in conjunction with others, of an investigation by either a federal or state law enforcement agency into activities that violate or allegedly violate federal or state laws against criminal conspiracy, racketeering, illegal gambling and other activities associated with organized crime. As a condition of employment by the commission, each employee shall make and submit to such commission, an affidavit confirming his or her qualifications, as set forth in the preceding sentence, to be an employee of such commission, which affidavit shall constitute a part of the permanent personnel records of such commission. Any employee of the commission who in such affidavit intentionally makes a false statement of material fact or intentionally fails to disclose any information necessary to make any statement of material fact made therein not misleading shall be guilty of perjury and shall be subject to prosecution and punishment therefor under the general laws of the state.

Section 12. Any person aggrieved by a refusal of the commission to issue any license or permit, or suspension or revocation of a license or permit, imposition of a fine, or any other action of the commission, may, within 30 days of such action, appeal to the circuit court of Jefferson County. If such court finds that the action of such commission was arbitrary, it shall

order the issuance or reinstatement of such license or permit, abatement of such fine or such other action as it deems appropriate. The decision of such court shall be subject to appeal as in other cases at law.

Section 13. Whenever it appears to the commission that any person has been violating or may violate any provision of this Act or any reasonable rule or regulation or final decision of such commission, it may apply to the circuit court of Jefferson County for an injunction against such person. The order granting or refusing such injunction shall be subject to appeal as in other cases in equity.

Section 14. No person shall construct or establish a horse racetrack where race meetings are to be held and pari-mutuel wagering permitted, or own any such track or race facilities in the City of Birmingham, unless he has obtained an owner's license issued by the commission in accordance with the provisions of this Act, which license when granted shall authorize the holder thereof to conduct, establish and own in the City of Birmingham a horse racetrack where race meetings are held and pari-mutuel wagering permitted in compliance with this Act.

No person shall operate pari-mutuel wagering or conduct any race meeting at which wagering is permitted with his knowledge or acquiescence in the City of Birmingham unless he has obtained an operator's license under the provisions of this Act, which license when granted shall authorize the holder thereof to operate pari-mutuel wagering or conduct a race meeting at which pari-mutuel wagering is permitted in the City of Birmingham in compliance with this Act. No license issued under the provisions of this Act shall be transferable without the approval of the commission in compliance with any rule or regulation duly adopted by such commission.

Section 15. Any person desiring to construct or own a racetrack at which pari-mutuel wagering is permitted shall file with the commission an application for an owner's license. Such application shall be filed at the time and place prescribed by the commission and shall be in such form and contain such information as may be prescribed by such commission, including the following:

(1) The name and address of such person; if a corporation, the state of its incorporation and the full name and address of each officer and director thereof; if a foreign corporation, whether it is qualified to do business in the state; and if a partnership or joint venture, the name and address of each general partner thereof;

(2) The name, and every address for the period of five years immediately preceding the date of such application, of each stockholder or member of such corporation, or each general partner of such partnership or joint venture, and of each person who has contracted for a pecuniary interest in the applicant or the facilities at which such race meeting or pari-mutuel wagering will be conducted, whether such interest be an ownership or a security interest, and the nature and value of such interest, and the name and address of each person who has agreed to lend money to the applicant; provided that if the applicant proposes to arrange further financing, subsequent to the award of an owner's license, through a sale of stock, partnership interests or other equity interests, the issuance of debt securities, the entering into of financing leases or otherwise borrowing money, then, in such case, such commission may grant an owner's license which sets forth conditions to be met in arranging such further financing or which reserves to such commission the right to approve any or all aspects of such further financing;

(3) Such information as such commission deems appropriate regarding the character and responsibility of the applicant and the members, partners, stockholders, officers and directors of the applicant;

(4) The location and description of the racetrack, place or enclosure where such applicant proposes to hold race meetings; provided that such commission may require such information about the facilities and location of the track, including preliminary architectural plans, as it deems necessary and appropriate to determine whether they comply with the minimum standards provided in this Act, and whether the conduct of race meetings at such location would be in the best interests of the people of the state;

(5) Such information relating to the financial responsibility of the applicant as such commission deems appropriate;

(6) If any of the facilities necessary for the conduct of racing or pari-mutuel wagering are to be leased, the terms of such lease; and

(7) Any other information which such commission in its discretion deems appropriate.

Any application filed hereunder shall be verified by the oath or affirmation of an officer of the applicant, and shall be accompanied by a nonrefundable fee of \$15,000.

Section 16. A commission shall promptly consider any application for an owner's license submitted to it and shall grant or deny such license based on all information before it, including any investigations it deems appropriate. A commission shall deny a license to any applicant unless it finds as follows:

(1) That each natural person having an ownership interest in the applicant, either directly or indirectly, shall have been a resident of the state continuously for a period of five years next preceding the date of the application in question; and

(2) That the applicant's facilities will meet the following minimum standards: (a) that the facilities will provide a track racing surface of at least one mile; and (b) that the facilities will be appropriate for the conduct of year-round racing and night racing; and (c) that the facilities will be located within any area of the City of Birmingham or Jefferson County that has not been zoned for establishments with on-premise alcoholic beverage licenses, as defined in the Code of Alabama 1975, for a period of at least two years prior to the license being applied for.

For purposes of Clause (1) of the next preceding sentence of this section, a resident of the state shall be a natural person who during the period in question had such continuing presence in the state as would have satisfied the residency requirements for such person to be and remain a registered voter in the state during such period.

The provisions of this section which permit an owner's license to be granted to an owner only if each natural person having ownership interest in such owner has been a resident of the state continuously for the preceding five years shall not be construed (A) to impair the foreclosure rights of any mortgagee holding a mortgage on the racing facilities of such owner securing debt incurred to finance the costs of constructing or purchasing such racing facilities or (B) to impair the rights of any mortgagee holding such a mortgage, or the rights of any other person, corporation or other legal entity to which such racing facilities may be sold in foreclosure, to take and hold title to such racing facilities, to lease or sell the same, and to apply

for and receive an owner's license therefor from the commission upon compliance with all other applicable provisions of this Act, irrespective of whether the aforesaid condition of five years' residency in the state shall be satisfied by each individual having an ownership interest in such mortgagee or an ownership interest in a corporation or other legal entity to which such racing facilities shall be sold, as the case may be.

The commission shall deny a license to an applicant if it finds that for any reason the issuance of a license to such applicant would not be in the interests of the people of the City of Birmingham, or that the applicant, or any officer, general partner or director of the applicant:

(i) Has knowingly made a false statement of a material fact in the application or has deliberately failed to disclose any information called for in the application;

(ii) Is or has been guilty of any corrupt or fraudulent act, practice or conduct in connection with any horse race meeting in the state or any other state;

(iii) Has had a license or permit to hold or conduct a horse race meeting denied for just cause, suspended or revoked in any other state or country; or

(iv) Is not qualified to do business in the state, or is not subject to the jurisdiction of the courts of the state.

Section 17. An owner's license issued under this Act shall be for a period determined by the commission issuing such license, not to be less than 25 years, but shall be reviewed annually. A commission issuing an owner's license shall state therein the person to whom such license is issued, the duration of such license, the location of the proposed racetrack, and such other conditions of the license and related information as such commission shall deem proper. It shall be the policy of each commission to permit widespread ownership of stock or limited partnership interests in a corporation or partnership holding an owner's license and owning a racetrack facility.

While any owner's license or licenses theretofor issued by a commission shall remain in effect, such commission shall not issue (i) any other owner's license with respect to the racetrack covered by the owner's license or licenses already in effect or (ii) any other owner's license covering any other racetrack to be located in the City of Birmingham without, in either case, the duly authorized consent of the owner or owners holding all owner's licenses already in effect, which consent shall be obtained in writing prior to the issuance of any such other owner's license. Any provisions of this Act of any other law to the contrary notwithstanding, the commission may, at the time of the issuance of an owner's license to an owner or at any time thereafter, enter into a contract with such owner establishing restrictive conditions under which the commission may license racetracks that would compete with the racetrack covered by the license of such owner, which conditions may, in the discretion of the commission, preclude the licensing of any competing racetracks while such owner's license shall remain in effect. The provisions of any such contract between the commission and an owner shall be deemed to be a part of the terms and conditions of the owner's license granted to such owner. Without in any way limiting the nature of the consideration that might be given by an owner to bind the commission to such contract, the payment of the wagering fee plus economic benefits to be derived by the commission and the City of Birmingham from the establishment and continued operation of a racetrack shall be deemed suffi-

cient consideration to make such contract binding upon the commission. Any such contract between the commission and an owner shall not be impaired by any subsequent action of such commission or by any act of the Legislature of Alabama which, through the authorization of another licensing entity or by any other means, would permit or encourage the establishment and operation of a competing racetrack in contravention of such contract.

The commission may require a bond with surety acceptable to it in an amount determined by it to be sufficient to cover the maximum indebtedness anticipated to be incurred by the licensee to such commission in any year. The amount of such bond may be adjusted from time to time as such commission may require.

The commission may require the licensee to pay such commission a license fee of \$2,000 per month for a period beginning six months from the date of issuance of the owner's license to the date of the beginning of operation of the related racetrack. The license fee shall be used by the commission for operating expenses prior to the beginning of operation of the racetrack.

Section 18. Any corporation desiring to hold race meetings at which pari-mutuel wagering is permitted shall file with the commission an application for an operator's license. Such application may be made in conjunction with an application for an owner's license. It shall be filed at the time and place prescribed by the commission and shall contain such information as prescribed by the commission, including all information required for an owner's license under this Act. Any application for an operator's license filed hereunder shall be verified by the oath or affirmation of an officer of the applicant and shall be accompanied by a nonrefundable fee of \$10,000.

Section 19. The commission shall promptly consider any application for an operator's license submitted to it and shall grant or deny such license based on all information before it, including any investigation it deems appropriate. The commission shall deny a license to any applicant unless it finds as follows:

(1) That such applicant is a corporation organized under Title 10 of the Code of Alabama 1975, or comparable law or laws of another state, and qualified to do business in the state;

(2) If the corporation is a stock corporation, that no one person owns more than 30 percent in voting rights or value of the stock of such corporation, and that no "family group" (which shall mean, for the purposes of this subsection, any person and his or her spouse, parents, brothers and sisters) owns more than 50 percent in voting rights or value of the stock of such corporation; if the corporation is a nonstock corporation, that there are at least ten members, and that no more than 20 percent of the membership belongs to any family group;

(3) If the corporation is a stock corporation, that 100 percent in voting rights and value of such corporation is owned directly or indirectly (through ownership of corporate stock, partnership interests or beneficial interests in one or more trusts or estates) by natural persons who have been residents of the state continuously for a period of five years next preceding the date of the application in question; if the corporation is a nonstock corporation, that members of such corporation possessing 100 percent of the voting rights are natural persons who have been residents of the state for a period of five years next preceding the date of the application in question;

(4) That the members of the board of directors of such corporation, whether the same shall be a stock or a nonstock corporation, are individuals who have been residents of the state for a period of five years next preceding the date of the application in question;

(5) That the applicant's articles or certificate of incorporation or other corporate documents provide that it may, on vote of a majority of the stockholders or members, purchase at fair market value the entire stock or interest of any stockholder, or require the resignation of any member, who is or becomes unqualified for such position under this Act;

(6) That the applicant would be qualified, under the provisions of this Act, for a license to own the racetrack facilities at which it desires to hold a race meeting;

(7) That the applicant shall have made, or shall have committed to make, arrangements satisfactory to such commission for the detection and prosecution of any corrupt or fraudulent act, practice, or conduct in connection with any race meeting, including utilization of the services of a protective agency acceptable to such commission; and

(8) That the applicant shall have obtained and committed to maintain membership in such racing associations (as, for example, the Thoroughbred Racing Association, the American Quarter Horse Association or the United States Harness Association) as the commission finds necessary or desirable to assist an operator to operate race meetings. For purposes of Clauses (3) and (4) of the next preceding sentence of this section, a resident of the state shall be a natural person who during the period in question had such continuing presence in the state as would have satisfied the residency requirements for such person to be and remain a registered voter in the state during such period.

Section 20. An operator's license issued under this Act shall be for a period determined by the commission issuing such license, not to be less than 25 years, but shall be reviewed annually. Any such license issued under this Act shall permit the holder thereof to hold and conduct one or more race meetings each year at the racetrack to which such license shall be applicable. Races may be conducted six days or nights a week throughout the year, but not on Sunday.

The commission issuing an operator's license shall state therein the corporation to which such license is issued, the location of the racetrack where meetings are to be conducted, the period during which such license shall be in effect, and such other conditions of the license and related information as the commission shall deem proper.

While any operator's license or licenses theretofore issued by a commission shall remain in effect, such commission shall not issue any other operator's license with respect to any racing events of the kind covered by the operator's license or licenses already in effect without the duly authorized consent of the operator or operators holding all operator's licenses already in effect, which consent shall be obtained in writing prior to the issuance of any such other operator's license. Any provisions of this Act or any other law to the contrary notwithstanding, the commission may, at the time of the issuance of an operator's license to an operator or at any time thereafter, enter into a contract with such operator establishing restrictive conditions under which such commission may license the conduct of racing events that would compete with the racing events or activities covered by the license of such operator, which conditions may, in the discretion of such commission,

preclude the licensing of any competing racing events or activities while such operator's license shall remain in effect. The provisions of any such contract between a commission and an operator shall be deemed to be a part of the terms and conditions of the operator's license granted to such operator. Without in any way limiting the nature of the consideration that may be given by an operator to bind a commission to such contract, the payment of the wagering fee plus the other economic benefits to be derived by the commission and the City of Birmingham from the conduct of horse racing and pari-mutuel wagering thereon shall be deemed sufficient consideration to make such contract binding upon the commission. Any such contract between the commission and an operator shall not be impaired by any subsequent action of such commission or by any Act of the Legislature of Alabama which, through the authorization of another licensing entity or by any other means, would permit or encourage the conduct of racing events or activities by persons other than such operator in contravention of such contract.

The commission issuing an operators' license shall require a bond with surety acceptable to it, and in an amount determined by it to be sufficient to cover the maximum indebtedness anticipated to be incurred by the holder of such license to such commission in any year. The amount of such bond may be adjusted from time to time as the commission may require.

Section 21. The commission may suspend or revoke any license or fine the holder thereof not to exceed \$5,000 after hearing with 15 days' notice in any case where it has reason to believe that any regulation of the commission has not been complied with or has been violated. Annually, the commission shall review the performance of each licensee for compliance with the provisions of this Act and the rules and regulations of the commission. If any such license is suspended or revoked, the commission shall state its reasons for doing so, which shall be entered of record. Such action shall be final unless appealed in accordance with the provisions of this Act.

Section 22. Any person desiring to acquire stock in, or become a member of, a corporation which holds an operator's license hereunder shall apply to the commission which issued such license on a form prescribed by it for approval of such acquisition or membership; provided, however, that no stock in any stock in corporation holding an operator's license may be acquired or transferred pursuant to the provisions of this section unless all the natural persons who will ultimately own, directly or indirectly, all the voting rights and value represented by such stock shall have been residents of the state (as "resident of the state" is defined in Section 19 hereof) continuously for a period of five years next preceding the date on which such stock is to be acquired or transferred; provided further that no person shall become a member of any nonstock corporation holding an operator's license unless such person is a natural person who shall have been a resident of the state (as "resident of the state" is defined in Section 19 hereof) continuously for a period of five years next preceding the date on which such person is to become a member of such corporation. The commission shall consider such application forthwith, and may, if it finds it necessary, demand additional information concerning the proposed acquirer or transferee of stock or the proposed member in a nonstock corporation, as the case may be. If, in the judgment of the commission the acquisition or transfer of stock or membership in a corporation holding an operator's license would be detrimental to the public interest, to the honesty and integrity of racing, or to the reputation of racing, the application shall be denied. If the application is not denied within 60 days, it shall be deemed approved. It shall be the policy of the commission to favor the widespread ownership of stock in op-

erators by residents of the state.

Section 23. No person, firm, corporation or partnership shall participate in any horse racing subject to the jurisdiction of a commission or in the conduct of any racing event or pari-mutuel wagering thereon, whether as a horse owner, trainer, jockey, exercise boy, groom, stable foreman, valet, veterinarian, agent, pari-mutuel employee, concessionaire or employee thereof, or track employee, or enter the track enclosure in any capacity other than as a spectator, unless such person or the firm, corporation or partnership employing such person possesses a permit therefor from the commission and complies with the provisions of this Act and all reasonable rules and regulations of the commission. No permit issued under this section shall be transferable.

The provisions of this section which require a concessionaire to obtain a permit from the commission in order to operate a business selling food, beverages, souvenirs or other merchandise to persons attending racing events shall not be construed to permit the commission to charge a concessionaire any license or permit fees measured by its gross revenues or to derive any economic benefit from the operations of such concessionaires other than the permit fees authorized by Section 24 of this Act, it being expressly provided that the owner and the operators for each racing facility shall have the exclusive rights (as they may by contract allocate such rights among themselves) to determine the business conditions under which concessionaires shall operate at racing facilities under the jurisdiction of the commission and to retain all moneys (except for the commission's permit fee as aforesaid) which any concessionaire is willing to pay for the privilege of conducting business at such racing facilities.

Section 24. Any person, firm, corporation or partnership desiring to obtain a permit as required by this Act shall make application therefor on a form prescribed by the commission. Each individual applicant and each principal of any firm, chief executive officer of any corporation and managing partner of any partnership applying for a permit for such firm, corporation or partnership, as the case may be, shall be photographed and fingerprinted and shall supply such information as the commission may require. All information contained in, or submitted in support of, any application for a permit shall be confirmed by an affidavit of the person or persons making such application, whether such application shall be made on behalf of such person or persons or on behalf of a firm, corporation or partnership. Any application for a permit made by an individual who seeks to work at a racing facility under the jurisdiction of a commission and any application for a permit made by a firm, corporation or partnership that seeks to provide services or sell merchandise at such racing facility, as the case may be, shall include a statement as to whether such individual, or any owner, principal, officer, director or partner of such firm, corporation or partnership, or any employee of such firm, corporation or partnership who will actually work at such racing facility, has ever been indicted by a grand jury for, or convicted of, any felony or other offense involving moral turpitude, has ever been the subject of injunctive or disciplinary action by any federal or state court or regulatory body charged with protecting the public against fraudulent or illegal conduct, or has ever been made the subject, either singly or in conjunction with others, of an investigation by either a federal or state law enforcement agency into activities that violate or allegedly violate federal or state laws against criminal conspiracy, racketeering, illegal gambling and other activities associated with organized crime. Any firm, corporation or partnership which has previously received an effective permit from the commission to provide services or sell merchandise at a racing facility shall, as a

condition of maintaining such permit, file with such commission supplemental information (including the statement described in the preceding sentence) concerning any new or additional owners, principals, officers, directors or partners of such firm, corporation or partnership, as the case may be, or any new or additional employees thereof who will actually work at such racing facility.

The commission shall be entitled to charge fees for permits according to such schedule as it shall adopt from time to time, and in addition to the fee that it may charge a firm, corporation or partnership having employees at a racing facility under its jurisdiction, it may charge a separate fee for each individual employee of such firm, corporation or partnership working at such racing facility; provided, however, that (i) the permit fee for any one firm, corporation or partnership shall not exceed \$1,000 in any period of one year and (ii) the permit fee for any individual shall not exceed \$50 in any period of one year, regardless of whether such individual is self-employed or is employed by a firm, corporation or partnership also paying a permit fee.

At least 70% of all personnel hired by an owner or operator must be residents of the county and must have been so for at least one year prior to employment. An owner's or operator's license shall be suspended for 60 days during the racing season for any violations of this paragraph.

Section 25. The commission shall promptly consider any application for a permit submitted to it and shall issue or deny such permit based on the information in the application and all other information before it, including any investigation it deems appropriate. If an application for a permit is approved, the commission approving such application shall issue a permit which shall contain such information as such commission deems appropriate. Such permit shall be valid for one year.

The commission shall deny any such application and refuse to issue a permit, which denial shall be final unless an appeal is taken under the provisions of this Act, if it finds that the issuance of such permit to the applicant therefor would not be in the best interest of the applicant, the people of the City of Birmingham or the horse racing industry in the City of Birmingham, or that the applicant:

(1) Has knowingly made a false statement of a material fact in the application or has deliberately failed to disclose any information called for by the application;

(2) Is or has been guilty of any corrupt or fraudulent practice or conduct in connection with any horse racing activity in the state or any other state;

(3) Has failed to comply with the provisions of this Act or the reasonable rules and regulations of the commission;

(4) Has had a permit to engage in an activity related to horse racing for just cause, suspended or revoked in any other state, and such denial, suspension or revocation is still in effect; or

(5) Is unqualified to perform the duties required for the permit sought.

Section 26. The commission may suspend or revoke a permit issued under this Act or fine the holder of such permit not to exceed \$1,000, after hearing with 15 days' notice to such holder, in any case where it has reason to believe that any provision of this Act, or any reasonable rule or regulation of the commission, has not been complied with or has been violated. The commission may revoke such permit, after such hearing, if it finds that

facts not known by it at the time it considered the application for such permit indicate that such permit should not have been issued. If any permit is suspended or revoked, the commission shall state its reasons for so doing and shall enter the same in the permanent records of its proceedings. The suspension or revocation of a permit shall be final unless an appeal is taken in accordance with the provisions of this Act.

Section 27. Any person desiring to act as a steward for any race meeting conducted pursuant to this Act must obtain a license from the commission having jurisdiction over such race meeting. The commission shall require such applicant for a steward's license to pass one or more examinations on matters relating to the duties of stewards. Such examinations shall be prepared and administered in accordance with rules and regulations to be adopted by the commission. The commission may establish other requirements, in addition to successful completion of such examinations, which must be met by any applicant in order to obtain a steward's license, including, without limitation, payment of reasonable license fees. Any steward's license issued pursuant to this Act shall have a term not exceeding two years, provided that the term of any such license may be extended or renewed at the option of the commission.

Three licensed stewards shall be appointed to supervise each race meeting conducted pursuant to this Act. Two of such stewards shall be appointed by the commission governing such race meeting and one shall be appointed by the operator conducting such race meeting. Such stewards shall exercise such powers and perform such duties at each race meeting as may be prescribed by the rules and regulations of the commission.

Section 28. Pari-mutuel wagering conducted by an operator shall be conducted in accordance with the provisions of this section. An operator shall provide a place or places at the racetrack operated by it at which such operator shall conduct a pari-mutuel system of wagering by its patrons on the results of horse races held at such racetrack. Such place or places shall be provided with the electronic or mechanical equipment necessary to issue pari-mutuel tickets, as well as the electronic or mechanical equipment necessary to record the wagering, compute the odds, and determine the awards to winning bettors, all in an accurate and speedy manner. All such equipment shall be approved by the commission licensing such operator before being used, but such commission shall not require the installation of any particular make of such equipment.

An operator shall distribute all sums deposited in any pari-mutuel pool where the bettor is required to select one horse to the winners thereof, less an amount which shall not exceed the sum of (i) seventeen percent of the total deposits and (ii) the breakage. For every pool where the bettor is required to select two horses, an operator shall distribute all sums deposited therein to the winners thereof, less an amount which shall not exceed the sum of (i) twenty-one percent of the total deposits and (ii) the breakage. For every pool where the bettor is required to select three or more horses, an operator shall distribute all sums deposited therein to the winners thereof, less an amount which shall not exceed the sum of (i) twenty-three percent of the total deposits and (ii) the breakage. An operator shall be entitled to retain the breakage and, in addition, all moneys represented by unclaimed, uncashed, or abandoned pari-mutuel tickets; provided, however, that no pari-mutuel ticket shall be deemed to be unclaimed, uncashed, or abandoned unless it shall not be presented for payment within six months from the date of the running of the race to which such pari-mutuel ticket pertains.

Under the pari-mutuel system of wagering herein provided, an operator shall be permitted to provide separate pools for bets to win, place, and show, as well as separate pools for more complex wagers involving such combinations of races and such combinations of the outcomes of races as may be approved by the commission licensing such operator. Each pool shall be redistributed separately to the winners thereof as herein provided. If there is no ticket bet on the winning horse or combination of horses for any pari-mutuel pool, the portion of the pool which would have been distributed to any winners thereof shall be distributed to the holders of tickets for such pool in accordance with the rules adopted by the governing commission for that kind of pari-mutuel pool. Rules and regulations governing the operation of each kind of pari-mutuel pool permitted by a commission shall be published in book or pamphlet form by such commission.

Section 29. Each operator shall pay to the treasurer of the commission licensing such operator a wagering fee for each calendar year during which it conducts any racing events. The amount of the wagering fee for an operator for a given calendar year shall be equal to the sum of (i) three percent of the handle of such operator for such calendar year to the extent that such handle does not exceed \$150,000,000 and (ii) four percent of the portion of the handle of such operator for such calendar year that exceeds \$150,000,000. Each operator shall make payment of its wagering fee for each calendar year to the treasurer of the licensing commission in monthly installments. For each calendar year, the monthly installment referable to any month (other than the month during which the final racing event for such calendar year shall be conducted) shall be equal to three and one-half percent of the handle for such month. The monthly installment referable to the month during which the final racing event for any such calendar year shall be conducted shall be equal to the sum of (i) three percent of the handle for such month and (ii) two percent of the portion of the aggregate handle for such calendar year in excess of \$150,000,000. The installment of the wagering fee referable to any calendar month shall be paid to the treasurer of the appropriate commission prior to the end of the next succeeding calendar month.

If at any time during a calendar year the aggregate handle of an operator for such calendar year exceeds \$150,000,000, then such operator shall, in order to assure the availability of the moneys required to pay the final installment of its wagering fee for such calendar year, set aside and invest moneys in an amount equal to two percent of the portion of such aggregate handle in excess of \$150,000,000 in investments of the kind in which the funds of the commission are permitted by Section 9 hereof to be invested by its treasurer. Any such investments acquired by an operator shall be held by it in trust for the benefit of the commission in order to secure the payment of the wagering fee, but the operator shall be entitled to any interest earned from such investments until the due date of the final installment of the wagering fee for such calendar year.

The Legislature hereby finds and determines that the wagering fee authorized in this Act is the maximum license fee or equivalent charge which can be levied against pari-mutuel wagering on horse racing without impairing the economic viability of horse racing and lessening its contribution to increased employment and tourism in the state. The commission shall have no power to increase the wagering fee above the limits provided in this Act or to impose any additional tax or license fee on pari-mutuel wagering conducted under the provisions of this Act.

Any provision of this Act or any other law to the contrary notwithstanding.

standing, the commission may, at the time of the issuance of an owner's or operator's license or at any time thereafter, enter into a contract with the owner or operator to which such license may be issued for the purpose of establishing limits on the amount of the fees and commissions that may be levied or charged for the granting, use or continuation of an operator's license with respect to a particular racetrack during the term or duration of such license, which limits may not provide for license fees and commissions less than the license fees and commissions established at the time of such contract by this Act or any other then effective law amending or supplementing this Act. The provisions of any such contract between a commission and an owner or operator shall be deemed to be a part of the terms and conditions of the license in connection with which such contract is made. Without in any way limiting the nature of the consideration that may be given by an owner or operator to bind the commission to such contract, the payment of the wagering fee plus the other economic benefits to be derived by the commission and its sponsoring municipality from the conduct of horse racing and pari-mutuel wagering thereon shall be deemed sufficient consideration to make such contract binding upon the commission. Any such contract between the commission and an owner or operator shall not be impaired by any subsequent action of the commission or by any Act of the Legislature of Alabama which attempts to increase the fee for an operator's license covered by such contract or to impose any tax or additional license fees in excess of the limits established by such contract.

Section 30. From the moneys deposited in pari-mutuel pools which are not distributed to the holders of winning tickets, each operator shall apply an amount equal to 7 percent of its total handle to provide purse moneys for races conducted by such operator. Prior to the commencement of any race meeting, the operator conducting such meeting shall estimate the amount of its handle to be derived from such meeting. Based upon such estimate, the operator shall adopt a schedule providing for a reasonable allocation of purse moneys over the period of the anticipated race meeting. Any such schedule may be amended from time to time during the course of a race meeting if it becomes apparent that the operator's actual handle for such race meeting will not match its original estimate.

Each operator shall provide the commission with periodic reports respecting the amounts applied by such operator to provide purse moneys. If at the close of any race meeting it is determined that the operator conducting such meeting failed to apply an amount equal to 7 percent of its handle for such meeting to provide purse moneys, then any excess shall be deducted from, and any deficiency shall be added to, the amount which such operator is required to provide as purse moneys for its next succeeding race meeting.

Section 31. The commission shall have the power to adopt rules and regulations specifying the conditions under which television or radio coverage of racing events held at racetracks located outside the state may be transmitted for public viewing to facilities within the City of Birmingham which are under the jurisdiction of the commission and there made the object of pari-mutuel wagering. Subject to such exceptions as the commission may approve by rule or regulation in order to satisfy applicable requirements of federal law, all pari-mutuel wagering with respect to such racing events that are subject to television or radio coverage shall be subject to the rules governing pari-mutuel wagering on racing events conducted at racetracks under the jurisdiction of the commission, including the provisions of Sections 28 and 29 hereof.

The commission shall also have the power to adopt rules and regulations specifying the conditions under which television or radio coverage of racing events held at racetracks under the jurisdiction of the commission may be either (i) transmitted on a live or delayed basis by a commercial television or radio station or network for the entertainment of the public or (ii) transmitted to specific locations in other states for the purpose of parimutuel wagering at such locations.

Section 32. The governing body of the City of Birmingham may by ordinance impose a fee on an operator licensed hereunder to conduct a race meeting of \$.25 on the admission of each person on each day of such meeting, except those persons holding valid permits under this Act and actually employed at such track in the capacities for which such permits were issued. The operator may collect such amount from the ticket purchaser in addition to the amount charged for the ticket of admission.

Section 33. The commission shall establish a special fund to promote the breeding, raising and racing of thoroughbred and standardbred horses in the state, which shall be known as "The Birmingham Racing Commission Breeding and Development Fund." Each operator shall pay to the commission a breeding fund fee for each month during which it conducts any racing events. For each operator, the breeding fund fee for any month shall be an amount equal to one-half of one percent (or, in the case of any such fee referable to any month during the period of three years immediately following such operator's receipt of an operator's license, one-fourth of one percent) of the handle for such operator for such month. The breeding fund fee payable by an operator for a given month shall be paid to the treasurer of the commission before the end of the succeeding month. All breeding fund fees received by the commission shall be deposited into its breeding fund.

Twenty percent of the aggregate amount of breeding fund fees received by the commission in each calendar year shall be set aside for distribution to the schools of veterinary medicine at Auburn University and Tuskegee Institute. The commission shall distribute the moneys so set aside on such schedule as shall be administratively reasonable and convenient, but in any event all such moneys referable to the breeding fund fees received in any calendar year shall be distributed not later than 60 days after the end of such calendar year. The commission shall divide the 20 percent of the breeding fund fees required to be set aside for the schools of veterinary medicine at Auburn University and Tuskegee Institute between such schools in an equitable manner, taking into account the number of students served by each school, the nature and quality of equine research conducted at each such school and such other factors as the commission shall deem relevant in the circumstances; provided, however, that neither of such schools of veterinary medicine shall receive less than 25 percent of the total amount required to be set aside by the provisions of this paragraph in any calendar year. All moneys distributed to the schools of veterinary medicine at Auburn University or Tuskegee Institute pursuant to this paragraph shall be used exclusively for supportive research on the health and diseases of the horse.

The commission shall adopt rules and regulations governing the maintenance and administration of its breeding fund and the disbursement of the moneys deposited therein, provided that such moneys may be used only for the purposes:

(1) To provide awards to breeders and owners of Alabama-bred thoroughbred or standardbred horses finishing first, second, third or fourth in

pari-mutuel races run in the state;

(2) To provide awards to stallion owners whose Alabama stallions have sired Alabama-bred thoroughbred or standardbred horses finishing first, second, third or fourth in pari-mutuel races run in the state;

(3) To provide purse moneys for races conducted exclusively for Alabama-bred thoroughbred or standardbred horses under conditions which have been approved by such commission;

(4) To advance and promote the breeding and raising of thoroughbred and standardbred horses in the state by the publication and dissemination of information relating thereto;

(5) To promote equine research through grants to universities within the state; and

(6) To provide for the administration and management of such breeding fund.

Section 34. The wagering fee and other fees imposed by this Act on pari-mutuel wagering shall be in lieu of all license and excise taxes imposed on horse racing and pari-mutuel wagering thereon by the state, county, or city or other political subdivision thereof; provided, however, that this section shall not be construed to confer any exemption with respect to any uniform taxes levied generally on property, income or business activity, including, without limitation (i) income taxes levied by the state, (ii) occupational taxes levied on wages by the City of Birmingham or Jefferson County, (iii) ad valorem taxes levied on any racing facility at the same rates as are applicable to other commercial property having comparable market value, and (iv) state and local sales taxes on merchandise sold by operators or their concessionaires at racing events.

Section 35. (a) Of the wagering fee of three percent of the handle on the first \$150,000,000 as set out in Section 29, one percent shall go to the state racing commission, if there exists one, otherwise to the state general fund. The remaining two percent shall be distributed to subsection (b) below.

(b) All fees, commissions and other moneys, including fines and forfeitures, to which the commission shall be entitled under the provisions of this Act, including the two and one-half percent remainder of the monies in subsection (a) above, shall be paid to the treasurer and shall be deposited by said treasurer to the account of the commission. All such moneys remaining after (i) the payment of all expenses incurred in the administration of this Act, including, without limitation thereto, the payment of the salaries and expenses of the members and employees of such commission and (ii) the deposit into the thoroughbred breeding fund of all amounts required by Section 33 hereof to be deposited therein shall be allocated and paid not less frequently than once each calendar year as follows:

(1) Twenty percent of the net revenues shall be allocated to the City of Birmingham, subject to the condition that five percent of the amount so allocated shall be contributed to the general employees' pension fund of the city for the purpose of providing cost-of-living increases in pension benefits;

(2) Ten percent of the net revenues shall be allocated in total to Jefferson County as follows:

(a) One-half shall be used for county-wide purposes (including both incorporated and unincorporated areas) in such manner as shall be deter-

mined by the governing body of the county, and

(b) one-half shall be used to defray the cost of governmental operations conducted in the unincorporated parts of the county or shall otherwise be used for the exclusive benefit of the unincorporated parts of the county in such manner as shall be determined by the governing body thereof;

(3) Nine percent of the net revenues shall be allocated to the board of trustees of the University of Alabama, subject to the conditions that:

a. Such amount shall be used exclusively for University systems located in Jefferson County;

b. One-twelfth of the amount of net revenues allocated to the board of trustees of the University of Alabama shall be used for the support of any programs operated for the correction or treatment of learning disorders of any kind or research into the causes of such disorders, and if no such programs are operated by the board of trustees of the University of Alabama in Jefferson County, such portion of the net revenues shall be used in the county for such other purposes or programs as may be determined by said board of trustees, and

c. One-twelfth of the amount of net revenues allocated to the board of trustees of the University of Alabama shall be used for the support of any programs or laboratories operated for research in virology, and if no such programs or laboratories are operated by the board of trustees of the University of Alabama in the county, such portion of the net revenues shall be used in such county or counties for such other purposes or programs as may be determined by said board of trustees;

(4) Three percent of the net revenues shall be allocated in total to Jefferson State Junior College located in the county;

(5) Two percent of the net revenues shall be allocated in total to a public junior or community college of which the student enrollment is predominantly from economically disadvantaged minorities. If there shall be more than one of such colleges, the said two percent of the net revenues shall be apportioned equally among such colleges;

(6) One percent of the net revenues shall be allocated for public technical colleges located in the county and if there shall be more than one of such colleges, the said one percent of the net revenues shall be apportioned equally among such colleges;

(7) Two percent of the net revenues shall be allocated to any public corporation or authority which provides public transportation in an area including the City of Birmingham;

(8) Twenty and one-half percent of the net revenues shall be allocated in total to all county, municipal, district or other public school systems operating primary and/or secondary schools in the county; and if there shall be more than one of such school systems, the said twenty and one-half percent of the net revenues shall be allocated to such school systems in proportion to their average daily attendance during the most recently completed school year;

(9) If any incorporated municipalities other than the City of Birmingham are located in the county, six percent of the net revenues shall be allocated in total to such other municipalities; and if there shall be more than one of such municipalities, the said six percent of the net revenues shall be allocated to such municipalities in proportion to their population as deter-

mined by the most recent federal decennial census;

(10) Six percent of the net revenues shall be allocated in total to any public fire districts or volunteer fire departments organized and operating in unincorporated parts of the county; and if there shall be more than one of such fire districts or volunteer fire departments, the said six percent of the net revenues shall be allocated as follows:

a. Among such fire districts and volunteer fire departments in proportion to the approximate number of single family residences and other buildings provided fire protection thereby, which number in the case of a public fire district shall be the paid membership thereof and in the case of a volunteer fire department shall be a census of the number of protected residences and other buildings confirmed by affidavit of the chief executive of such volunteer fire department, with such paid membership or census of protected buildings to be determined as of the time and according to such rules as may be established by the commission for the purpose of making such allocations; or

b. Among such fire districts and volunteer fire departments on such other basis and in such other manner as shall from time to time be provided by law;

(11) Two percent of the net revenues shall be allocated in total to any hospitals which are owned by any county or municipality or public corporation or authority and which are located in the county; and if there shall be more than one of such hospitals, the said two percent of the net revenues shall be allocated to such hospitals in proportion to their average patient census during the most recently completed annual period selected by the commission for the purpose of making such allocation;

(12) Two percent of the net revenues shall be allocated in total to any public authority or corporation at any time created by law to alleviate or solve, or to assist in the alleviation or solution of, flooding problems caused by creeks in the city and county as the result of heavy rainfall;

(13) One percent of the net revenues shall be allocated to the Tannehill Furnace and Foundry Commission established pursuant to Code of Alabama 1975, §§ 41-9-320 through 41-9-330, inclusive; and

(14) If and to the extent that the allocations of net revenues described in this subsection can be lawfully made to recipients satisfying the applicable conditions as herein set forth, the commission shall allocate and disburse the following percentages of the net revenues for the following purposes:

a. Two percent of the net revenues shall be allocated in total to Miles College;

b. Two percent of the net revenues shall be allocated in total to Miles College Law School;

c. One-half of one percent of the net revenues shall be allocated in total to private, nonprofit colleges which are located in the city and the student enrollment of which is predominantly drawn from economically disadvantaged minorities;

d. One percent of the net revenues shall be allocated in total to nonprofit organizations, whether public or private, which operate in the county and which promote, undertake or otherwise assist the career orientation, training and employment of persons belonging to economically disadvan-

taged minorities;

e. One percent of the net revenues shall be allocated in total to non-profit organizations, whether public or private, that are located in the sponsoring municipality and that promote economic development in the sponsoring municipality and the surrounding metropolitan area;

f. Five percent of the net revenues shall be allocated in total to private charitable hospitals located in the city and which primarily provide care for children;

g. One percent of the net revenues shall be allocated in total to non-profit organizations, which are located in the county and which sponsor, promote or conduct research and education related to the cure and control of sickle cell anemia and provide treatment or other aid for victims of that disease;

h. Subject to the provisions of paragraph i of this subsection 14, one and one-half percent of the net revenues shall be allocated in total to non-profit organizations (including any particular branch thereof) which are located in the city (including, without limitation thereto, organizations such as the Young Men's Christian Association and the Young Women's Christian Association) and which provide educational and recreational activities for young persons predominantly belonging to economically disadvantaged minorities;

i. One and one-half percent of the net revenues shall be allocated in total to nonprofit organizations (including particularly any research development and scholastic assistance fund), whether public or private, which are located in the county and which promote and encourage scientific or technical education at the secondary and college levels by any means, including, without limitation thereto, financial assistance to schools and students, the development of improved curricula, and the training of teachers;

j. One-half of one percent of the net revenues shall be allocated in total to private, nonprofit organizations which are located in the city and which sponsor and promote ballet and similar forms of the art of dance by any means, including the training of dancers and the giving of performances.

If there shall at any time exist more than one institution or organization which qualifies for a portion of any generic allocation of net revenues made pursuant to any of subparagraphs a through l, inclusive, of subsection 14 of this section, then, and in such case, the commission shall apportion such allocation among all institutions or organizations which evidence to the commission (in such manner as it shall reasonably require) their respective qualifications to receive a portion of such allocation. Any such allocation shall be apportioned among the qualifying institutions and organizations of each generic category in an equitable manner to be determined by the commission, taking into account the relative scale of activities of each qualifying institution or organization, the number of persons served thereby or other relevant factors. The commission shall have reasonable discretion in determining whether, in the light of the legislative intent, a particular institution or organization shall be entitled to an allocation of any portion of the net revenues pursuant to the provisions of this section.

The commission and the individual members thereof shall be fully protected against any charge of malfeasance in relying upon an opinion of the Attorney General of the state of Alabama that a portion of the net revenues may be lawfully allocated and paid to any institution or organization pursuant to any of the provisions of this Act, unless a court of competent jurisdic-

tion shall declare invalid the allocation of net revenues to any such institution or organization.

If any allocation of any portion of the net revenues pursuant to any provision of this section cannot be made for any reason (including, without limitation thereto, the legal invalidity of the provisions of this Act authorizing such allocation, lack of lawful authority by the commission to make such allocation, the nonexistence of any public body or any public or private institution or organization entitled to receive such allocation, or any other failure to satisfy the conditions of such allocation), then, and in such case, the failure of such allocation shall not impair the validity or effectiveness of any part of this for such allocation, nor shall the failure of such allocation adversely affect any other allocation of net revenues under this Act. Any portion of the net revenues that, for any reason, cannot be allocated in accordance with the specific provisions of this section shall be apportioned among those governmental bodies, institutions and organizations actually receiving lawful allocations hereunder in proportion to the respective amounts of net revenues which would have been allocated to such governmental bodies, institutions and organizations if there had been no need to reallocate any net revenues that could not be allocated in accordance with the specific provisions of this section.

It is hereby expressly declared that the primary purpose of this Act is to provide a means for permitting and regulating horse racing and pari-mutuel wagering thereon in the City of Birmingham and, further, that it is not a primary purpose of this Act to provide funds for the various governmental bodies and public or private institutions and organizations to which allocations of portions of the net revenues of the commission are made pursuant to this section. The Legislature recognizes that one or more of such governmental bodies, institutions or organizations may not exist in the City of Birmingham or in the surrounding county, as the case may be, and that, even if the intended recipients do exist and satisfy the applicable conditions, any one or more of such allocations of the net revenues may fail because of legal invalidity or other reasons. The allocations of net revenues made pursuant to this section represent the legislative effort to confer an incidental benefit upon a wide spectrum of governmental and charitable activities, all of which may not be present in the same degree in the city subject to this Act. Therefore, the legal invalidity or other failure of one or more allocations of net revenues made pursuant to this section should not impair the general validity of this Act or prevent the provisions hereof, other than those relating to the invalid or ineffective allocations, from being implemented as a coherent whole.

Section 36. No person who engages in the practice of professional gambling on horse races, or in the practice of making gambling or wagering books on such races, or who knowingly takes any part in such practice, shall be eligible as an applicant for any license or permit to own or operate a racetrack or conduct racing activities under the provisions of this Act, or to be connected therewith in any capacity, and any corporation, partnership or other legal entity which has an officer, director, stockholder, partner or executive or who employs any person who engages in such practices shall likewise be ineligible as a licensee, and each commission is hereby empowered to inquire into such matters in entertaining any such application and otherwise in administering this Act.

Section 37. The possession or transportation of any drug or chemical except those permitted by regulations of the appropriate commission within the racing enclosure is prohibited except upon a bona fide veterinarian's

prescription with a complete statement of uses and purposes on the container. A copy of such prescription shall be filed with the stewards.

Section 38. Any credential, license or permit issued by the commission, if used by the holder thereof for a purpose other than identification and in the performance of legitimate duties on a racetrack, shall be automatically revoked whether so used on or off a racetrack.

Section 39. No person shall knowingly enter or race any horse in any running or harness race under any name Quarter Horse Association or other applicable name to such horse by and registered with the Jockey Club, the United States Harness Association, the American Quarter Horse Association or other applicable association or knowingly instigate, engage in or in any way further any act by which any horse is entered or raced in any running or trotting race under any name or designation other than the name or designation duly assigned by and registered with the Jockey Club, the United States Harness Association, the American association.

Section 40. No person shall wager on or conduct any wagering on the outcome of a horse race pursuant to the provisions of this Act unless such person be twenty-one years of age or older. No person shall accept any wager from a person under the age of twenty-one years.

Section 41. The provisions of this Act are expressly declared to be severable. If any provision of this Act shall be adjudged to be invalid by any court of competent jurisdiction, such provision shall be severed from this Act in order to effectuate the legislative intent that such judgment shall not affect, impair or invalidate the remainder of this Act, and the operation of such judgment shall be limited to the provision thereof directly involved in the action in which such judgment shall have been rendered.

Section 42. Insofar as the provisions of this Act may be inconsistent with the provisions of any other law concerning activities and actions authorized by this Act, the provisions of this Act shall control, it being specifically declared that any other provisions of existing law that prohibit or regulate horse racing, gambling or pari-mutuel wagering shall not be applicable to any activities or actions authorized by this Act.

Section 43. This Act shall become effective immediately upon its passage and approval by the Governor or upon its otherwise becoming a law.

And amend Section 23, page____, line____, by deleting, "Do you favor the creation of the Madison County Racing Commission to regulate licensing and supervision of greyhound racing and pari-mutuel wagering thereon as provided in Act No.____ approved____, 1984?" and inserting the following: "Do you want greyhound racing and legalized gambling, through pari-mutuel wagering, allowed in Madison County as provided in Act No.____, approved____, 1984?"

And amend Sections 24, 25 and 26 by renumbering them Sections 26, 27 and 28, respectively.

And amend page____, line____ by adding thereto new Sections 24 and 25 as follows:

Section 24. If the majority of votes cast on the question in Section 23 is "yes", then the following question shall determine whether the greyhound race track shall be privately owned pursuant to the preceding sections of this act or shall be publicly owned according to the terms of Section 25. This question shall be decided in the same manner as in Section 23. The question is:

"If a greyhound race track is going to be located in Madison County because of voter approval of the previous question, do you prefer that the track be publicly owned (in which case all of the profits would go for local government services) or privately owned (in which case the profits would be split between private owners and local government services)?"

If the majority of votes cast in this question is "Publicly Owned," then the greyhound race track shall be owned and operated pursuant to Section 25 of this Act. If the majority of votes cast on this question is "Privately owned," then the greyhound race track shall be owned and operated pursuant to Sections 1 through 22 of this Act.

Section 25. (A) A Commission is hereby created to manage and operate greyhound operations and pari-mutuel gambling in Madison County. The name of such Commission shall be the Madison County Racing Commission hereinafter called "The Commission". The Commission shall be established, its membership elected, and its membership compensated as follows:

(I) The Commission shall be composed of five (5) natural persons and they shall be elected to Place No. 1, Place No. 2, Place No. 3, Place No. 4 and Place No. 5. Decisions of the Commission shall be by majority vote.

(II) The terms, election dates, qualified voters, district boundaries and related election matters of the Madison County Racing Commissioners shall correspond with that of the Madison County Commission. Each Commissioner's District shall correspond with the same numbered Madison County Commissioner district. Future changes in Madison County Commission election matters shall be equally applied to the election of Madison County Racing Commissioners.

(III) No Commissioner may serve more than two consecutive terms.

(IV) Each Commission shall be paid one thousand, five hundred (\$1,500) dollars per month and may seek reimbursement for reasonable and actual expenses incurred in the furtherance of Commissioner duties.

(V) Sections 1(D), (E), (I), (J) and (K) of this Act shall apply to elected Commissioners.

(B) It shall be the duty of the Commission to:

(I) Procure, without condemnation, the land for the greyhound race track location,

(II) Manage, operate and do all things incidental to the management and operation of the greyhound race track.

(III) Enter into contractual obligations for the construction, maintenance, management and operation of the greyhound race track.

(IV) Contract out none, any or all of the operational aspects of the greyhound race track.

(C) The Commission is expressly given the power and authority reasonably necessary for the fulfillment of its duties, the power to summon witnesses before its meetings, the power to administer oaths to such witnesses, and the power to require testimony on any issue before it. Subpoenas shall be issued as in civil cases by the Circuit Clerk of Madison County at the request of the Commission to compel the attendance of witnesses and the production of records. The Commission is further vested with full power and authority to regulate and control all activities involved in, related to and conducted at the greyhound racing track. Without limitation of the foregoing, the Commission shall have the following specific powers: (I) to regulate and control all pari-mutuel gambling activities, (II) to hire and fire all personnel, (III) to establish standards of conduct for all patrons admitted to the track facility, (IV) to prohibit, for such uniform reasons as the Commission may establish, any person from being admitted to the race track, (V) to direct for such uniform reasons as the Commission may establish, the removal of any person from the race track, (VI) to subcontract out any services, work or aspect of the management and operation of the race track. A minimum of four Commissioners must agree on any private entity chosen to oversee daily management or operations, and (VII) to create a security force as is necessary to enforce the rules and regulations of the Commission and enforce the laws of the State of Alabama. In and about the exercise of the powers hereby vested in it, the Commission shall adopt all reasonably necessary rules and regulations. Security officers so employed shall be charged with all duties and invested with all powers of peace officers, and may eject trespassers without a warrant, arrest any person guilty of disorderly conduct, trespass or for the violation of any law of the State of Alabama which shall occur on race track premises and be committed in their presence. Any person so arrested shall be carried before the nearest committing magistrate and charged upon affidavit with the offense committed. Said security officers shall not be considered peace officers for any purposes other than the execution of the provisions of this Act.

(D) The contributions to pari-mutuel pools from each Racing Program shall be distributed as follows: (1) eighteen percent (18%) shall be retained by the Commission and (2) eighty-two percent (82%) shall be divided among and redistributed to the contributors betting on the winning greyhound wagers. The amount of redistribution for each winning bet placed shall be determined by dividing the total amount remaining in the pool after the deductions hereinabove provided for by the number of bets placed on the winning greyhound. Each redistribution shall be made in a sum equal to the next lowest multiple of ten. The Commission is entitled to retain the odd cents of all redistributions to be known as the "breaks to a dime" and all monies represented by any unclaimed, uncashed or abandoned pari-mutuel tickets known as "outs" money. The Commission shall be permitted to provide separate pools for separate wagering systems as it deems appropriate. Each pool shall be redistributed separately as herein provided. Should there be no ticket on the winning greyhound, the pool in such race available for distribution to contributors will be divided among the holders of tickets on the greyhound running next in line until the pool has been redistributed to the contributors. The Commission shall be required to use computerized equipment to record the wagering and compute the odds. Rules and regulations governing the operation of each of the pools shall be set out in book form by the Commission and shall be made available to the public. The Commission may charge an admission fee for entrance to the race track in an amount it deems appropriate.

(E) Participation in ownership, and all rights and benefits which accrue

from ownership, shall be available at the option of all the separate county and municipal governments located in Madison County. The decision on whether to participate shall be made by each government's elected governing body or by a referendum of the residents of each government. Contributions to the cost of constructing and maintaining the race track must be made by each participating government based on the ratio each government's population bears to the total population of the participating governments. For the purposes of this Act, the population of Madison County outside the corporate limits of the municipalities' corporate limits shall represent the populations used by the Madison County Commission. The original cost of constructing and maintaining the race track shall be determined by the Commission, subject to the approval of all of the elected governing bodies of the participating governments.

(F) Monies held by the Commission after the payment of expenses shall be regularly distributed as follows:

(I) Fifty percent (50%) shall form an Education and Health Care Superfund. The Superfund shall be divided as follows:

(A) Fifty percent (50%) shall be distributed to the Madison County School System and the City of Huntsville School System on the same basis as funds received from the Minimum Program Fund are divided between the two systems; provided, however, that no school system of a non-participating government may share in the proceeds of this provision. Monies not spent under this provision shall be distributed under subsection (F)(II).

(B) Thirty-five percent (35%) shall be distributed among public institutions of higher education within Madison County with the exact distribution to be determined annually by an independent commission composed of an appointment by each Madison County legislator.

(C) Seven percent (7%) shall be paid to Huntsville Hospital.

(D) Three percent (3%) shall be paid to the University of Alabama-Huntsville Ambulatory Care Center.

(E) Five percent (5%) shall be paid into the general fund of the municipality within which the greyhound race track is located and, if the track is not located within a municipality, then to the Madison County Commission.

(II) Fifty percent (50%) shall be distributed to each participating government based on the percentage contribution each participating government made to the original cost of constructing and maintaining the race track.

(G) Participating governments may use any form of funding mechanism to pay their share of the original cost of constructing and maintaining the race track so long as the funding mechanisms chosen are not expressly prohibited by the Constitution of Alabama.

(H) Sections 3, 5, 6, 13, 14, 18, 20, 21, and 22 of this Act shall apply, by reference, to the provisions of Section 25.

(I) Should none of the governments in Madison County choose to participate in the ownership provisions of this section, then Sections 1 through 23 shall become effective.

(J) The greyhound race track cannot be constructed within the corporate limits of a municipality if the voters of the municipality have, by majority vote, voted no to the question in Section 23. The greyhound race track cannot be constructed within that part of Madison County outside of

the corporate limits of Madison County's municipalities if the voters within that area have, by majority vote, voted no to the question in Section 23.

A BILL TO BE ENTITLED AN ACT

To amend § 40-23-7, Code of Alabama 1975, so as to revise the payment schedule to require that payers of large State sales tax liabilities will pay on an estimate basis during the period in which the tax liability accrues and to provide for distribution of the revenues.

Be It Enacted by the Legislature of Alabama:

Section 1. Section 40-23-7, Code of Alabama 1975, is hereby amended as follows:

"The taxes levied under the provisions of this division, except as otherwise provided, shall be due and payable in monthly installments on or before the twentieth day of the month next succeeding the month in which the tax accrues.

On or before the twentieth of each month, every person on whom the taxes levied by this division are imposed shall render to the department of revenue, on a form prescribed by the department, a true and correct statement showing the gross sales, the gross proceeds of sales or gross receipts of his business, as the case may be, for the next preceding month; the amount of gross proceeds or gross receipts which are not subject to the tax, or are not to be used as a measurement of the taxes due by such person, and the nature thereof; together with such other information as the department may demand and require. At the time of making such monthly report such person shall compute the taxes due and shall pay to the department of revenue the amount of taxes shown to be due.

Any taxpayer liable for taxes under the provisions of this division whose average monthly state sales tax liability was \$1,000.00 or greater during the preceding calendar year shall make estimated payments to the de-

partment of revenue on or before the 20th day of the month in which the liability occurs as follows:

(a) The amount of the first estimated payment shall be sixty-six and two-thirds percent (66 $\frac{2}{3}$ %) of the taxpayer's actual tax liability for the month October 1983; thereafter the amounts of the payment shall be the lesser of sixty-six and two-thirds percent (66 $\frac{2}{3}$ %) of the taxpayer's actual tax liability for the same calendar month of the preceding year or sixty-six and two-thirds percent (66 $\frac{2}{3}$ %) of the current month's estimated liability.

(b) Any outstanding credit or deficit arising from the taxpayer's overpayment or underpayment of his final liability shall be applied to either increase or reduce, as the case may be, that month's final tax liability which shall be reported and paid not later than the twentieth of the month next succeeding the month in which the tax accrues.

(c) The revenues derived from the first month of receipts of the estimated payments made under the provisions of this section shall be deposited to the credit of the State General Fund and for all succeeding months the revenues shall be deposited in accordance with § 40-23-35, Code of Alabama 1975.

(d) The provisions of this section shall not apply to the provisions of §§ 11-51-180, 11-51-200, and 40-12-4, Code of Alabama 1975.

When the total tax for which any person liable under this division does not exceed \$10.00 for any month, a quarterly return and remittance in lieu of the monthly returns may be made on or before the twentieth day of the month next succeeding the end of the quarter for which the tax is due when specially authorized by the department of revenue, and under such rules and regulations as may be prescribed.

The department of revenue, for good cause, may extend the time for making any return required under the provisions of this division, but the time for filing any such return shall not be extended for a period greater than 30 days from the date such return is due to be made."

Section 2. The provisions of this Act are severable. If any part of this Act is declared invalid or unconstitutional, such declaration does not affect the part which remains.

MESSAGE FROM THE SENATE

Mr. Speaker:

The Senate has amended as therein shown and, as amended, has passed the following House Bill and returns same herewith to the House:

H. 159. To repeal Act No. 81-889, S. 32 of the 1981 First Special Ses-

McDOWELL LEE,
Secretary.

SENATE MESSAGE

On motion of Rep. Holley, the House concurred in and adopted the Senate amendment to the bill, H. 159, said Senate amendment being as follows:

A BILL
TO BE ENTITLED
AN ACT

To repeal Act No. 81-889, S. 32 of the 1981 First Special Session, (Acts 1981 Special Session, p. 25), which proposes a Constitutional Amendment on budgetary matters and the legislative process.

Be It Enacted by the Legislature of Alabama:

Section 1. The Alabama Legislature has researched and finds, inter alia:

1. The Legislature convened, in response to the Governor's proclamation, in its First Special Session of 1981, commencing August 4, 1981, and enacted Act No. 81-889, S. 32, proposing an amendment to the Constitution of Alabama of 1901 which would require that during each regular session of the Legislature, until such time as bills making appropriations for the ensuing fiscal year have been signed by the presiding officer of each house, no bill, other than a bill making any part of said appropriations, could be signed by either the presiding officer of the House or Senate and transmitted to the other house. Act No. 81-889 further provided that the ratification election for this proposed Constitutional Amendment would be held at the first statewide primary or general election after the expiration of three (3) months from the final adjournment of the session during which the bill had been enacted.

2. The Legislature convened, in response to the Governor's proclamation, in its Third Special Session of 1981, commencing November 3, 1981, during which it enacted Act No. 81-1190, H. J. R. 75, Third Special Session, 1981, approved December 4, 1981, which redesignated the date for the ratification election of the Constitutional Amendment proposed by Act No. 81-889 as follows:

"...provided, however, the Constitutional Amendment proposed by Act No. 81-889, S. 32, 1981 First Special Session, shall be placed on the September 1982 primary or the November 1982 general election."

3. The Legislature convened in Regular Session, as provided by law, on January 12, 1982, during which it passed three resolutions relating to said Act No. 81-889.

(a) Act No. 82-414, H. J. R. 165, 1982 Regular Session, was passed by the House on March 23, 1982, and by the Senate on April 8, 1982, and provided in pertinent part

"BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That the election date on the September 1982 primary or the November 1982 general election ballot, as designated by Act No. 81-1190, H. J. R. 75, Third Special Session 1981, is

hereby rescinded and the said constitutional amendment proposed by Act No. 81-889 shall be on the ballot at the first primary or general election in 1984."

(b) Following the passage of H. J. R. 165, the Legislature enacted Act No. 82-270, H. J. R. 166, 1982 Regular Session, which was passed by the House on March 23, 1982, and by the Senate on April 8, 1982. H. J. R. 166, provided in pertinent part:

"BE IT RESOLVED BY THE ALABAMA LEGISLATURE, BOTH HOUSES THEREOF CONCURRING, That the Secretary of State return to it forthwith for further consideration Act No. 81-889, S. 32 of the First Special Session 1981.

BE IT RESOLVED FURTHER, That the election date on the September 1982 primary or the November 1982 general election ballot, as designated by Act No. 81-1190, H. J. R. 75, Third Special Session 1981, is hereby rescinded."

Pursuant to this resolution, the Secretary of State on April 19, 1982, returned Act No. 81-889 to the House of Representatives, further requesting that:

"[W]hatever the ultimate disposition of this proposed Constitutional Amendment, I trust that it will be returned to the Office of the Secretary of State within 10 days after the adjournment of the current session. . . ."

Following the close of the 1982 Regular Session, no further action having been taken by the Legislature respecting the substantive proposal embodied by Act No. 81-889, said Act No. 81-889 was delivered by the Clerk of the House to the Secretary of State as unfinished and non-viable business pursuant to Code of Alabama 1975, Sections 29-1-16 and 17.

(c) H. J. R. 165, having been erroneously sent to the Governor in contravention of Section 125 of the Constitution of 1901, the Legislature on April 26, 1982, enacted Act No. 82-413, H. J. R. 386, 1982 Regular Session, which provided:

"RETURNING H. J. R. 165, 1982 REGULAR SESSION, TO THE SECRETARY OF STATE FOR CUSTODY AND ASSIGNMENT OF ACT NUMBER.

"WHEREAS, the Alabama Legislature enacted H. J. R. 165, by passage in the Alabama House of Representatives on the 20th legislative day, March 23, 1982, and adoption in the Alabama Senate on the 26th legislative day, April 8, 1982, and now finds it in its possession; and

"WHEREAS, said H. J. R. 165 resets the election date for Act No. 81-889, S. 32 of the First Special Session 1981, and rescinds the date therefor for the proposed constitutional amendment on budgetary matters; and

"WHEREAS, the said H. J. R. 165 stated in pertinent part that:

"'BE IT FURTHER RESOLVED, That in accordance with Section 125 of the Constitution of 1901, this resolution relating to a proposed constitutional amendment and the election thereon, does not require the signature of the Governor and the original of same shall not be sent to him;" and

"WHEREAS, any purported executive veto of any order, vote or resolution on questions of, inter alia, 'the bringing on of elections by the two houses and amending this Constitution' can be only a nullity and is without the constitutional authority of the Governor; now therefore,

"BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That we do, in accordance with Sections 125, 284 and 287, Constitution of Alabama 1901, return H. J. R. 165, 1982 Regular Session, to the Secretary of State and hereby direct that he assign an Act number to said H. J. R. 165, abide by the requirements prescribed therein and keep such document which relates to amending the Constitution and election date called therefor within the exclusive possession of his official capacity, so that the ballot shall be prepared and the date proclaimed as designated in H. J. R. 165, 1982 Regular Session.

"BE IT FURTHER RESOLVED, That we do direct the Clerk of the House to cause delivery forthwith directly to the Secretary of State and that no copies of this resolution shall be sent to the Governor."

Consequently, H. J. R. 165, set a date for a ratification vote on the Constitutional Amendment proposed by Act No. 81-889 which Act No. 81-889 had been recalled by the Legislature and stayed in the possession of the House; H. J. R. 165 was recovered from the Governor by the Secretary of State and assigned an Act number, Act No. 82-413. However, no further legislative action had been taken after its recall on Act No. 81-889 and remained in the House with no final action thereon.

4. The Legislature convened, in response to the Governor's proclamation, in its Second Special Session of 1982, commencing June 21, 1982, during which it enacted Act No. 82-705, H. J. R. 58, Second Special Session, 1982, approved July 8, 1982, which provided in pertinent part:

"BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That the constitutional amendments proposed by Acts 82-171, H. B. 652; 82-299, H. B. 689; and 82-332, S. B. 110, shall be presented to the voters at an election to be held on September 7, 1982.

"The constitutional amendments proposed by Acts 82-78, H. B. 54; 82-100, S. B. 328; 82-151, H. B. 574; 82-200, H. B. 651; 82-201, H. B. 48; 82-202, S. B. 454; 82-329, S. B. 546; 82-333, S. B. 502; 82-215, H. B. 741; 82-216, H. B. 742; 82-217, H. B. 760; and 82-630, H. B. 94 shall be presented to the voters at an election to be held on September 28, 1982.

"The constitutional amendments proposed by Acts No. 82-300, S. B. 302; 82-330, S. B. 468; 82-331, H. B. 616; 82-96, H. B. 473; and 82-214, H. B. 734 shall be presented to the voters at an election to be held on November 2, 1982.

"BE IT FURTHER RESOLVED, That all constitutional amendments not enumerated herein shall be presented to the voters on November 2, 1982."

5. The Justices of the Supreme Court of Alabama have on former occasions advised the Legislature that acts proposing Constitutional Amendments could be recalled by the Legislature by resolution for further consideration, and have also advised that the Legislature may by resolution validly and constitutionally redesignate the election date for proposed Constitutional Amendments. Opinion of the Justices, 252 Ala. 89, 39 So.2d 665 (1949); Opinion of the Justices, 275 Ala. 372, 155 So.2d 329 (1963); Opinion of the Justices, No. 300, Ala., 418 So.2d 107 (1982).

6. It is the sense of the Legislature that sound public policy requires that a Constitutional Amendment should to be submitted to the voters for

ratification several years after the act proposing such Constitutional Amendment has been promulgated by the Legislature.

7. There exists a serious contention which is apparently valid that Act No. 81-889, S. 32, First Special Session, 1981, was returned to the Legislature by Act No. 82-270, H. J. R. 166, Regular Session 1982, and subsequently never finally enacted by the Legislature, thus remaining non-viable.

8. Act No. 82-705, H. J. R. 58, Second Special Session 1982, is the most recently enacted statute respecting the date for ratification of Act No. 81-889, S. 32, First Special Session, 1981, said date having been set at November 2, 1982, if in fact Act No. 81-889 has not been validly returned to the Legislature by Act No. 82-270, H. J. R. 166, Regular Session, 1982, and never finally enacted by the Legislature.

Section 2. Act No. 81-889, S. 32 of the 1981 First Special Session (Acts 1981 Special Session, p. 25) is hereby specifically repealed.

Section 3. All laws or parts of laws which conflict with this Act are hereby repealed.

Section 4. This Act shall become effective immediately upon its passage and approval by the Governor, or upon its otherwise becoming a law.

BE IT FURTHER RESOLVED, That copies of this resolution be provided for Mr. St. John's family, whose sorrow we truly share and for whom we express our most heartfelt concern.

On motion of Rep. Bowling, the rules were suspended and the resolution, H. J. R. 130, was adopted.

Also:

By Rep. Johnson (Roy):

H. J. R. 131. REQUESTING THE GOVERNOR TO EFFECT A MORATORIUM ON ALL EMPLOYEE HIRINGS BY STATE AGENCIES.

WHEREAS, the numerous state funds have insufficient revenues to fund fully the state services needed and deserved by the citizens of Alabama, and

WHEREAS, the Legislature strongly desires to have these services provided to the state's citizens, and

WHEREAS, there exists an immediate need to better control the expenditure of state tax revenues and to improve the state's financial condition, now therefore,

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, that we hereby respectfully request the Governor of the State of Alabama to issue an executive order directing a moratorium on all hirings by any department, agency, board, or bureau of the State.

BE IT FURTHER RESOLVED, that any exceptions to this executive order relating to the replacement of present employees can only be made

upon written request from the head of the department, agency, board, or bureau to the Governor. If the Governor determines that an emergency exists, he may grant written permission for that hiring to be considered temporary upon approval by the Legislative Council.

BE IT FURTHER RESOLVED that any exceptions to this direction relating to the creation and filling of new employee positions shall only be granted upon the written approval of the Governor with the concurrence of the Legislative Council.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to the Governor.

SUBSTITUTE OFFERED

Rep. Starkey offered the following substitute to the resolution, H. J. R. 131:

URGING GOVERNOR WALLACE TO ISSUE IMMEDIATELY A MORATORIUM ON HIRING ANY ADDITIONAL EMPLOYEES.

WHEREAS, it is an irrefutable fact that the general fund is in critical condition with anticipated revenues insufficient to cover even basic operational costs and other committed indebtedness of the State; and

WHEREAS, the numerous suggested remedies or cure-alls being prescribed for these ills include an imposition of additional taxes upon the citizens of this state who already suffer an overdose of taxation; and

WHEREAS, a source of readily available relief, however, lies close at hand in the form of an immediate 12-month freeze on hiring any new or additional state employees either within or without the state merit system, classified, unclassified, temporary, permanent, part-time or full-time; and

WHEREAS, it is reliably estimated that such a move would result in savings to the general fund of some \$25 million during the 12-month period; now therefore,

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That we hereby urge Governor George C. Wallace to immediately issue a moratorium on hiring any additional state employees for a period of one year.

BE IT FURTHER RESOLVED, That we respectfully request Governor Wallace to direct all department and agency heads to strictly adhere to the letter and intent of said moratorium as hereinabove outlined.

And the substitute was adopted.

There shall be a transition and phase-out period of two years from January 1, 1985, to phase out the Alabama Alcoholic Beverage Control Board and to fully implement the provisions of this act no later than January 1, 1987. It is the intent of the legislature that this transitional period shall be used to orderly transfer the sale of alcoholic beverages to private businesses.

(a) The Alabama Alcoholic Beverage Control Board, commencing January 1, 1985, and each year thereafter to January 1, 1987, shall liquidate its physical operations and its inventory at the rate of at least fifty percent per annum. As such stores are closed, the inventory of those stores shall be transferred to existing stores operated by the Alabama Alcoholic Beverage Control Board or shall be sold by the director of finance to licensed retailers on the basis of competitive bids. All proceeds generated by such sales shall be deposited by the director, as received, in the State treasury to the credit of a fund to be designated the Alcoholic Beverage Liquidation Fund.

(b) The fifty percent liquidation rate per annum shall be accomplished in the following manner:

(1) The physical facilities and inventories located within each county where alcoholic beverages are sold shall be phased out by reducing the operations of the stores in each such county by fifty (50) percent each year for two years, commencing January 1, 1985.

(2) Provided, however, in those counties where there are less than five stores in operation as of January 1, 1985, the rate of liquidation shall be at a rate determined by the Alabama Alcoholic Beverage Control Board promulgating a policy based on the convenience for consumers and economic soundness for the state.

(3) During the phase-out period, the commissioner of revenue may issue permits and licenses to qualified persons for the sale of alcoholic beverages, pursuant to the provisions of this act.

(4) Commencing January 1, 1985, and continuing until the final store operated by the Alabama Alcoholic Beverage Control Board is closed, any person who is engaged in the sale of alcoholic beverages in this state shall be subject to a minimum price control as promulgated by the Alabama Alcoholic Beverage Control Board, and no person shall sell alcoholic beverages for less than the prices promulgated. The board minimum promulgated shall not be in excess of the price of any item of its existing inventory; provided, however, that any item for sale and subject to price control which is

not then sold by the Alabama Alcoholic Beverage Control Board shall be determined by a policy to be promulgated by the board.

(c) Any state merit system employee who loses his job as a direct consequence of the provisions of this act shall be entitled to 5 additional points on any state examination for appointment to the classified service for a period of two years following his lay-off. The state personnel department and the department of revenue in filling vacancies within the department of revenue will give any such employee first preference if his service rating is as good or better than those of others in his class.

(i) It is expressly provided that any such state merit system employee, who loses his job as a direct consequence of this act, shall be given first preference, for a period of two years, as an applicant for any license or permit under the provisions of this act upon qualifying otherwise therefor.

(ii) Any licensee, under the provisions of this act, who employs full-time, for a period of twelve consecutive months or longer, any such displaced state merit system employee, shall be given a fifty percent discount on the following year's license or permit fees.

(d) During the period of transition and phase-out the administrator of the Alabama Alcoholic Beverage Control Board, the director of finance, the commissioner of revenue and the director of the department of personnel shall coordinate their respective responsibilities hereunder to effect the provisions of this act.

Section 3. All powers, duties, and authority heretofore conferred on, vested in, or required of the Alabama Alcoholic Beverage Control Board, the administrator, or the individual members thereof as they relate to the purchase, distribution and sale of alcoholic beverages in the State of Alabama are hereby conferred on, vested in, and required of the director of the state department of finance to be exercised by him for the sole purpose of liquidating inventories and other properties of the board toward the end that the State of Alabama shall cease to operate or participate in the operation, sale or distribution of alcoholic beverages in the state.

Section 4. After January 1, 1987, no additional purchases of alcoholic beverages shall be made by the Alcoholic Beverage Control Board or the director of the department of finance on behalf of the State of Alabama. All inventories of alcoholic beverages on hand in retail stores, warehouses, or purchased and in transit shall be sold on the basis of competitive bids by the director. All other properties both real and personal heretofore used by the Alcoholic Beverage Control Board of the State of Alabama, in connection with the sale and distribution of alcoholic beverages shall be sold or disposed of by the director of finance on the basis of competitive bids, or otherwise, as he may determine to be in the best interest of the State of Alabama.

Section 5. All proceeds of the sale of inventories and properties of the Alcoholic Beverage Control Board shall be deposited by the director of finance, as received, in the state treasury to the credit of a fund to be designated the alcoholic beverage liquidation fund. All expenses incurred in liquidation of the assets of the board upon approval for payment by the director of finance, shall constitute a first charge against the fund. Liquidation of the inventories and properties as herein provided shall be completed by not later than January 1, 1987, and any balance of unencumbered funds remaining in the alcoholic beverage liquidation fund after that date shall be transferred to the state treasury to the credit of the department of revenue.

Section 6. Each county of the state now designated a "wet county" and each county now designated a "dry county" shall remain wet or dry as the case may be until such designation is changed in an election held for that purpose in accordance with provisions Sections 28-1-1 and 28-2-1, Code of Alabama 1975. Provided, however, the court of county commissioners, board of revenue or other like governing body of any county now designated a "wet county" may by resolution or ordinance, duly adopted, license and further regulate any retail outlet in such county engaged in business of selling alcoholic beverages at retail, and shall be empowered to appropriate the proceeds of any such license for local purposes.

Section 7. Nothing in this act shall be construed to repeal any laws relating to the imposition of a license or other tax upon the manufacture, sale and distribution of alcoholic beverages in the state, or of any laws applicable to dry counties with respect to the manufacture, distribution, sale or possession in those counties of illicit liquors as defined by Section 28-4-1, Code of Alabama 1975.

Section 8. The issuance of any permits or licenses, the adoption of and promulgation of rules and regulations, and the enforcement thereof, relating to the sale and purchase of any alcoholic beverages shall be administered by the state commissioner of revenue. No employee of the commissioner shall, directly or indirectly, have any interest whatsoever in manufacturing, selling, transporting, distributing, storing, or otherwise dealing in alcoholic beverages, except in the performance of his official duties.

Section 9. The state commissioner of revenue shall, by the adoption and promulgation of reasonable rules and regulations, establish appropriate regulatory procedures for the importation of all distilled spirits and alcohol into this state to ensure that all taxes heretofore or hereafter imposed upon such items shall be paid and collected as provided for herein.

It shall constitute a misdemeanor for any person, firm or corporation to transport any alcoholic beverages or liquors in any county of this state unless the tax on said alcoholic beverages or liquors has been paid and the evidence thereof attached to the container as provided herein, except that a common carrier may transport such beverages to the warehouse of a licensed manufacturer or licensed wholesaler in accordance with rules and regulations adopted by the state commissioner of revenue. Any vehicle used to transport alcoholic beverages or liquors in violation of this section, with the knowledge and consent of its owner, shall be subject to confiscation upon declaration being filed for the purpose by any district attorney or like officer of any municipal or district court, or attorney general, in this state having jurisdiction thereof, under the rules of law now governing the confiscation and condemnation of vehicles used in transporting liquors. Provided, however, it shall be lawful for bona fide claimants of such vehicles to file claim and replevy such property pending condemnation proceedings.

Section 10. The fiscal authorities of any county or municipality may require that any officer who receives a salary as compensation shall remit any sums to which he may become entitled by virtue of the seizure and condemnation of any vehicle or conveyance used in conveying any liquors or beverages prohibited by law to the treasury of such county or municipality from which such salary is paid. All actions of any kind to collect any such sums from any county, municipality or any officer thereof for which the right of action has accrued prior to the passage of this section shall be brought within 90 days after the enactment of this section or be forever barred; any and all actions to recover on rights of action accruing after the

enactment of this section shall be brought within 90 days after such rights of action accrue or be forever barred.

Section 11. The department of revenue, in addition to all other powers and duties heretofore or hereafter given to it, shall have the following powers, functions and duties relating to the sale and purchase of alcoholic beverages within the State of Alabama:

(a) To issue or refuse to issue any permit provided for by this Act, or to extend the permit, or remit in whole or in part of the permit monies when the permit cannot be used due to a natural disaster or act of God.

(b) To revoke, suspend or cancel, for violation of or noncompliance with the provisions of this Act, or any lawful rules and regulations of the board issued hereunder, or for other sufficient cause, any permit issued by it under the provisions of this Act; however, no such permit shall be revoked, suspended or cancelled except after a hearing of which the permit holder shall have been given reasonable notice and an opportunity to be heard.

(c) To prescribe forms of permits and applications for permits and of all reports which it deems necessary in administering this Act.

(d) To fix standards, not in conflict with those prescribed by any law of this state or of the United States, to secure the use of proper ingredients and methods of manufacture of alcoholic beverages.

(e) To try any of his employees; and to dismiss them as provided for in section 29 if found guilty.

(f) To issue licenses provided for in this Act and to decline to issue any license to any person or corporation who in his reasonable discretion are not proper persons to have such permits. Any person, firm, or corporation who after securing a permit as provided in this Act shall be convicted in a court of competent jurisdiction of selling or serving spirituous liquors on the premises in broken packages of any size shall immediately have their license revoked and it shall be mandatory on said state commissioner of revenue to revoke said license.

(g) To revoke or cancel for cause after hearing any license issued by him under authority of this Act.

(h) To provide forms for application for licenses and of all reports which he deems necessary in administering the same.

(i) To fix standards not in conflict with those prescribed by the laws of this state and of the United States.

(j) To issue rules and regulations governing all advertising of distilled spirits within this state.

(k) To issue rules and regulations not inconsistent with the federal laws or regulations requiring informative labeling of all distilled spirits offered for sale hereunder.

(l) To adopt and promulgate, repeal and amend such rules, regulations, standards, requirements and orders not inconsistent with this Act or any law of this state or of the United States as he may deem necessary to control the manufacture, sale, distribution, storage, or transportation of distilled spirits and alcohol in accordance with the provisions herein.

(m) The state commissioner of revenue shall on the first day of January of each and every year, after the provisions of this Act go into effect, pre-

pare a detailed report of its operation, which shall be submitted to the Governor; and also to each member of the legislature upon the convening thereof in regular session.

(n) Agents and inspectors appointed by the state commissioner of revenue for the enforcement of the provisions of this Act are empowered and authorized to enter upon the premises of any person engaged in the manufacture, sale, distribution, storage, or transportation of alcoholic beverages and liquors at any time for the purpose of inspecting said premises and shall have access during such inspection to all books, records, and supplies relating to the manufacture, sale, distribution, storage, and transportation of alcoholic beverages and liquors.

(o) It is made the duty of the commissioner of revenue to revoke or cancel any license issued pursuant to the authority of this Act for any willful violation of any of the provisions of this Act, or for the willful violation of any rule promulgated by the commissioner of revenue under the terms and provisions of this Act; and after revocation or cancellation, there shall be no renewal of reissuance of such license for a period of two years from the date of revocation or cancellation.

Section 12. (a) A manufacturer's license shall authorize the holder thereof to operate a distillery for the production of alcohol or distilled spirits at the premises designated in the license. Such license shall authorize the sale of distilled spirits of alcohol in bulk to other distillers or rectifiers and shall require that sales to holders of wholesale licenses shall be in sealed containers. The annual fee for this license shall be \$5,000; provided, however, that for Alabama domestic manufacturers of vinous spirits the annual fee for a period of ten years from January 1, 1985, shall be \$750.00 and thereafter the fee shall be \$1,500.00 annually. Said licenses shall be obtained each year on or before the first day of October.

(b) A wholesaler's license shall authorize the holder to engage in the sale of distilled spirits at wholesale by selling to the holder of a wholesale license or to the holder of a retail license for the purpose of resale. Said license fee shall be \$2,000 annually. Said licenses shall be renewed annually on or before the first day of October.

(c) A package retailer's license shall authorize the holder to sell only in the original and unbroken package or packages, which package or packages shall contain not less than one-half pint of distilled spirits or alcoholic beverages each, and shall not permit the breaking of said package or packages on the premises where sold, and shall not permit the drinking of the contents of said package or packages or of any mixed drinks on the premises where sold. The annual fee for this license shall be \$1,000.00. Said retailer's license shall be obtained or renewed each year on or before the first day of October.

(d) An on-premises retailer's license shall authorize the sale of alcoholic beverages for consumption on the licensed premises only. Such permit shall be issued only to qualified hotels, restaurants and clubs, and to common carriers with adequate facilities for serving passengers. In resort areas, whether inside or outside of a municipality, the department of revenue may, in its discretion, issue on-premises retailer's license to such establishments as it deems proper. An on-premises retailer's license when issued to a common carrier shall authorize the sale and serving of alcoholic beverages aboard any licensed vehicle while moving through any county of the state; however, the sale of such alcoholic beverages shall not be permitted while such vehicle is stopped in a county that has not legalized such sales. The

annual fee for this license shall be \$1,000.00. Said on-premises retailer's license shall be obtained or renewed each year on or before the first day of October.

(e) A combination package and on-premises retailer's license shall authorize the holder to sell in the original and unbroken package or packages as well as alcoholic beverages for consumption on the licensed premises; provided, however, no package or packages which are in the original and unbroken package may be consumed on the premises. Any licensee under this section shall be subject to the provisions of Section 11(d) and Section 12 of this Act; provided, however, that such licensee shall be permitted to sell mixed drinks, malt or brewed beverages, or alcoholic beverages in containers of one-half pint or less, separate and apart from the package sales. The annual fee for this license shall be \$1,750.00. Said combination package and on-premises retailer's license shall be obtained or renewed each year on or before the first day of October.

(f) A solicitor's license shall authorize the holder thereof to act as salesman for a manufacturer or wholesaler holding a proper license, to solicit on behalf of his employer orders for alcoholic beverages and to otherwise promote his employer's products in a legitimate manner. Such a license shall authorize the representation of and employment by one principal only; however, the licensee may also, in the discretion of the board, be issued additional licenses to represent other principals. No such licensee shall buy or sell alcoholic beverages for his own account, and no such beverage shall be brought into this state in pursuance of the exercise of such license otherwise than through a license issued to a wholesaler or manufacturer in the state. The annual fee for this license shall be \$500.00. Said solicitor's license shall be obtained or renewed each year on or before the first day of October.

Section 13. It shall be unlawful for any package retailer, as herein defined, to allow or permit the breaking of said package or packages on the premises where sold or to allow or permit the drinking of the contents of said package or packages on the premises where sold and any violation thereof shall be a misdemeanor, and the offender thereof shall be guilty of a misdemeanor, and, upon conviction, be punished as for a misdemeanor.

Section 14. Nothing in this Act shall be construed as preventing any municipality or county from adopting all reasonable rules and regulations as may fall within the police powers of such municipalities or counties to regulate any business provided for in this Act. All municipal and county authorities issuing licenses shall within their respective jurisdiction have authority to determine the location of any distillery, wholesale business, or retail business licensed by them.

The state commissioner of revenue shall issue rules and regulations governing the issuance of retail permits for premises located near or around schools, colleges, universities, churches and other public institutions, and specifying the distances therefrom within which no such permit shall be issued. The sale or consumption of alcoholic beverages in or on the campus of any public school or college, or at any public athletic event at any grammar or high school or any college shall be prohibited. No authority shall be granted to any person to manufacture, sell or store for sale any intoxicating liquor as specified in this Act within four hundred feet of any church, school, kindergarten or funeral home. Provided, however, within an area zoned commercial or business such minimum distance shall be not less than one hundred feet.

Section 15. No license shall be granted by the commissioner of reve-

nue until the applicant has exhibited a license granted by the municipality, if the place of business to be conducted is within the corporate limits of a municipality, or by the governing authorities of the county where the place of business to be conducted is located, if such place of business is outside the corporate limits of a town or city, and the local authority issuing this license shall have full authority to pass on the character, reliability, and other qualities of fitness before issuing such license.

Section 16. All persons holding licenses under this Act shall display the same prominently at all times on the premises for which same was issued.

Section 17. It shall be unlawful for any manufacturer, wholesaler, or retail distributor, or any person to ship or transport by any means whatsoever any of the distilled spirits or alcohol into any county, in which county the manufacture, distribution, and sale of such distilled spirits or alcohol has not been authorized under the terms of this Act or its amendments; provided, however, nothing herein contained shall prevent any manufacturer or wholesaler or retail distributor from shipping or transporting such liquors through such counties or municipalities where the destination of such liquors is beyond the limits of such county.

Section 18. Any person guilty of violating the provisions of Section 17 shall be guilty of a misdemeanor, and upon conviction shall be punished as for a misdemeanor, and furthermore upon conviction shall have his license revoked by the commissioner of revenue and no other license shall be issued to such person, firm, or corporation within a period of 12 months from day same was revoked.

Section 19. It shall be unlawful for any person, firm, or corporation to sell, possess, conceal, store, or convey any vinous, malt, or spirituous liquors or beverages whereon any tax of license fee is imposed by this Act, and upon which such tax or license fee has not been paid; and any peace officer or agent of the state commissioner of revenue shall have the authority and it shall be his duty to declare contraband any distilled spirits or alcohol which does not bear the revenue stamps of the state, or that is found without such stamp whether for sale or otherwise, in any county, in the state where the sale of such distilled spirits and alcohol is not authorized under the terms of this Act or its amendments; all contraband liquors, distilled spirits or alcohol, seized as contraband, shall be immediately delivered to the state commissioner of revenue, or persons designated by the commissioner to receive the same, and by them either destroyed or sold at public sale, under such rules and regulations as the commissioner shall hereafter adopt, and the proceeds of such sale retained by the commissioner and paid over to the lawful authority to receive revenue from the sale of liquor; but nothing in this Act shall prohibit the other law enforcement agents and officers of this state from seizing and prosecuting persons illegally possessing or selling distilled spirits and alcohol in counties in the state where the sale of same has not been authorized by this Act or its amendments. The authority to seize as contraband distilled spirits and alcohol as set out herein shall extend to counties where the sale and possession of the same is made legal by this Act or any of its amendments where such liquors, distilled spirits, or alcohol are sold contrary to the provisions hereof or found in possession of any person, firm, or corporation, and not bearing the prescribed stamps showing taxes paid thereon in this state.

Section 20. The commissioner of revenue or his agents are also authorized, and it shall be their duty, to secure warrants or other form of

criminal process against all offenders in counties where the sale of distilled spirits and alcohol is not authorized under the terms of this Act, and in counties where the sale of distilled spirits and alcohol is authorized under the terms of this Act but where the same is being sold contrary to the provisions hereof, and the commissioner of revenue or his agents are authorized, and it shall be their duty, to prosecute such offenders.

Section 21. (a) Application for permits shall be in such form and shall contain such information as shall be required by the regulations of the department of revenue.

(b) Every applicant for each type of authorized permit shall give notice of such application by publication for three consecutive issues in a newspaper of general circulation published in the city or town in which applicant's place of business is located. However, in such instances where no newspaper is published in the city or town, then the same shall be published in a newspaper of general circulation published in the county where the applicant's business is located. If no newspaper is published in the county, the notice shall be published in a qualified newspaper which is published in the closest neighboring county and circulated in the county of applicant's residence. Such notice shall be printed in acceptable legal form setting forth the type of permit applied for, the exact location of the place of business, the name of the owner or owners thereof, and if operating under an assumed name, the trade name together with the names of all owners, and if a corporation, the names and titles of all officers. The cost of such notice shall be borne by the applicant.

Section 22. No permit of any type shall be issued by the department of revenue until the applicant has first filed with said department a sworn statement disclosing all persons who are financially involved in the operation of the business for which the permit is sought. If an applicant is an individual, he will swear that he owns one hundred percent (100%) of the business for which he is seeking a permit. If the applicant is a partnership, all partners and their addresses shall be disclosed and the extent of their interest in said partnership shall be disclosed. If the applicant is a corporation, the total stock in said corporation shall be disclosed and each shareholder and his address and the amount of stock in said corporation owned by him shall be disclosed. If the applicant is a trust, the trustee and all beneficiaries and their addresses shall be disclosed. If the applicant is a combination of any of the above, all information required to be disclosed above shall be required.

All such disclosures shall be in writing and kept on file in the department of revenue and shall be available to the public.

Every applicant must, when applying for a renewal of his permit, disclose any change in the ownership of said business or any change in the beneficiaries of the income from said business.

Any person who willfully fails to disclose the above required information or who gives false information shall be guilty of a misdemeanor and upon conviction thereof, shall be fined a sum not exceeding five hundred dollars (\$500.00) or imprisoned for not more than one year, or both, and said person or applicant shall never again be eligible for any permit pertaining to alcoholic beverages.

Section 23. Before a permit is issued the department of revenue shall satisfy itself: (a) That the applicant, if an individual, or if a partnership, each of the members of the partnership, or if a corporation, each of its prin-

principal officers and directors, is of good moral character and, in addition, enjoys a reputation of being a peaceable, law-abiding citizen of the community in which he resides, and is generally fit for the trust to be reposed in him, is a citizen of the United States and has been a resident of the State of Alabama for at least five years, is not less than nineteen years of age, and has not been convicted of a felony in any state or federal court. However, the five-year residence requirement shall not apply to on-premises applicants.

(b) That, except in the case of an application for a solicitor's permit, the applicant is the true and actual owner of the business for which the permit is desired, and that he intends to carry on the business authorized for himself and not as the agent for any other person, and that he intends to superintend in person the management of said business or that he will designate a manager to manage the business for him; any such manager must be approved by the department of revenue and must possess all of the qualifications required of a permittee.

(c) That an applicant for a package retailer's permit, if an individual, or if a partnership, each member of the partnership, or if a corporation, the designated manager is a resident of the State of Alabama and has been such a resident for five years prior to the filing of such application.

(d) That the place for which the permit is to be issued is an appropriate one considering the character of the premises and the surrounding neighborhood.

(e) That the place for which the permit is to be issued is within the corporate limits of an incorporated municipality or qualified resort area or club which comes within the provisions of this Act.

(f) That the applicant is not indebted to the state for any taxes, fees or payment of penalties imposed by any law of the State of Alabama or by any rule or regulation of the board.

(g) That the applicant is not in the habit of using alcoholic beverages to excess and is not physically or mentally incapacitated, and that the applicant has the ability to read and write the English language.

(h) That the department of revenue does not believe and has no reason to believe that the applicant will sell or knowingly permit any agent, servant or employee to unlawfully sell liquor in a dry area or in any other manner contrary to law.

(i) That the applicant is not residentially domiciled with any person whose permit or license has been cancelled for cause within the twelve months next preceding the date of the present application for a permit.

(j) That the department of revenue has not, in the exercise of its discretion which is reserved and preserved to it, refused to grant such permits under the restrictions of this section, as well as under any other pertinent provision of this Act.

(k) That there are not sufficient legal reasons to deny a permit on the ground that the premises for which the permit is sought has previously been operated, used or frequented for any purpose or in any manner that is lewd, immoral or offensive to public decency. In the granting or withholding of any permit to sell alcoholic beverages at retail, the department of revenue in forming its conclusions may give consideration to any recommendations made in writing by the district or county attorney or county, circuit or chancery judge of the county, or the sheriff of the county, or the mayor or chief of police of an incorporated city or town wherein the applicant pro-

poses to conduct his business and to any recommendations made by representatives of the board.

(1) That no criminal record of the applicant or any of the applicant's employees exists, and the department of revenue may therefore require that any applicant and employees of such applicant be photographed and fingerprinted for identification and shall check with the National Crime Information Center for the clearance of the applicant.

Section 24. All permits issued by the board shall expire twelve months from date of issuance, and no permit shall be issued for a period longer than one year. Each permit shall state a class to which it belongs, the name of the permittee, the address of the premises for which granted, and the date of its expiration. All permits issued shall at all times be prominently displayed on the premises for which issued.

Section 25. Any permittee may renew his permit at the expiration thereof for an additional term of one year, provided he is then qualified to receive a permit and the premises for which the renewal is sought are suitable for such purposes. The renewal privilege herein provided for shall not be construed as a vested right.

Section 26. In any county having heretofore voted, or which hereafter votes, to come out from under the prohibition law, in which there is not located an incorporated municipality within such county, the department of revenue may issue permits and licenses to: Manufacturers, wholesalers, package or on-premises retailers, combination package and on-premises retailers, and solicitors.

Section 27. No permit shall be transferred by the permittee to any other person or any other place except with the written consent of the department of revenue upon a regular application therefor in writing and upon consideration thereof as provided in this Act for an original application for a permit. The department of revenue shall not approve the transfer of the permit of any person against whom there is pending in the courts or before the board any charge of keeping a disorderly house, or of violating this Act or the laws against gambling in this state or against whom there is pending any proceedings for the revocation, suspension or cancellation of the permit.

Section 28. No person holding any permit issued under the provisions of this Act shall engage in any business or activity authorized by such permit unless such person shall qualify to do so by complying with all statutes of the United States of America, and all regulations issued pursuant thereto, which are applicable or shall pertain to such business or activity, and shall continue to be so qualified at all times while engaging in such business or activity. As a prerequisite to the issuance of any permit under this Act, the applicant shall first obtain the required federal occupational stamp for the type of business for which the permit has been approved by the department of revenue.

Section 29. The department of revenue may revoke or suspend any permit issued by it for a violation by the permittee of any of the provisions of this Act or of the regulations promulgated under it by the commissioner of revenue.

Permits must be revoked or suspended for the following causes: (a) Conviction of the permittee for the violation of any of the provisions of this Act;

(b) Willful failure or refusal by any permittee to comply with any of the provisions of this Act or of any rule or regulation adopted pursuant thereto;

(c) The making of any materially false statement in any application for a permit;

(d) Two or more convictions of one or more of the clerks, agents or employees of the permittee, of any violation of this chapter upon the premises covered by such permit within a period of two years;

(e) The possession on the premises of any retail permittee of any alcoholic beverages upon which the tax has not been paid;

(f) The willful failure of any permittee to keep records or make the reports required by this Act, or to allow an inspection of such records by any duly authorized person;

(g) The suspension or revocation of a permit issued to the permittee by the federal government, or conviction of violating any federal law relating to alcoholic beverages;

(h) The failure to furnish any bond required by this Act within fifteen days after notice from the department of revenue; and

(i) The conducting of any form of gambling on the premises of any permittee or on any premises connected therewith or the presence on any such premises of any gambling device with the knowledge of the permittee.

No permit shall be revoked except after a hearing by the department of revenue with reasonable notice to the permittee and an opportunity for him to appear and defend.

Section 30. Every manufacturer, within or without the state, and every other shipper of alcoholic beverages who sells any alcoholic beverage within the state, shall, at the time of making such sale, file with the department of revenue a copy of the invoice of such sale showing in detail the kind of alcoholic beverage sold, the quantities of each, the size of the container and the weight of the contents, the alcoholic content, and the name and address of the person to whom sold.

Every person transporting alcoholic beverages within this state to a point within this state, whether such transportation originates within or without this state, shall, within five days after delivery of such shipment, furnish the department of revenue a copy of the bill of lading or receipt, showing the name of the consignor or consignee, date, place received, destination, and quantity of alcoholic beverages delivered. Upon failure to comply with the provisions of this section, such person shall, upon conviction, be punished by a fine of not more than five thousand dollars (\$5,000.00) or by imprisonment for not more than two years, or by both such fine and imprisonment, in the discretion of the court.

Section 31. It shall be unlawful for the holder of a manufacturer's or wholesaler's permit, or anyone connected with the business of such holder, or for any other distiller, wine manufacturer, brewer, rectifier, blender, or bottler, to have any financial interest in any premises upon which any alcoholic beverage is sold at retail by any permittee, or in the business conducted by such permittee. It shall also be unlawful for any such person, or anyone connected with his, its, or their business to lend any money or make any gift or offer any gratuity, to any retail permittee, or to furnish any sign, display, advertising specialty, or other form of advertisement except as authorized by regulations of the board, to the holder of any retail permit is-

sued under the provisions of this Act. Except as above provided, no retail permittee shall accept, receive, or make use of any money, gift, sign or display furnished by any such person, or become indebted to such person except for the purchase of alcoholic beverages. Any person violating the provisions of this section shall, upon conviction, be punished by a fine of not more than five thousand dollars (\$5,000.00) or by imprisonment for not more than two years, or by both such fine and imprisonment, in the discretion of the court.

Section 32. No alcoholic beverage shall be sold by any wholesaler to any retailer, nor shall any retailer purchase any alcoholic beverage, except for cash. Each delivery of any alcoholic beverage to a retail permittee shall be accompanied by an invoice of sale or delivery slip which shall bear as its date the date of delivery of such alcoholic beverage.

Section 33. Any permittee or other person who shall sell, furnish, dispose of, give, or cause to be sold, furnished, disposed of, or given, any alcoholic beverage to any person under the age of nineteen years shall be guilty of a misdemeanor and shall be punished by a fine of not less than five hundred dollars (\$500.00) nor more than one thousand dollars (\$1,000.00) for a first offense. For a second or subsequent offense, such permittee or other person shall be punished by a fine of not less than one thousand dollars (\$1,000.00) nor more than two thousand dollars (\$2,000.00), or by imprisonment for not more than one year, or by both such fine and imprisonment in the discretion of the court. Upon conviction of a second offense under the provisions of this section the permit of any permittee so convicted shall be automatically and permanently revoked.

Any person under the age of nineteen years who purchases, receives, or has in his or her possession in any public place, any alcoholic beverages, shall be guilty of a misdemeanor and shall be punished by a fine of not more than one hundred dollars (\$100.00). Any person under said age who knowingly makes a false statement to the effect that he or she is nineteen years old or older to any person engaged in the sale of alcoholic beverages for the purpose of obtaining the same shall be guilty of a misdemeanor and shall be punished by a fine of not more than two hundred dollars (\$200.00), and on failure to pay such fine and all costs shall be imprisoned for not less than two nor more than thirty days in the county jail.

Section 34. (a) It shall be unlawful for any permittee or other person to sell or furnish any alcoholic beverage to any person who is known to be insane or mentally defective, or to any person who is visibly intoxicated, or to any person who is known to habitually drink alcoholic beverages to excess, or to any person who is known to be an habitual user of narcotics or other habit-forming drugs. It shall also be unlawful for the holder of any package retailer's permit to sell any alcoholic beverages except by delivery in person to the purchaser at the place of business of the permittee.

(b) It shall be unlawful for any permittee or other person to sell or furnish any alcoholic beverage to any person to whom the commissioner of revenue has, after investigation, decided to prohibit the sale of such beverages because of an appeal to the commissioner of revenue so to do by the husband, wife, father, mother, brother, sister, child or employer of such person. The interdiction in such cases shall last until removed by the commissioner of revenue, but no person shall be held to have violated this subsection unless he has been informed by the department of revenue, by registered letter, that it is forbidden to sell to such individual or unless such fact is otherwise known to such permittee or other person.

(c) It shall be unlawful for any holder of a package retailer's license engaged solely in the business of package retail sales under this Act to sell any alcoholic beverage before 10:00 a.m., and after midnight. It shall also be unlawful for said holder to sell alcoholic beverages on Sundays. The holder of an on-premises license located in private clubs, hotels or designated tourist attractions may sell any alcoholic beverages as now provided by law, except that on Sunday the sale of such beverage is prohibited between the hours of 3:00 a.m. and 12:00 Noon. The holder of any combination license shall have the option to sell any alcoholic beverages for the period of longest duration. No licensee shall be permitted to sell any alcoholic beverages on election day during the hours the polls are open.

(d) Any person who shall violate any of the provisions of this section shall be guilty of a misdemeanor and, upon conviction, shall be punished by a fine of not more than five hundred dollars (\$500.00) or by imprisonment in the county jail for a term of not more than six months or by both such fine and imprisonment, in the discretion of the court. In addition, the department of revenue shall forthwith revoke the permit of any permittee who violates the provisions of this section.

Section 35. The commissioner of revenue shall have the power and authority to adopt and enforce reasonable rules and regulations relating to the advertising and display of alcoholic beverages.

It shall be unlawful to advertise alcoholic beverages by means of signs, billboards, or displays on or along any road, highway, street, or building.

This section shall not be construed so as to prohibit the department of revenue from promulgating rules and regulations permitting the holder of an on-premises retailer's permit to include in signs located on the holder's premises and in advertisements of the holder's principal business, the word "lounge" or other similar words descriptive of the facilities available at such principal place of business, without referring specifically to alcoholic beverages.

Section 36. Any person convicted of a violation of any of the provisions of this Act for which no other penalty is specifically provided herein, shall be guilty of a misdemeanor and shall be punished by a fine of not more than one thousand dollars (\$1,000.00), or by imprisonment for not more than six months, or by both such fine and imprisonment.

Section 37. In addition to any other rights and remedies which it may have, the department of revenue, in the name of the commissioner of revenue, shall have the right to resort to and apply for injunctive relief, both temporary and permanent, in any court of competent jurisdiction to enforce compliance with the provisions of this Act and to restrain and prevent violations and threatened violations thereof. The attorney general, district attorneys and county attorneys of this state, shall aid and assist the board in all such actions when requested by the commissioner of revenue to do so.

Section 38. (a) It is hereby made the duty of every police and peace officer and every district and county attorney and the department of revenue to enforce the provisions of this Act and to inform against and diligently prosecute persons whom they have reasonable cause to believe to be offenders against the provisions thereof. Every such officer refusing or neglecting to do so shall be guilty of a misdemeanor, and the court, in addition to imposing the penalty therefor, shall adjudge forfeiture of his office.

(b) In any county where it is readily apparent that local law enforcement authorities in cooperation with the agents and inspectors provided by

the department of revenue cannot control the illegal sale of alcoholic beverages, the commissioner of revenue shall request such assistance as he may deem necessary from the Alabama department of public safety and it shall be the duty of the Governor of the State of Alabama to see that the laws of the state are properly enforced by use of the additional authority as herein provided.

(c) The officers, agents, and representatives of the department of revenue are authorized and directed to strictly enforce the prohibition laws throughout the state, except in those counties which have voted for the legalized sale of intoxicating liquor. The state highway patrol, sheriffs, police departments, and all persons charged with upholding the law, as well as the citizenry of this state, are hereby urged and directed to uphold the dignity of the law, to foster public respect therefor and to strictly enforce the laws against intoxicating liquor in all cases while operating a motor vehicle on the streets and highways of this state, and to enforce the law and prosecute against the wrongful use of intoxicating liquor in any county by a permit holder or licensee or anyone else under such circumstances and conditions as would lead to a breakdown in public law or its violative of the public sense of common decency, as well as to enforce the law against gambling, organized crime, or social vice and corruption.

(d) The commissioner of revenue is hereby authorized to call upon other administrative departments of the state, county and municipal governments, county and city police departments, or other law enforcement officers, and upon prosecuting officers for such information and assistance as it may deem necessary in the performance of his duties.

Section 39. Any and all taxes now levied and collected on alcoholic beverages sold through the existing facilities of the Alabama Alcoholic Beverage Control Board shall be levied and collected on all alcoholic beverages sold under the provisions of this Act, and such taxes shall be distributed, on a pro rata basis, as provided by existing law prior to the enactment of this Act. All license fees payable to the State under the provisions of this Act shall be prorated and distributed under the same formula and on the same basis as taxes are distributed by existing law prior to the enactment of this Act. In addition to all other taxes, licenses and permit fees now levied and collected on alcoholic beverages sold in this state, there shall be an additional three percent (3%) tax levied and collected. The commissioner of revenue shall have the authority to issue and promulgate any rules, regulations, directives, or policies necessary to enforce the provisions of this section.

Section 40. Nothing in this Act shall be construed as giving any person a right to sell spirituous liquors as herein defined, but the manufacture, sale and distribution of spirituous liquors is declared to be a privilege in this state and not a right.

Section 41. The provisions of this Act shall not apply to ethyl alcohol intended for use or used for the following purposes:

(a) For scientific, chemical, mechanical, industrial, medicinal and culinary purposes.

(b) For use by those authorized to procure the same tax free, as provided by the acts of congress and regulations promulgated thereunder.

(c) In the manufacture of denatured alcohol produced and used as provided by the acts of congress and regulations promulgated thereunder.

(d) In the manufacture of patented, patent, proprietary, medicinal,

pharmaceutical, antiseptic, toilet, scientific, chemical, mechanical and industrial preparations or products, unfit for beverage purposes.

(e) In the manufacture of flavoring extracts and syrups, unfit for beverage purposes.

Section 42. No applicant shall be denied a permit or license pursuant to this Act solely because of race, color, creed, national origin, sex or age. No permittee or licensee shall deny employment to anyone solely because of race, color, creed, national origin, sex or age.

Section 43. The provisions of this Act are supplemental. It shall be construed in pari materia with other laws regulating the sale of alcoholic beverages as providing penalties, fines or imprisonment for violating alcoholic beverage control laws; however, those laws or parts of laws which are in direct conflict or inconsistent herewith are hereby repealed.

Section 44. The provisions of this Act are severable. If any part of the Act is declared invalid or unconstitutional, such declaration shall not affect the part which remains.

Section 45. This Act shall become effective January 1, 1985, except as otherwise herein provided.

H. J. R. 132. URGING THE GOVERNOR TO REESTABLISH THE GOVERNOR'S TASK FORCE ON ECONOMIC RECOVERY.

WHEREAS, the taxpayers of the State of Alabama have a right to know their taxes are being wisely spent; and

WHEREAS, the taxpayers of the State of Alabama are being asked to contribute additional taxes to the State; and

WHEREAS, it is in the interest of the Government of the State of Alabama to ensure that the taxpayers' money is wisely spent; and

WHEREAS, it is in the interest of the Government of the State of Alabama to assure its taxpayers of State Government efficiency; and

WHEREAS, the Governor's Task Force on Economic Recovery expressed the unanimous judgment that the people of Alabama will not, and should not, support any new tax proposals until they are assured that both existing and proposed tax revenues are being wisely spent; and

WHEREAS, the Governor's Task Force on Economic Recovery has recommended the establishment of a committee comparable to that chaired at the Federal level by Peter Grace; and

WHEREAS, the members of the Executive Committee of the Task Force have volunteered to serve on such a committee; now therefore

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That, Governor George C. Wallace reassemble the Governor's Task Force on Economic Recovery for the purpose of examining how the State of Alabama is spending its taxpayers' money.

BE IT FURTHER RESOLVED, That the Task Force deliver its report to the Constitutional Officers of the State of Alabama and the members of the Alabama Legislature not later than August 3, 1984.

On motion of Rep. Poole, the rules were suspended and the resolution, H. J. R. 132, was adopted.

Also:

By Rep. Bowling:

H. J. R. 133. DIRECTING THAT THE STATE ATHLETIC ASSOCIATION SHALL PRESCRIBE GUIDELINES FOR PUBLIC HIGH SCHOOL ATHLETES AND ATHLETIC DIRECTORS FOR TRAINING DURING CERTAIN SEASONS.

WHEREAS, the Alabama Legislature notes that many student-athletes suffer severe injuries and illnesses, and, in some cases, even death due to problems encountered by public high school athletes in rigorous training during certain seasons of high humidity and high temperatures; and

WHEREAS, the Alabama Legislature declares that all actions should be taken by appropriate authorities to minimize illnesses, injuries and loss of life of our young athletes in public high school due to weather conditions while in training; now therefore,

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That we do hereby direct that:

The State Athletic Association, at the regularly scheduled board meeting next following the effective date of this act, shall adopt for circulation among the athletic departments of the public high schools of this state certain rules to alleviate fluid and heat problems encountered by high school athletes using the following criteria as guidelines for such rules:

1. Two-a-day practices should be scheduled early in the morning and late in the afternoon. On extremely hot days with high humidity, practice time should be modified.

2. Each player should be weighed before and after practice and a record kept of these weights, realizing that each 2 to 2 ½ pounds of weight loss represents approximately one quart of fluid loss and that the player should regain the weight lost during practice within twenty-four hours. Players with excessive loss should be watched closely and that player's practice modified.

3. There should be three to four ten-minute breaks during each practice session, during which fluid should be replaced. There should be a minimum of 20 ounces of fluid per break. Ice should be in the fluids. Head gear

should be removed, and if shade is available, it should be used. The squirt bottle should not be used to replace fluids.

4. Coaches should be taught to recognize early heat fatigue and heat exhaustion so that heat stroke can be avoided. There should be no conditioning nor disciplinary drills after practice that are not under close supervision.

BE IT FURTHER RESOLVED, That when such rules have been adopted, as herein provided, they shall be immediately distributed to such schools through the Alabama High School Athletic Association.

RESOLVED FURTHER, That copies of this Resolution shall be sent to each member of the State Athletic Association and the Department of Education.

On motion of Rep. Bowling, the rules were suspended and the resolution, H. J. R. 133, was adopted.

WHEREAS, the University of South Alabama Medical School has pledged its complete cooperation in this project; and

WHEREAS, this existing modern facility can be acquired for less than one-third the cost of new construction thereby being cost effective; and

WHEREAS, not only would this very worthwhile project enhance the care of our war veterans, but would also add a significant boost to the economy of the Mobile area; now therefore,

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE LEGISLATURE OF ALABAMA, That we wholeheartedly endorse the acquisition of Providence Hospital for a Veterans Administration Medical Center and further pledge our support in the establishment of this Veterans Administration Medical Center in Mobile.

To amend Section 16-8-26, Code of Alabama, 1975, which provides for personal leave for teachers, so as to provide further for said leave, and to provide for creditable service for purposes of service retirement for unused accrued sick leave.

Be It Enacted by the Legislature of Alabama:

Section 1. Section 16-8-26, Code of Alabama, 1975, is hereby amended to read as follows:

"Section 16-8-26.

"Any county or city board of education may-at-its-discretion, shall be authorized to grant to any teacher within its school system personal leave of up to five days annually noncumulative, during the time schools are in session. The board shall enact policies providing for uniform administration of personal leave, and shall determine whether the leave is to be with part pay, full pay or without pay, except that any approved leave for which the state education budget includes funding shall be with pay. It is further provided that personal leave shall be reimbursed to the teacher at the end of the school year at the same daily rate as is paid to substitute teachers for each day of personal leave not taken by a teacher. The number of unused personal leave days subject to reimbursement shall be limited to the number of personal leave days for which funding is provided in the annual Special Educational Trust Fund budget. Personal leave funds provided by the state shall be distributed to local boards of education by the state superintendent of education according to a plan developed by him."

Section 2. Teachers, as defined in § 16-25-1(3) or § 16-25-5(d), Code of Alabama, 1975, as amended may use their accrued sick leave, up to a maximum number of accrued sick leave days allowed by law, to be included as membership service in determining the total years of creditable service in the Teachers' Retirement System of Alabama; provided, any teacher not authorized by law to receive sick leave may use any accrued sick leave provided by his or her employer, provided, that employer is lawfully empowered to grant such leave, which cannot be without pay; and provided further that the amount of such accrued leave shall not exceed the maximum number of accrued sick leave days allowed by law for a classroom teacher employed by a city or county board of education. Unused sick leave may be converted to membership service only for the purpose of applying for service retirement. Said conversion shall not apply to eligibility for deferred retirement; provided that a person eligible for service retirement, if also eligible for disability retirement, may elect disability retirement and also receive credit for accumulated sick leave pursuant to this section. This section shall not be applicable to any person who is eligible to receive partial payment for accrued sick leave pursuant to § 36-26-36; supra.

Section 3. All laws or parts of laws which conflict with this Act are hereby repealed.

Section 4. The provisions of this Act are severable. If any part of this Act is declared invalid or unconstitutional, such declaration shall not affect the part which remains.

Section 5. Except for Section 1, the provisions of this Act shall become effective immediately upon its passage and approval by the Governor, or upon its otherwise becoming a law. The provisions of Section 1 of this Act shall be effective with the beginning of the fiscal year ending September

Section 2. Authority and Procedure to Incorporate. Pursuant to the provisions of this Act, Authorities may be organized as public corporations with the powers herein set forth. If each governing body with which the application is filed shall adopt a resolution (which need not be published or posted) approving the form of such certificate of incorporation and authorizing the formation of such a public corporation, then said applicants shall become the incorporators of and shall proceed to incorporate an Authority as a public corporation in the manner hereinafter provided, using for that purpose the form of certificate of incorporation so approved.

Section 3. Contents of Certificate of Incorporation. The certificate of incorporation of an Authority shall state: (a) the names of the incorporators together with the residence of each thereof, and a statement that each of them is a duly qualified elector of and owner of property in the State; (b) the name of the Authority (which name shall include the words "Railroad Authority"); (c) the period for the duration of the Authority (If the duration is to be perpetual that fact shall be so stated); (d) the name of each Authorizing Subdivision, together with the date on which the governing body thereof adopted a resolution authorizing the incorporation of the Authority; (e) the proposed location of the principal office of the Authority, which shall be in this State; (f) the number of directors which shall be not less than three, the duration of their respective terms of office (which shall not be in excess of five years), and, subject to the provisions of Section 5 hereof, the manner of their election or appointment; and (g) any other matters relating to the Authority that the incorporators may choose to insert and that is not inconsistent with this Act or with other laws of the State.

Section 4. Execution and Recording of Certificate of Incorporation. The certificate of incorporation of an Authority shall be signed and acknowledged by the aforesaid incorporators before an officer authorized by the laws of the State to take acknowledgements to deeds and shall have attached thereto a certified copy of each of the resolutions provided for in Section 2 hereof and a certificate by the Secretary of State that the name proposed for the Authority is not identical to that of any other corporation organized under the laws of the State or so nearly similar thereto as to lead

to confusion and uncertainty. The certificate of incorporation of an Authority, together with the documents required by the preceding sentence to be attached thereto shall be filed for record in the office of the Judge of Probate of the county in which the principal office of the Authority shall be located. The Judge of Probate shall forthwith receive and record the same. When such a certificate of incorporation and attached documents have been so filed, the Authority referred to therein shall come into existence and shall constitute a public corporation under the name set forth in such certificate of incorporation, whereupon the Authority shall be vested with the rights and powers herein granted.

Section 5. Board of Directors of the Authority. Each Authority shall be governed by a board of directors composed of the number of Directors provided in its certificate of incorporation, all whom shall be selected in accordance with the provisions of this section. If there is to be only one Authorizing Subdivision (whether a county, city or town), the governing body of the Authorizing Subdivision shall elect all the Directors. If there is to be more than one Authorizing Subdivision, the respective governing bodies of the Authorizing Subdivisions shall each elect the same number of Directors; and one additional Director shall be elected jointly by the governing bodies of all the Authorizing Subdivisions. Each Director shall be a resident of the Authorizing Subdivision by whose governing body he was elected, except that the said additional Director need only be a resident of the county in which is located the principal office of the Authority, as specified in its certificate of incorporation. In the event of a vacancy which continues for more than thirty (30) days in the office of the said additional Director, then and in such event the Governor of Alabama shall, upon the request of the governing body of any Authority Subdivision, appoint the said additional Director. No officer of the State or any county, city or town therein shall, while holding such office, be eligible to serve as a Director. If any Director resigns, dies or becomes incapable or ineligible to act as a director, a successor to serve the unexpired portion of this term shall be elected in the manner prescribed hereinabove by the governing body of the Authorizing Subdivision which elected the Director whose unexpired term he is filling or, in the case of the said additional Director, by all such governing bodies. Failing such election for a period of more than thirty (30) days, such successor shall, upon the request of the governing body of any Authorizing Subdivision, be appointed by the Governor of the State. Directors shall be eligible for re-election.

A majority of the Directors shall constitute a quorum for the transaction of business but any meeting of the Board may be adjourned from time to time by a majority of the Directors present or may be so adjourned by a single Director if such Director is the only Director present at such meeting. No vacancy in the membership of the Board shall impair the right of a quorum to exercise all the powers and duties of the Authority. The Board shall hold regular meetings on the second Tuesday in each month and at such other times as may be provided in the bylaws of the Authority; and the Board may hold other meetings at anytime and from time to time, provided that upon call of the chairman of the Authority or any two Directors, a special meeting of the Board must be held. Any matter on which the Board is authorized to act may be acted upon at any regular, special or called meeting. At the request of any Director, the vote on any question before the Board shall be taken by yeas and nays and entered upon the record. All proceedings of the Board shall be reduced to writing by the secretary of the Authority, recorded in a well bound book and open to each Director and to the public at all reasonable times. Copies of such proceedings, when certi-

fied by the secretary of the Authority under its seal, shall be received in all courts as evidence of the matters and things therein certified.

Directors shall receive no compensation for their services as directors; however, each Director may be reimbursed for expenses actually incurred by him in and about the performance of his duties. Any Director may be impeached and removed from office in the same manner and on the same grounds provided by Section 175 of the Constitution of Alabama and the general laws of the State for impeachment and removal of the officers mentioned in said Section 175.

Section 6. Officers of the Authority. The officers of the Authority shall consist of a chairman, a vice-chairman, a secretary, a treasurer and such other officers as the Board shall deem necessary to accomplish the purposes for which the Authority was organized. The chairman, vice-chairman and secretary of the Authority shall be elected by the Board from its membership but neither the treasurer nor any of the other officers of the Authority need be a member of the Board. Subject to the provisions of the immediately preceding sentence, the offices of secretary and treasurer may, but need not be, held by the same person. The chairman, vice-chairman and secretary of the Authority shall be elected by the Board for a term of one year, and the treasurer and the other officers of the Authority shall be elected by the Board for such term as it deems advisable. The duties of the chairman, vice-chairman, secretary and treasurer shall be such as are customarily performed by such officers and as may be prescribed by the Board. The duties of any other officer of the Authority shall be such as are from time to time prescribed by the Board.

Section 7. Powers of the Authority—In General. Each Authority shall have the following powers, together with all powers incidental thereto or necessary to the discharge thereof incorporate form:

(16) to exercise the power of eminent domain in the manner and subject to the provisions of Title 18 of the Code of Alabama of 1975, as amended, with respect to any property, real, personal or mixed, whether in one or more counties and whether within or without the boundaries or corporate limits (as the case may be) of any Authorizing Subdivision; provided, that the Authority may not acquire by eminent domain any real property or rights owned or held by Railroads, transportation companies or utilities, either public or private;

(17) to appoint, employ, contract with and provide for compensation of such officers, employees and agents, including engineers, attorneys, consultants, fiscal advisers and such other employees as the business of the Authority may require, including the power to fix working conditions by gen-

Bonds of the Authority may be issued by any time and from time to time, may be in such form, either in bearer form with appurtenant Coupons (and subject to registration as to principal or interest, or both, all as the Board may determine) or in fully registered form without Coupons, and in such denominations, may be of such tenor, may be payable in such installments and at such time or times not exceeding forty years from their date, may be payable at such place or places whether within or without the State, may bear interest at such rate or rates (which may be fixed or which may float or vary based on some index or other standard deemed appropriate by the Board), and shall be payable and evidenced in such manner, all as shall not be inconsistent with the provisions of this Act and as may be provided in the proceedings of the board wherein the Bonds shall be authorized to be issued. Any Bond having a stated maturity more than ten years after its date shall be made subject to redemption at the option of the Authority not later than the expiration of ten years from its date and on any interest payment date thereafter at such price or prices and after such notice or notices and on such terms and in such manner as may be provided in the proceedings of the Board wherein it is authorized to be issued. Bonds of the Authority may be sold at public or private sale in such manner and from time to time as may be determined by the Board. The Authority may pay all reasonable expenses, premiums, fees and commissions that the Board may deem necessary or advantageous in connection with the authorization, sale and issuance of its Bonds. All Bonds shall contain a recital that they are issued pursuant to the provisions of this Act, which recital shall be conclusive that they have been duly authorized pursuant to the provisions of this Act. Neither a public hearing nor the consent of any agency of the State or any subdivision thereof shall be prerequisite to the issuance of Bonds by any Authority. Notwithstanding the fact that they are payable solely from a specified source, all Bonds issued under the provisions of this Act shall be deemed negotiable instruments within the meaning of the nego-

tiable instruments law of the State if they otherwise possess all the characteristics of negotiable instruments under the laws of the State.

Section 12. Execution of Bonds. All Bonds shall be signed by the chairman or vice-chairman and the secretary or treasurer of the Authority and the seal of the Authority shall be affixed thereto. A facsimile of the signature of one, but not both, of the officers whose signatures will appear on the Bonds may be imprinted or otherwise reproduced thereon in lieu of his manually signing the same; provided, however, that a facsimile of the signature of both such officers may be imprinted or reproduced on such Bonds if such Bonds are required to be authenticated by the manual signature of the duly designated registrar of such Bonds, or an authorized officer of such registrar; and provided further, that a facsimile of the seal of the Authority may be imprinted or otherwise reproduced on the Bonds in lieu of being manually affixed thereto. Coupons shall be signed by the chairman or vice-chairman and the secretary or treasurer of the Authority, but a facsimile of the signature of such chairman or vice-chairman and such secretary or treasurer may be impressed or otherwise reproduced on any such Coupons in lieu of their manually signing the same. Delivery of Bonds so executed shall be valid notwithstanding any changes in officers or in the seal of the Authority after the signing and sealing of the Bonds.

Section 13. Security for Bonds. In the discretion of the Authority any Bonds may be issued under and secured by an Indenture between the Authority and a trustee. Said trustee may be a private person or corporation, including (but not limited to) any trust company or bank having trust powers, whether such bank or trust company is located within or without the State. In any such Indenture or resolution providing for the issuance of Bonds, the Authority may pledge, for payment of the principal of and the interest on such Bonds, any of its revenues to which its right then exists or may thereafter come into existence and may assign, as security for such payment, any if its leases, franchises, permits and contracts; and in any such Indenture, the Authority may mortgage any of its properties, including any that may be thereafter acquired by it. Any such pledge of revenues shall be valid and binding from the time it is made, and the revenues so pledged and thereafter received by the Authority shall immediately become subject to the lien of such pledge without any physical delivery thereof or further act. The lien of such pledge shall be valid and binding against all parties having claims of any kind in tort, contract or otherwise against the Authority, irrespective of whether the parties have actual notice thereof, from the time a statement is filed in the office of the Judge of Probate of the county in which is located the principal office of the Authority (as specified in its certificate of incorporation) and any other county in which any part of the property, the revenues from which are so pledged, is located. Such notice need state only the date on which the resolution authorizing the issuance of the Bonds was adopted by the Board, the principal amount of Bonds issued, a brief description of the revenues so pledged and a brief description of any property the revenues from which are so pledged.

In any Indenture or resolution authorizing the issuance of Bonds and pledging for the benefit thereof revenues from any of its Railroad Properties and Facilities, the Authority shall have the power to include provisions customarily contained in instruments securing evidence of indebtedness, including, without limiting the generality of the foregoing, provisions respecting the collection, segregation and application of any rental or other revenue due to or to become due to the Authority, the terms to be incorporated in any lease agreement respecting any property of the Authority, the maintenance and insurance of any building or structure owned by the Authority,

the creation and maintenance of special funds from any revenue of the Authority and the rights and remedies available in the event of default to the holders of the Bonds or the trustee under the Indenture, all as the Board shall deem advisable and as shall not be in conflict with the provisions of this Act. If there be any default by the Authority in payment of the principal of or the interest on the Bonds or in any of the agreements on the part of the Authority that may properly be included in any Indenture securing the Bonds, any holder of Bonds or Coupons, or the trustee under any Indenture if so authorized in such Indenture, may (in addition to any other remedies herein provided or otherwise available) either at law or in equity, by suit, action, mandamus or other proceedings, enforce payment or such principal or interest and compel performance of all duties of the Board and officers of the Authority, and shall be entitled as a matter of right, and regardless of the sufficiency of any such security, to the appointment of a receiver in equity with all the powers of such receiver for the operation and maintenance of the property of the Authority covered by such Indenture and the collection, segregation and application of revenues therefrom. The Indenture may also contain provisions restricting the individual right of action of the holders of the Bonds and Coupons.

Section 14. Use of Proceeds from Sale of Bonds. The proceeds derived from the sale of any Bonds (other than refunding Bonds) may be used only to pay the costs of acquiring, constructing, improving, enlarging and equipping the Railroad Properties and Facilities, or other property with respect to which they were issued, as may be specified in the proceedings in which the Bonds are authorized to be issued. Such costs shall be deemed to include the following: the costs of any land or easements forming a part of such Railroad Properties and Facilities or other property; the cost of labor, material and supplies used in any such construction, improvement or enlargement, including architects' and engineers' fees, and the cost of preparing contract documents and advertising for bids; the purchase price of, and the cost of installing equipment for use in connection with, such Railroad Properties and Facilities or other property; the cost of constructing and installing roads, sidewalks, curbs, gutters, utilities, and parking places in connection with such Railroad Properties and Facilities or other property; the amounts of any debt service, maintenance and capital improvement and other similar reserves deemed advisable; legal, fiscal and recording fees and expenses incurred in connection with the authorization, sale and issuance of the Bonds issued in connection with such Railroad Properties and Facilities or other property; and interest on said Bonds for a reasonable period prior to and during the time required for such construction, improvement, enlargement and equipment and for not exceeding eighteen months after completion thereof. If any of the proceeds derived from the sale of said Bonds remains undisbursed after completion of such work and payment of all of the said costs and expenses, such balance shall be used for retirement of the principal of or the interest on the Bonds of the same issue.

Section 15. Refunding Bonds. An Authority may at any time and from time to time issue refunding Bonds for the purpose of refunding the principal of and the interest on any Bonds of the Authority theretofore issued hereunder and then outstanding, whether or not such principal and interest shall have matured at the time of such refunding, and for the payment of any expenses incurred in connection with such refunding and any premium necessary to be paid in order to redeem, retire or purchase for retirement the Bonds to be refunded. The proceeds derived from the sale of any refunding Bonds shall be used only for the purposes for which the refunding Bonds were authorized to be issued. Any such refunding may be effected

either by sale of the refunding Bonds and the application of the proceeds thereof, or by exchange of the refunding Bonds for the Bonds or Coupons to be refunded thereby; provided that the holders of any Bonds or Coupons so to be refunded shall not be compelled without their consent to surrender their Bonds or Coupons for payment or exchange prior to the date on which they may be paid or redeemed by call of the Authority under their respective provisions. All provisions of this Act pertaining to Bonds of an Authority that are not inconsistent with the provisions of this section shall, to the extent applicable, also apply to refunding bonds issued by an Authority. An Authority may at any time and from time to time issue Bonds for the purpose of so refunding the principal of and the interest on any of its Bonds and for any other purpose for which it is authorized to issue Bonds, in which event the provisions hereof respecting refunding Bonds shall apply only to that portion of such combined issue authorized for refunding purposes and the provisions hereof respecting other financing shall apply to the remaining portion of such combined issue.

Section 16. Exemption from Taxation. The Bonds issued by an Authority and the income therefrom shall be exempt from all taxation in the State. All property and income of an Authority shall be exempt from all State, county, municipal and other local taxation; provided, however, that this exemption shall not be construed to exempt concessionaires, licensees, tenants, operators or lessees of the Authority from the payment of any taxes, including licenses or privilege taxes levied by the State, any county or any municipality in the State; and provided further, that the property of an Authority shall be subject to State property taxation beginning in the tax year which begins next after the expiration of three years from the incorporation of the Authority.

Section 17. Investment of County and Municipal Funds in Bonds of the Authority. The governing body of any county, city or town within this State is authorized in its discretion to invest in Bonds of the Authority any idle or surplus money held in its treasury.

Section 18. Eligibility of Bonds as Investments for Trust Funds. Bonds issued under the provisions of this Act are hereby made legal investments for executors, administrators, trustees and other fiduciaries, unless otherwise directed by the court having jurisdiction of the fiduciary relation or by the document that is the source of the fiduciary's authority. Such Bonds shall be legal investments for savings banks and insurance companies organized under the laws of the State.

Section 19. Notice of Bond Resolution. Upon the adoption by the Board of any resolution providing for the issuance of Bonds, the Authority may in its discretion cause to be published once a week for two consecutive weeks, in a newspaper that is customarily published in this State not less than five days in each calendar week and distributed in the county in which is located the principal office of the Authority, a notice in substantially the following form (the blanks being properly filled in) at the end of which there shall be printed the name and title of either the chairman or secretary of the Authority:

“ _____, a public corporation of the State of Alabama, on the _____ day of _____, authorized the issuance of \$ _____ principal amount of revenue bonds of the said corporation for purposes authorized in the act of the Legislature of Alabama under which the said corporation was organized. Any action or proceeding questioning the validity of the said bonds, or the pledge and any instruments securing

such bonds, or the proceedings authorizing the same, must be commenced within thirty days after the first publication of this notice."

Any action or proceeding in any court to set aside or question the proceedings for the issuance of the Bonds referred to in said notice or to contest the validity of any such Bonds or the validity of the pledge and any instruments made to secure such Bonds must be commenced within thirty days after the first publication of such notice. After the expiration of the said period no right of action or defense questioning or attacking the validity of the said proceedings, the said Bonds or the said pledge or instruments shall be asserted, not shall the validity of the said proceedings, Bonds, pledge or instruments be open to question in any court on any ground whatsoever except in an action commenced within such period.

Section 20. Exemption from Contracting and Purchasing Laws and from Certain Public Service Commission Jurisdiction. Authorities organized pursuant to this Act shall be exempt from (a) all laws relating to the advertising and award of construction contracts and purchase contracts made by or in behalf of the State and its departments and by or in behalf of local governmental authorities in the State (not including, however, laws relating to surety bond requirements for such contracts), and (b) from all jurisdiction of and all regulation and supervision by the Alabama Public Service Commission (other than rate regulation) or other successor or similar agency.

Section 21. Dissolution of Authority. At any time when no bonds of an Authority are outstanding, such Authority may be dissolved upon the filing, with the Judge of Probate of the county in which is filed the certificate of incorporation, of an application for dissolution, which shall be subscribed by each Director and sworn to by each Director before an officer authorized to take acknowledgments to deeds. Upon the filing of such application for dissolution, the Authority shall cease to exist. Said Probate Judge shall receive and record the application for dissolution in an appropriate book of record in his office. Upon dissolution, all rights, title and interests of the Authority in property shall be vested in the Authorizing Subdivisions pursuant to the provisions of the certificate of incorporation, or, in the absence of such provisions, shall be vested in the Authorizing Subdivisions, share and share alike.

Section 22. Cumulative Provisions. The provisions of this Act are cumulative and shall not be deemed to repeal existing laws, except to the extent such laws are clearly inconsistent with the provisions of this Act.

Section 23. Severability. In the event any section, sentence, clause or portion of this Act should be declared invalid by any court of competent jurisdiction, such invalidity shall not affect the validity of any of the remaining sections, sentences, clauses or portions of this Act, which shall continue effective.

SUBSTITUTE OFFERED

Rep. Hooper offered the following substitute to the bill, H. 233 as amended:

A BILL
TO BE ENTITLED
AN ACT

To propose a constitutional amendment amending further Article XI, Section 217, Constitution of Alabama of 1901, as amended by Constitutional Amendment No. 325, relating to ad valorem property taxes levied by the state and all counties, municipalities and other local taxing authorities.

Be It Enacted by the Legislature of Alabama:

Section 1. Proposed Constitutional Amendment. The following amendment to the Constitution of Alabama of 1901 is hereby proposed:

"Section 217. (a) On and after October 1, 1978, All taxable property within this state, not exempt by law, shall be divided into the following classes for the purposes of ad valorem taxation:

Class I. All property of utilities used in the business of such utilities;

Class II. All property not otherwise classified;

Class III. All agricultural, forest and single-family owner-occupied residential property; and historic buildings and sites.

Class IV. All private passenger automobiles and motor trucks of the type commonly known as "pickups" or pickup trucks" owned and operated by an individual for personal or private use and not for hire, rent or compensation.

(b) With respect to ad valorem taxes levied by the state, all taxable property shall be forever taxed at the same rate; On and after October 1, 1978, and such property shall be assessed for ad valorem tax purposes according to the classes thereof as herein defined at the following ratios of assessed value to the fair and reasonable market value (except as otherwise provided in subsection (j) hereof) of such property:

Class I. 30 per centum

Class II. 25 20 per centum

Class III. 15 10 per centum

Class IV. 15 per centum

(c) With respect to ad valorem taxes levied by counties, municipalities or other taxing authority authorities, all taxable property shall be forever taxed at the same rate; On and after October 1, 1978, and such property shall be assessed for ad valorem tax purposes according to the classes of property defined in paragraph subsection (a) herein hereof and at the same ratios of assessed value to the fair and reasonable market value thereof as fixed in paragraph subsection (b) herein hereof, except as otherwise provided in subsection (j) hereof and this subsection (such ratios being herein called "assessment ratios"). provided, however, that in connection with the ad valorem taxes that a county, municipality or other taxing authority is authorized or required to levy and collect pursuant to any provision of this Constitution, for the ad valorem tax year beginning October 1, 1978, any such taxing authority may, subject to criteria established by act of the legislature, by resolution of the governing body of that taxing authority, at any time not later than September 30, 1979, increase or decrease the assessment ratio applicable to any class of taxable property, such increase or decrease to be effective for ad valorem tax years beginning on and after October 1, 1978. If the receipts from any ad valorem tax with respect to which any assessment ratio has been so adjusted by any taxing authority during the ad valorem tax year beginning October 1, 1978, exceed by more than 5 percent, or are less than 95 percent of the receipts from such ad valorem tax for the ad valorem tax year beginning October 1, 1977, then at any time not later than September 30, 1980 for ad valorem tax years beginning on and after October 1, 1979, the taxing authority may, subject to criteria established by act of the legislature, by resolution of the governing body of that taxing authority, adjust any assessment ratio with respect to such ad valorem tax.

On and after October 1, 1979, the governing body of any county, municipality or other taxing authority legislature may, subject to criteria established by act of the legislature, at any time vary increase or decrease the assessment ratio of assessed value to the fair and reasonable market value as applicable to any class of taxable property; as defined in paragraph (b) herein, and provided, that any proposed adjustment to an assessment ratio to be made pursuant to this sentence, whether an increase or a decrease, shall have been (1) proposed by the governing body of the taxing authority after a public hearing on such proposal, (2) thereafter approved by an act of the legislature, and (3) subsequently approved by a majority vote of the qualified electors residing in the taxing authority who vote on the proposal at a special election called and held in accordance with the law governing special elections. No decrease in an assessment ratio pursuant to this subsection (c) shall be permitted with respect to either of the ad valorem tax years beginning October 1, 1978, and October 1, 1979, if such county, municipality or other taxing authority has increased any millage rate under subsection (e) of this section with respect to such ad valorem tax year. Further, that the legislature shall enact general laws applicable to all counties, municipalities and other taxing authorities regulating and establishing criteria for the exercise of the powers granted such taxing authorities to adjust assessment ratios as hereinabove provided. may fix a uniform ratio of assessment of all property within a county defined in paragraph (a) herein as Class II and III and may fix a different ratio of assessment for property defined in paragraph (a) as Class I. Such assessment ratios as herein authorized may vary among taxing authorities counties so long as each such assessment ratio is uniform within a taxing authority county. Any decrease in any assessment ratio pursuant to this subsection shall not jeopardize the payment of any bonded indebtedness secured by any tax levied by the taxing authority decreasing the assessment ratio. Any action authorized by this subsection to be taken by a taxing authority, or the governing body thereof, shall, other than in the case of a municipality, be taken by resolution of the governing body of the county in which such taxing authority is located acting on behalf of such taxing authority.

(d) With respect to ad valorem taxes levied by the state or by any county, municipality or other taxing authority, No class of taxable property shall have an assessment ratio of assessed value to fair and reasonable market value of less than 15 5 per centum nor more than 35 per centum.

(e) (d) A county, municipality, or other taxing authority may decrease any ad valorem tax rate at any time, provided such decrease shall not jeopardize the payment of any bonded indebtedness secured by such tax. For the ad valorem tax year beginning October 1, 1978, When the tax assessor of each county shall complete the assembly of the assessment book for his county for the that ad valorem tax year immediately following the adoption of this amendment and the computation of ad valorem taxes that will be paid upon such assessment, he shall certify to each authority within his county that levies an ad valorem tax the amount of ad valorem tax that will be produced by every levy in that ad valorem tax year but excluding for this purpose any assessment of new taxable property not previously subject to taxation (except "escaped" property as defined by law) added to the tax rolls of such county for the ad valorem tax year in which such certification is made that was not included on the tax rolls for the next preceding ad valorem tax year. If it shall appear that the estimated ad valorem tax receipts from any levy so estimated shall be less than the receipts from the same levy during the next preceding ad valorem tax year, then the levying authority shall increase each tax rate by such millage as Any county, munic-

ipality or other taxing authority, at any time not later than September 30, 1979, may increase the rate at which any ad valorem tax is levied by or with respect to that taxing authority above the limit otherwise provided in this Constitution, provided that the amount of the above-described certification of anticipated tax receipts with respect to such tax is less than 120% of the actual receipts from such tax for the ad valorem tax year beginning October 1, 1977, such increase to be effective for ad valorem tax years beginning on and after October 1, 1978; provided, that any such millage increase shall not exceed in mills the total of (i) the number of additional mills that is necessary, when added to the millage rate imposed with respect to such tax on each dollar of taxable property situated in the taxing authority for the ad valorem tax year beginning October 1, 1977, to produce revenue that is not less than and that is substantially equal to that received by the taxing authority with respect to such tax, during such immediately preceding ad valorem tax year, plus (ii) a number of additional mills equal to 20% of the total mills imposed by that taxing authority with respect to such tax on each dollar of taxable property situated in the taxing authority for the ad valorem tax year beginning October 1, 1977. If, for the ad valorem tax year beginning October 1, 1978, the receipts from any ad valorem tax with respect to which any millage rate has been increased pursuant to the immediately preceding sentence are less than 95 percent of the receipts from such ad valorem tax for the ad valorem tax year beginning October 1, 1977, then at any time not later than September 30, 1980, the taxing authority may increase any millage rate with respect to such ad valorem tax in the manner provided in the immediately preceding sentence, such increase to be effective for ad valorem tax years beginning on and after October 1, 1979. It is further provided that any and all millage adjustments shall be made in increments of not less than one tenth ($\frac{1}{10}$) mill. The adjustment herein required shall be made only one time and shall be made in the ad valorem tax year immediately following the adoption of this amendment.

(f) (e) On and after October 1, 1979, Any county, municipality, or other taxing authority may at any time increase the rate at which any ad valorem tax taxes are is levied above the limit now otherwise provided in the this Constitution; provided that the proposed increase to be made pursuant to this subsection shall have been (1) proposed by the governing body of the taxing authority having power to levy the tax after a public hearing on such proposal, (2) thereafter approved by an act of the legislature, and (3) subsequently approved by a majority vote of the qualified electors of residing in the taxing authority area in which the tax is to be levied or increased who vote on the proposal at a special election called and held in accordance with the law governing special elections. Any adjustments or other actions authorized to be made or taken pursuant to this subsection and subsection (e) hereof shall be made or taken by resolution of the governing body of such taxing authority, or if there is no such governing body and in the case of a taxing authority other than a municipality, by resolution of the governing body of the county in which such taxing authority is located acting on behalf of such taxing authority. The provisions of subsections (c), (e) and (f) of this section shall not apply to ad valorem taxes levied by the State.

(g) (f) -The legislature is authorized to enact legislation to implement the provisions of this amendment, section and may provide for exemptions from taxation; provided, however, that, unless otherwise expressly provided, no amendment to this section shall be construed to repeal any statutory exemption existing prior to the adoption of this amendment shall not be repealed, except by subsequent legislative act, and shall remain in full force

and effect on the effective date of any such amendment hereto.

(h) (g) Wherever any constitutional provision or statute provides for, limits or measures the power or authority of any county, municipality or other taxing authority to levy taxes, borrow money, or incur indebtedness in relation to the assessment of property therein for state taxes or for state and county taxes, such provision shall mean as assessed for county or municipal taxes, as the case may be.

(i) (h) Except as otherwise provided in Any provision of the this Constitution, including any amendment thereto whenever adopted with respect to taxable property located in the City of Mountain Brook, the City of Vestavia Hills, or the City of Huntsville, of Alabama to the contrary notwithstanding, the amount of ad valorem taxes payable to the state and to all counties, municipalities and other taxing authorities with respect to any item of taxable property described as Class I property shall never exceed 2% 1-½% of the fair and reasonable market value of such taxable the property in any one ad valorem tax taxable year, such amount with respect to any item of Class II property shall never exceed 1-½% of the fair and reasonable market value of such taxable property in any one ad valorem tax year, such amount with respect to any item of Class IV property shall never exceed 1-¼% of the fair and reasonable market value of such taxable property in any one ad valorem tax year, and such amount with respect to any item of Class III property shall never exceed 1% of the fair and reasonable market value of such taxable property in any one ad valorem tax year. Whenever the total amount of ad valorem property taxes otherwise payable by any taxpayer with respect to any item of taxable property shall exceed in any one ad valorem tax year the maximum amount of such taxes permitted by this section, such amount of taxes shall be reduced by subtracting that amount of tax due that is in excess of the amount of tax otherwise permissible under the Constitution. In connection with the taxation of any item of taxable property, the amount of tax to be subtracted with respect to each authority levying and collecting any ad valorem property tax shall be in the same proportion to the total amount of tax to be subtracted that the total number of mills on each dollar of taxable property situated in the taxing authority levied by such taxing authority bears to the total number of mills on each dollar of taxable property situated in the taxing authority levied by all taxing authorities with respect to such item of taxable property. Before sending to any taxpayer any notice relating to the collection of ad valorem taxes, the tax collector in each county shall determine whether any portion of the amount of ad valorem property tax otherwise due with respect to any item of taxable property shall be subtracted pursuant to the provisions of this subsection and shall apportion the amount to be subtracted in accordance with the provisions of this subsection.

(i) Notwithstanding any other provision of this section, on and after October 1, 1978, taxable property defined in subsection (a) hereof as Class III property shall, upon application by the owner of such property, be assessed at the ratio of assessed value to the current use value of such taxable property and not the fair and reasonable market value of such property, (provided that the legislature shall have enacted) laws uniformly applicable to the state and all counties, municipalities and other taxing authorities establishing criteria and procedures for the determination of the current use value of any eligible taxable property and procedures for qualifying such property for assessment at its current use value. The legislature may also enact laws uniformly applicable to the state and all counties, municipalities

and other taxing authorities providing for the ad valorem taxation of any taxable property ceasing to qualify for current use valuation.

(k) (i) The following property shall be exempt from all ad valorem taxation: the real and personal property of the state, counties and municipalities and property devoted exclusively to religious, educational or charitable purposes, household and kitchen furniture, all farm tractors, all farming implements when used exclusively in connection with agricultural property and all stocks of goods, wares and merchandise.

(l) Notwithstanding the other provisions of this section, with respect to the costs of reappraisal incident to the state-wide reappraisal of property heretofore authorized by the legislature, each county, municipality or other taxing authority, for ad valorem tax years beginning on and after October 1, 1978, may impose and levy an additional ad valorem tax of not more than two mills on all taxable property located in the taxing authority in order to reimburse itself for its payment of such costs of reappraisal or to pay any unpaid costs or its pro rata share of such unpaid costs of reappraisal. The taxes provided for in this subsection, or any pro rata part thereof, shall terminate at the end of the ad valorem tax year in which sufficient funds are received from the taxes to pay in full the said reappraisal costs and any receipts from such taxes that are received during the ad valorem tax year of their termination that are not needed for the purposes specified herein may be used by the taxing authority levying the tax for general purposes of the taxing authority. The taxes authorized in this subsection shall not exceed in the aggregate, with respect to any item of taxable property located in the taxing authority, a total of two mills for all such taxes levied by all taxing authorities in a county and not two mills for each taxing authority in a county. If more than one such taxing authority in a county has paid or owes all or a portion of its reappraisal costs, such two mills shall be prorated among such taxing authorities in the county as they may agree, or if they cannot agree, in the percentage which each such taxing authority's costs of reappraisal bear to the total costs of reappraisal of all taxing authorities in the county. The provisions of this subsection shall apply only to the costs incurred by a taxing authority incident to the state-wide reappraisal of property heretofore authorized by the legislature, the amount of which costs shall be certified by the Department of Revenue, and shall not be applicable to any future reappraisals that may be required by law.

(m) If any portion of this section should be declared invalid by any court of competent jurisdiction, such invalidity shall not affect the validity of any of the remaining portions of this section, which shall continue effective."

Section 2. Election Ordered; Date of Election. An election upon the proposed amendment is ordered to be held on the day of the general election in the year 1984. The election shall be held in accordance with the provisions of Section 284, as amended, and Section 285 of the Constitution of Alabama of 1901, and Title 17, Chapter 17, Code of Alabama 1975.

Section 3. Notice of Election. Whenever used herein any pronoun or pronouns shall be deemed to include both singular and plural and to cover all genders.

Section 3. Authorization of Commissions. A Commission is authorized to be created in accordance with the provisions of this Act for each Class 1 municipality, as Class 1 municipality is defined in Code of Alabama 1975, § 11-40-12 or any successor provision of law. Any Commission created for any Sponsoring Municipality pursuant to the provisions of this Act shall be named "The _____ (the name of the Sponsoring Municipality shall be inserted in the blank) Racing Commission" and shall be a public corporation having a legal existence separate and apart from the State and any county, municipality or political subdivision thereof. A Commission shall be vested with the powers and duties specified in this Act and all other powers necessary and proper to enable it to execute fully and effectively the purposes of this Act. Immediately upon the incorporation of a Commission in accordance with the provisions of this Act, horse racing and pari-mutuel wagering thereon conducted in the Sponsoring Municipality in accordance with the provisions of this Act shall be lawful, notwithstanding any other provision of law to the contrary.

Notwithstanding any provisions hereof which connect the State with the creation and control of a Commission, any Commission incorporated pursuant to the provisions of this Act shall not be deemed to be part of the State for any purpose, but shall be treated as a public corporation and body politic separate and apart from the State. Except for the State Wagering Fee, all fees, commissions and other moneys which a Commission shall be authorized by this Act to charge, levy or receive shall be deemed to be moneys belonging exclusively to such Commission, and no allocation or payment of such moneys authorized or mandated by this Act shall be considered to be an appropriation of moneys belonging to or controlled by the State.

Notwithstanding any provisions hereof which connect a Commission with its Sponsoring Municipality, the Host County or any other county or municipality [including, without limitation thereto, the provisions of Section 4 hereof regarding a referendum in the Sponsoring Municipality to ap-

prove the incorporation of a Commission and the provisions of Section 5 hereof providing for (i) the mayor or other chief executive officer of the Sponsoring Municipality to serve ex-officio as one Member of a Commission and (ii) the president or other designated presiding officer of the county commission of the Host County to serve ex-officio as one Member of a Commission], any Commission incorporated pursuant to the provisions of this Act shall not be deemed to be a local agency or instrumentality of the Sponsoring Municipality or the Host County, but shall be treated as a public corporation and body politic having rights, powers and duties which, to the extent herein specified, shall be effective without reference to the rights, powers, duties and territories of the Sponsoring Municipality and the Host County. Except for the State Wagering Fee, all fees, commissions and other moneys which a Commission shall be authorized by this Act to charge, levy or receive shall be deemed to be moneys belonging exclusively to such Commission, and the Sponsoring Municipality and the Host County shall have no interest therein except to the limited extent expressly provided by this Act.

Section 4. Referendum to Approve Commission. The governing body of any Class 1 municipality shall call and provide for holding a referendum for the purpose of determining if a Commission shall be incorporated for such municipality pursuant to this Act. The initial referendum shall be held not less than forty-five (45) days nor more than ninety (90) days after the effective date of this Act and shall be advertised, held, conducted and the results thereof canvassed and declared in the manner provided by law for advertising, holding, conducting and canvassing other municipal elections and as said governing body shall provide in the resolution or ordinance calling such election. The question to be voted on shall be stated on the ballots or voting machine tags substantially as follows:

"Do you favor the authorization of horse racing and pari-mutuel wagering thereon in the City of _____ (insert the name of the municipality) and the creation of a racing commission for said city to license, regulate and supervise horse racing and pari-mutuel wagering thereon as provided in Act No. _____ [insert act number] adopted at the _____ [insert session identification] Session of the Legislature of Alabama?"

If the majority of the votes cast in any referendum are "Yes", this Act shall become operative with respect to the municipality conducting such referendum, and horse racing and pari-mutuel wagering thereon shall be legal in such municipality as and to the extent conducted in accordance with the provisions of this Act; if the majority of the votes cast in such election are "No", this Act shall have no further effect with respect to such municipality, unless the governing body thereof should later call another referendum. One or more subsequent referenda may be called by the governing body of a Class 1 municipality if the question submitted at the initial or any subsequent referendum fails to receive a majority of favorable votes; provided, however, that not more than one referendum may be called by any municipality in each calendar year. Once authorized and incorporated, a Commission may not be dissolved except pursuant to general act of the Legislature of Alabama applicable to such Commission. The results of any referendum conducted for a Class 1 municipality pursuant to this act shall be certified to the Secretary of State, within thirty (30) days after the election returns are canvassed, by the officer then authorized by law to certify proceedings taken by the election commission, board of canvassers or other

body then required by law to canvass and declare the results of elections held in such municipality.

Section 5. Members of Commission. (a) Every Commission shall have five members, which shall constitute its governing body. All powers of a Commission shall be exercised by its Members or pursuant to their authorization. The mayor or other chief executive officer of the Sponsoring Municipality and the president or other designated presiding officer of the county commission of the Host County shall each serve as a Member *ex-officio*, and the service of each such official as a Member shall begin and end concurrently with the beginning and ending of his or her tenure in such office. The other three Members shall be appointed in the manner hereinafter prescribed as soon as may be practicable after the certification to the Secretary of State of a favorable vote at a referendum called and held pursuant to Section 4 of this Act. The Lieutenant Governor of the State, the Host County House Delegation and the Host County Senate Delegation shall each appoint one Member; provided, however, that the provisions of this Act conferring upon the Lieutenant Governor of the State the power to appoint one Member of each Commission are hereby expressly declared to be severable from the other provisions of this Act, and if the provisions conferring such power upon the Lieutenant Governor shall be determined by any court of competent jurisdiction to be invalid because of any defect in the notice required to be published with respect to this Act by Sections 106 and 110 of the Constitution of Alabama, as amended, or to be invalid for any other reason, such determination shall not affect, impair or invalidate the remaining provisions of this Act, and in such case, the mayor or other chief executive officer of the Sponsoring Municipality shall have the right to appoint the Member of each Commission that, absent such determination, would have been appointed by the Lieutenant Governor, all subject to the same terms and conditions herein that would be applicable to an appointment made by the Lieutenant Governor. The appointments of Members by the Host County House Delegation and the Host County Senate Delegation shall be made at meetings of the members of the respective delegations held pursuant to the call of the mayor or other chief executive officer of the Sponsoring Municipality, who shall provide the members of each delegation with written notice of any such meeting at least ten (10) days prior to the date set therefor. All meetings of the Host County House Delegation or the Host County Senate Delegation called and held pursuant to this Act shall be open to the public. Any appointment of a Member by the Host County House Delegation or the Host County Senate Delegation must be approved by a majority of the members of such delegation voting in person at a public meeting called and held pursuant to this Act. Any meeting of the Host County House Delegation or the Host County Senate Delegation at which fewer than a majority of the members of such delegation are present, or at which no appointment of a Member is made because of a failure to obtain the approval of a majority of the members of such delegation, may be adjourned to a future time and place announced at such meeting; provided that, if either delegation fails to appoint a Member within thirty (30) days of the date of the first meeting called for the purpose of such appointment, the right of such delegation to appoint a Member shall terminate and such appointment shall be made as soon thereafter as practicable by the mayor or other chief executive officer of the Sponsoring Municipality.

(b) The Member to be appointed by the Lieutenant Governor of the State shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the third calendar year next following the calendar year in which the referendum authorizing the incor-

poration of the Commission shall be conducted; the Member to be appointed by the Host County House Delegation shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the fourth calendar year next following the calendar year in which the referendum authorizing the incorporation of the Commission shall be conducted; the Member to be appointed by the Host County Senate Delegation shall be appointed for a term beginning immediately upon his appointment and ending at noon on July 1 in the fifth calendar year next following the calendar year in which the referendum authorizing the incorporation of the Commission shall be conducted. Thereafter, the term of office of each appointed Member shall be five years, commencing at noon on the July 1 on which the term of the immediate predecessor Member shall end.

(c) If at any time there shall be a vacancy among the appointed Members of a Commission (i.e., those Members who do not serve ex-officio), a successor Member shall be appointed to serve for the unexpired term applicable to such vacancy. The appointment of each appointed Member (other than those initially appointed), whether for a full five-year term or to complete an unexpired term, shall be made by the officer or legislative delegation responsible for the appointment of the Member whose term shall have expired or is to expire or in whose position a vacancy otherwise exists and shall be made not earlier than thirty (30) days prior to the date on which such Member is to take office as such. If the term of any Member shall expire prior to the reappointment of such Member or prior to the appointment of his successor, such Member shall continue to serve until his successor is appointed, and if such Member is reappointed for a new term after the expiration of the immediately preceding term which he has been serving, his new term of office shall be deemed to have commenced at noon on the July 1 on which the immediately preceding term shall have expired. Members shall be eligible for reappointment without limit as to the number of terms previously served. In the event that any appointments are not made within sixty (60) days after the certification to the Secretary of State of a favorable vote at a referendum called and held pursuant to this Act (in the case of initial appointments), or within thirty (30) days of the end of a term or other vacancy, then a vacancy shall be filled or a successor Member appointed by a majority of the Members holding appointments already made or serving as ex-officio Members. Appointments shall be evidenced by a written certificate executed by the appointing official, or, in the case of appointments made by a majority of the other Members, by a certificate signed by the Members making such appointment, or, in the case of appointments made by a legislative delegation, by the members of the delegation voting for such appointment or by a member of the delegation designated to serve as the secretary of the meeting at which such appointment is made and to report the results thereof to the Secretary of State. The certificates evidencing the appointment of Members of a Commission shall be addressed and delivered to the Secretary of State, who shall maintain the originals of such certificates as official records in his office.

(d) Each appointed Member of any Commission shall have been a resident of the Host County for a period of at least five years prior to his or her appointment and shall, at the time of his or her appointment and at all times during his or her term of office, be a resident of the Host County and a qualified elector of the State, and a failure by any appointed Member to remain so qualified during such term of office shall cause a vacancy of the office of such Member. No person serving as a member of the Legislature of the State, serving as a member of the governing body of any municipality, county or other political subdivision of the State, or holding a full-time of-

fice or position of employment with the United States of America, the State, any county or municipality in the State, or any instrumentality, agency or subdivision of any of the foregoing, shall be eligible for appointment as a Member of a Commission. Service by any person as a member, director, trustee or other participant in the management or administration of any governmental agency, board or commission, or public educational institution, or other public body of the United States of America, the State, or any county or municipality or other political subdivision shall not render such person ineligible for appointment as a Member of a Commission unless such service constitutes full-time employment. Each appointed Member shall be of good moral character and shall never have been convicted of a felony or other offense involving moral turpitude. Each appointed Member of a Commission shall make and submit to the appointing officer or legislative delegation responsible for his or her appointment an affidavit confirming his or her qualifications, as set forth in the preceding provisions of this subsection (d), to serve as a Member of a Commission, which affidavit shall be filed with the Secretary of State along with the aforesaid certificate evidencing such appointment. Any appointed Member of a Commission who in such affidavit intentionally makes a false statement of material fact or intentionally fails to disclose any information necessary to make any statement of material fact made therein not misleading shall be guilty of perjury and shall be subject to prosecution and punishment therefor in the same manner as if he had committed perjury as a witness in open court.

(e) Any person who is an appointed Member of a Commission shall be deemed to vacate his or her office as such Member by (i) the acceptance of any office or employment which, had such person held such office or been so employed at the time of his or her appointment as a Member, would have rendered such person ineligible for appointment as a Member or (ii) the occurrence of any event or circumstance involving the character of such person which, had such event or circumstance occurred prior to the time of his or her appointment as a Member, would have precluded such appointment. Any appointed Member may be impeached and removed from office as a Member of a Commission in the same manner and on the same grounds provided in Section 175 of the Constitution of Alabama of 1901, or successor provision thereof, and the general laws of the State for impeachment and removal of the public officers subject to said Section 175 or successor provision thereof. The mayor or other chief executive officer of the Sponsoring Municipality and the president or other designated presiding officer of the county commission of the Host County may not be impeached and removed from office as a Member of a Commission apart from their impeachment and removal from the respective offices by virtue of which, ex-officio, they serve as Members.

Section 6. Incorporation of Commission. The five persons initially designated as Members of a Commission shall become a corporation with the power and authority provided in this Act by proceeding according to the provisions of this Act. To become a corporation, the persons so designated shall present to the Secretary of State an application signed by them which shall contain the following:

- (1) a statement that the applicants propose to incorporate a Commission pursuant to this Act;
- (2) the name and principal residence of each of the applicants;
- (3) the date on which each applicant who is not an ex-officio Member

was appointed as a Member and the expiration date of the term for which he was appointed;

(4) the term of office for each applicant who is an ex-officio Member;

(5) the name of the proposed corporation, which shall be "The _____ [name of the Sponsoring Municipality] Racing Commission";

(6) the location of the principal office of the proposed corporation, which shall be in the Sponsoring Municipality; and

(7) any other matter relating to such Commission which the applicants may choose to insert and which is not inconsistent with this Act or the laws of the State.

The application shall be subscribed and sworn to by each of the applicants before an officer authorized by the laws of the State to take acknowledgments to deeds. The Secretary of State shall examine the application, and if the Secretary of State finds that it substantially complies with the requirements of this section, he shall receive, file and record it in an appropriate book of records in his office.

When the application has been made, filed and recorded as herein provided, the applicants shall constitute a corporation under the name stated in the application, without the necessity of any further action under any other laws of the State applicable to the creation of corporations, and the Secretary of State shall make and issue to the applicants a certificate of incorporation pursuant to this Act, under the Great Seal of the State, and shall record the certificate with the application. There shall be no fees paid to the Secretary of State for any work done in connection with the incorporation or dissolution of any Commission.

Section 7. General Provisions Respecting Members of a Commission. No Member shall vote on or participate in the discussion or consideration of any matter coming before a Commission in which he, his immediate family, or any business enterprise with which he is associated has any direct or indirect pecuniary interest; provided, however, that when any such matter is brought before a Commission, any Member having an interest therein which may be in conflict with his obligations as a Member shall immediately make a complete disclosure to such Commission of any direct or indirect pecuniary interest he may have in such matter prior to removing himself and withdrawing from the Commission's deliberations and vote on the matter presented. In furtherance, and not in limitation of the foregoing provision, no Member or employee of a Commission, and no spouse, child, parent, brother or sister of any such Member or employee, (i) shall have any financial interest, direct or indirect, in any horse racetrack or operation incidental thereto which is subject to the provisions of this Act, or in any entity which has submitted an application for a license under this Act, or in the operation of any wagering authorized under this Act or (ii) shall participate as owner of a horse or otherwise as a contestant in any race subject to the jurisdiction of a Commission or have any pecuniary interest in the purse or prize contested for in any such race. No appointed Member or officer of a Commission (e.g., any Member or officer of a Commission who does not serve as such by reason of his holding another office), no employee of a Commission, and no spouse, child, parent, brother or sister of any such appointed Member or officer or of any such employee, shall make, or cause to be made on his or her behalf, any contribution to any holder of any office of the State or any office of the Sponsoring Municipality or the Host County

of such Commission or any contribution to any candidate for any such office.

The mayor or other chief executive officer of the Sponsoring Municipality and the president or other designated presiding officer of the county commission of the Host County shall perform the duties of Members of a Commission, ex-officio, without any compensation other than that to which they are respectively entitled as such municipal or county officers. Appointed Members of a Commission shall be entitled to such compensation for their services as the Commission shall from time to time provide by duly adopted resolution, provided that no appointed Member of a Commission shall receive more than \$100 for each day or part thereof spent in the performance of his duties. Each Member, whether appointed or serving ex-officio, shall be reimbursed for his or her reasonable expenses incurred in the performance of his or her duties as a Member of a Commission. The compensation and expenses of Members shall be paid out of the funds of a Commission in accordance with such rules as shall be from time to time adopted by such Commission. A majority of the Members of a Commission shall constitute a quorum for the transaction of business by such Commission, and, in the absence of a rule incorporated in the bylaws of a Commission that, in certain circumstances, may require the favorable vote of a designated percentage of all the Members of a Commission, decisions shall be made on the basis of a majority of the quorum then present and voting, with each Member to have a single vote. No vacancy in the membership of a Commission or the voluntary disqualification or abstention of any Member thereof shall impair the right of a quorum to exercise all of the powers and duties of the Commission.

Section 8. Officers of a Commission. The officers of a Commission shall consist of a chairman, vice chairman, executive secretary, treasurer and such other officers as the Commission shall deem necessary or appropriate. The chairman and vice chairman of a Commission shall be elected by the Commission from the membership thereof. The executive secretary shall be appointed as provided in Section 10 hereof. The principal financial officer of the Sponsoring Municipality of a Commission shall serve ex-officio as the treasurer of such Commission.

Section 9. Treasurer of a Commission; Investment of Funds of a Commission. The treasurer of a Commission shall collect all the fees, commissions and other moneys provided for in this Act, and shall supervise, check and audit the operation of the pari-mutuel wagering pools and the conduct and distribution thereof. The principal financial officer of a Sponsoring Municipality shall perform the duties of the treasurer of a Commission, ex-officio, without any compensation other than that to which he or she is entitled as the principal financial officer of such Sponsoring Municipality, but he or she shall be reimbursed for expenses actually incurred in the performance of his or her duties as treasurer of a Commission. All managerial, accounting and clerical personnel which the principal financial officer of a Sponsoring Municipality shall determine to be necessary to keep the books and records of a Commission created for such Sponsoring Municipality and to perform the audit and other financial functions for such Commission authorized or contemplated by this Act shall be employees of such Sponsoring Municipality and shall perform their duties under the supervision of such principal financial officer in his capacity as ex-officio treasurer of such Commission; provided, however, that the number, qualifications and compensation of personnel employed by such Sponsoring Municipality to perform all financial functions for such Commission shall be subject to the approval of such Commission, as well as to such other laws and regulations as may be

applicable to such personnel as employees of such Sponsoring Municipality. Each Commission shall reimburse the Sponsoring Municipality for all costs and expenses incurred in the performance of all financial functions for such Commission, including a reasonable allowance for the time of the principal financial officer of such Sponsoring Municipality devoted to the business of such Commission as its ex-officio treasurer.

The funds of a Commission which its treasurer determines are not then needed to discharge its obligations or to make the disbursements provided for in Sections 34 and 36 hereof may be invested in such of the following investments as its treasurer may determine to be most advantageous or convenient: (i) any time deposit with, or any certificate of deposit issued by, or any acceptance by, any bank which is organized under the laws of the United States of America or any state thereof and deposits in which are insured, in whole or in part, by the Federal Deposit Insurance Corporation or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation; (ii) any direct, general obligation of the United States of America; (iii) any obligation payment of the principal of and interest on which is unconditionally guaranteed by the United States of America; (iv) any direct, general obligation of, or any obligation payment of the principal of and interest on which is unconditionally guaranteed by, any agency or instrumentality of the United States of America (including, without limitation, the Federal National Mortgage Association); and (v) any repurchase agreement or reverse repurchase agreement with any bank which is a member of the Federal Deposit Insurance Corporation (or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation) or with any government bond dealer reporting to and trading with the Federal Reserve Bank of New York, provided that such agreement is secured by obligations or securities described in clauses (i), (ii), (iii) and (iv) of this sentence. Funds of a Commission not invested in accordance with the preceding sentence shall be deposited in a bank the principal office of which shall be located in the Sponsoring Municipality and the deposits of which shall be insured, in whole or in part, by the Federal Deposit Insurance Corporation or any department, agency or instrumentality of the United States of America that may succeed to the functions of such corporation.

Section 10. Powers and Duties of a Commission. A Commission shall have the powers and duties necessary to license, regulate and supervise horse racing and pari-mutuel betting incidental thereto, including, without limiting the generality of the foregoing, the powers and duties set forth hereinafter in this section or in other sections of this Act.

(1) A Commission shall have succession in perpetuity, subject only to the provisions of this Act as it may be amended from time to time.

(2) A Commission shall have the power to sue and be sued in its own name in civil suits and actions and to defend suits against it.

(3) A Commission shall have the power to adopt and make use of an official seal and to alter the same at pleasure.

(4) A Commission shall have the power to adopt, alter and repeal by-laws, regulations and rules, not inconsistent with the provisions of this Act, for the regulation and conduct of its affairs and business.

(5) A Commission shall have the power (a) to borrow money from any source, including the Sponsoring Municipality (which is hereby authorized

to lend such money to its related Commission), for the purpose of paying expenses that may be reasonably incurred in carrying out its duties in advance of the receipt of fees, commissions and other moneys payable to it under the provisions of this Act, and (b) to pledge as security for the payment of the principal of and interest on the money so borrowed all or any of such fees, commissions and other moneys, which pledge shall be prior to any and all claims to such fees, commissions and other moneys from any intended recipients of Breeding Fund Fees pursuant to Section 34 hereof or from any intended recipients of the Net Revenues pursuant to Section 36 hereof; provided, however, that no Commission shall be entitled to borrow, or to allow to remain outstanding at any time, a principal amount in excess of (i) \$500,000 or (ii) the amount which the Commission estimates will be its total operating expenses for the next three years, whichever of such amounts is the lesser.

(6) A Commission shall establish and maintain a general business office within its Sponsoring Municipality for the transaction of its business at a place to be determined by such Commission. A Commission shall meet at such times and places within its Sponsoring Municipality as it shall determine.

(7) Each Commission shall be vested with supervision and authority over all horse races licensed by it under the provisions of this Act and over all persons conducting, participating in or attending such races. A Commission shall employ such persons to be present at race meetings as are necessary to ensure that they are conducted with order and the highest degree of integrity, and it may require that an Operator pay such salaries to such of the Commission's employees as it shall prescribe. A Commission may eject or exclude from any racetrack or from any part thereof any person, whether or not he possesses a permit, whose conduct or reputation is such that his presence may, in the opinion of the Commission, reflect on the honesty and integrity of horse racing or interfere with the orderly conduct of horse racing.

(8) A Commission and its representatives and employees shall visit, investigate and have free access to the office, track, facilities or other place of business of an Operator, and may compel the production of any of an Operator's books, documents, records or memoranda for the purpose of satisfying itself that such Operator is truthfully complying with the provisions of this Act and the Commission's rules and regulations. A Commission shall require that there be delivered to it an annual balance sheet and income statement of each Operator subject to its jurisdiction and also a copy of any management, concession or other contract to which any such Operator is a party.

(9) A Commission shall adopt and publish reasonable rules, regulations and conditions under which all types of racing subject to its jurisdiction, and pari-mutuel wagering, shall be conducted in its Sponsoring Municipality, and such other reasonable regulations as it deems necessary and appropriate to carry out the purposes and provisions of this Act. Such rules and regulations may include reasonable penalties for violations which shall be in the nature of civil and not criminal penalties.

(10) A Commission may issue subpoenas for the attendance of witnesses before it, administer oaths and compel production of records or other documents and testimony of such witnesses whenever such Commission finds it necessary and appropriate so to do in order to carry out its duties

under this Act or to enforce the provisions of this Act or rules or regulations adopted pursuant hereto.

(11) A Commission shall have the power to compel an Owner or Operator to file with such Commission such information, including, without limitation, financial statements and information relative to stockholders and all others with any pecuniary interest in such licensee as shall appear to such Commission to be necessary for the performance of its duties hereunder, and may prescribe the manner in which books and records of an Owner or Operator shall be kept.

(12) A Commission shall have the power to enter into arrangements with any governmental or nongovernmental agency or association for the purposes of exchanging information, establishing security forces or performing any other act better to ensure the proper conduct of horse racing.

(13) A Commission shall have the power to demand and obtain for its files the fingerprints of the following persons, which fingerprints may be taken by a representative of a law-enforcement agency of the county, state or federal government, by inspectors of such Commission or by such qualified private security agency as such Commission may designate: (i) all Members, officers and employees of such Commission; (ii) every person who is an officer, director, partner or other principal of a corporation, partnership or other entity which holds a license as an Owner or Operator, and every employee of such a licensee whose duties relate to the horse racing business in the Sponsoring Municipality; (iii) all owners of horses, trainers, jockeys, apprentices, stable employees, managers, agents, blacksmiths, veterinarians and other persons who actively participate in the racing activities of any Operator; and (iv) all other persons whose relationship to horse racing and wagering activities under the jurisdiction of such Commission is of such nature that such Commission, in the exercise of reasonable judgment, believes that it would be prudent to obtain the fingerprints of such persons.

(14) A Commission shall report annually to the governing body of its Sponsoring Municipality and to such state and federal authorities as shall be required by law.

(15) All books, records, maps, documents and papers of a Commission, including those filed with such Commission as well as those prepared by or for it, shall at all times be open for the personal inspection of any officer of the State, the Sponsoring Municipality or the Host County or any official investigative body or committee of any thereof, and no person having charge or custody thereof shall refuse this right to any officer or investigative body or committee, and it shall be the express duty of such person to assist such officer or committee in locating records or information. If any Member of a Commission violates the provisions of this paragraph, he shall be subject to removal from office.

(16) Subject to the provisions of Section 11 of this Act, a Commission shall appoint an executive secretary and such other employees as it deems essential to perform its duties under this Act. Such employees shall possess such authority and perform such duties as the Commission shall prescribe or delegate to them. Such employees may include stewards, chemists, veterinarians, inspectors, accountants, guards, and such other employees deemed by the Commission to be necessary for the supervision and the proper conduct of the highest standard of horse racing. Such employees shall be compensated as provided by the Commission.

(17) The executive secretary of a Commission, in addition to any other

duties prescribed by such Commission, shall keep a true and full record of all proceedings of such Commission and preserve at such Commission's general office all books, documents and papers of such Commission.

(18) A Commission shall have the authority to employ legal counsel of its choice to advise such Commission and represent it in all proceedings. The compensation of such counsel shall be paid out of funds of such Commission.

Section 11. Qualifications of Commission Employees. Each appointed officer and each employee of a Commission shall be of good moral character and shall never have been convicted of a felony or other offense involving moral turpitude. As a condition of employment by a Commission, each employee shall make and submit to such Commission an affidavit confirming his or her qualifications, as set forth in the preceding sentence, to be an employee of such Commission, which affidavit shall constitute a part of the permanent personnel records of such Commission. Any employee of a Commission who in such affidavit intentionally makes a false statement of material fact or intentionally fails to disclose any information necessary to make any statement of material fact made therein not misleading shall be guilty of perjury and shall be subject to prosecution and punishment therefor in the same manner as if he had committed perjury as a witness in open court.

Section 12. Review of Commission Action. Any person aggrieved by a refusal of a Commission to issue any license or permit, or suspension or revocation of a license or permit, imposition of a fine, or any other action of the Commission, may, within thirty (30) days of such action, appeal to the circuit court of the Host County. If such court finds that the action of such Commission was arbitrary, it shall order the issuance or reinstatement of such license or permit, abatement of such fine or such other action as it deems appropriate. The decision of such court shall be subject to appeal as in other cases at law.

Section 13. Commission May Obtain Injunctions. Whenever it appears to a Commission that any person has been violating or may violate any provision of this Act or any reasonable rule or regulation or final decision of such Commission, it may apply to the circuit court of the Host County for an injunction against such person. The order granting or refusing such injunction shall be subject to appeal as in other cases in equity.

Section 14. Licenses Required for Owners and Operators. No person shall construct or establish a horse racetrack where race meetings are to be held and pari-mutuel wagering permitted, or own any such track or racing facilities in the Sponsoring Municipality, unless he has obtained an owner's license issued by a Commission in accordance with the provisions of this Act, which license when granted shall authorize the holder thereof to construct, establish and own in the Sponsoring Municipality a horse racetrack where race meetings are held and pari-mutuel wagering permitted in compliance with this Act.

No person shall operate pari-mutuel wagering or conduct any race meeting at which wagering is permitted with his knowledge or acquiescence in the Sponsoring Municipality unless he has obtained an operator's license under the provisions of this Act, which license when granted shall authorize the holder thereof to operate pari-mutuel wagering or conduct a race meeting at which pari-mutuel wagering is permitted in the Sponsoring Municipality in compliance with this Act.

No license issued under the provisions of this Act shall be transferable

without the approval of the Commission which issued such license, such approval to be given or withheld under rules and regulations adopted by such Commission.

Section 15. Application for Owner's License. Any person desiring to construct or own a racetrack at which pari-mutuel wagering is permitted shall file with the appropriate Commission an application for an owner's license. Such application shall be filed at the time and place prescribed by such Commission and shall be in such form and contain such information as may be prescribed by such Commission, including the following:

(1) the name and address of such person; if a corporation, the state of its incorporation and the full name and address of each officer and director thereof; if a foreign corporation, whether it is qualified to do business in the State; and if a partnership or joint venture, the name and address of each general partner thereof;

(2) the name, and every address for the period of five years immediately preceding the date of such application, of each stockholder or member of such corporation, or each general partner of such partnership or joint venture, and of each person who has contracted for a pecuniary interest in the applicant or the facilities at which such race meeting or pari-mutuel wagering will be conducted, whether such interest be an ownership or a security interest, and the nature and value of such interest, and the name and address of each person who has agreed to lend money to the applicant; provided that if the applicant proposes to arrange further financing, subsequent to the award of an owner's license, through a sale of stock, partnership interests or other equity interests, the issuance of debt securities, the entering into of financing leases or otherwise borrowing money, then, in such case, such Commission may grant an owner's license which sets forth conditions to be met in arranging such further financing or which reserves to such Commission the right to approve any or all aspects of such further financing;

(3) such information as such Commission deems appropriate regarding the character and responsibility of the applicant and the members, partners, stockholders, officers and directors of the applicant;

(4) the location and description of the racetrack, place or enclosure where such applicant proposes to hold race meetings; provided that such Commission may require such information about the facilities and location of the track, including preliminary architectural plans, as it deems necessary and appropriate to determine whether they comply with the minimum standards provided in this Act, and whether the conduct of race meetings at such location would be in the best interests of the people of the State;

(5) such information relating to the financial responsibility of the applicant as such Commission deems appropriate;

(6) if any of the facilities necessary for the conduct of racing or pari-mutuel wagering are to be leased, the terms of such lease; and

(7) any other information which such Commission in its discretion deems appropriate.

Any application filed hereunder shall be verified by the oath or affirmation of an officer of the applicant, and shall be accompanied by a nonrefundable fee of \$15,000.

Section 16. Review of Application for Owner's License. A Commission shall promptly consider any application for an owner's license submitted to

it and shall grant or deny such license based on all information before it, including any investigations it deems appropriate. A Commission shall deny a license to any applicant unless it finds as follows:

(1) that each natural person having an ownership interest in the applicant, either directly or indirectly, shall have been a resident of the State continuously for a period of five years next preceding the date of the application in question; and

(2) that the applicant's facilities will meet the following minimum standards: (a) that the facilities will provide a track racing surface of at least one mile; (b) that the facilities will be appropriate for the conduct of year-round racing and night racing; and (c) that the facilities will be located within the corporate limits of the Sponsoring Municipality or will be annexed thereto prior to the commencement of racing.

For purposes of clause (1) of the next preceding sentence of this section, a resident of the State shall be a natural person who during the period in question had such continuing presence in the State as would have satisfied the residency requirements for such person to be and remain a registered voter in the State during such period.

The provisions of this section which permit an owner's license to be granted to an Owner only if each natural person having an ownership interest in such Owner has been a resident of the State continuously for the preceding five years shall not be construed (A) to impair the foreclosure rights of any mortgagee holding a mortgage on the racing facilities of such Owner securing debt incurred to finance the costs of constructing or purchasing such racing facilities or (B) to impair the rights of any mortgagee holding such a mortgage, or the rights of any other person, corporation or other legal entity to which such racing facilities may be sold in foreclosure, to take and hold title to such racing facilities, to lease or sell the same, and to apply for and receive an owner's license therefor from the Commission upon compliance with all other applicable provisions of this Act, irrespective of whether the aforesaid condition of five years' residence in the State shall be satisfied by each individual having an ownership interest in such mortgagee or an ownership interest in a corporation or other legal entity to which such racing facilities shall be sold, as the case may be.

A Commission shall deny a license to an applicant if it finds that for any reason the issuance of a license to such applicant would not be in the interests of the people of the Sponsoring Municipality, or that the applicant, or any officer, general partner or director of the applicant:

(i) has knowingly made a false statement of a material fact in the application or has deliberately failed to disclose any information called for in the application;

(ii) is or has been guilty of any corrupt or fraudulent act, practice or conduct in connection with any horse race meeting in the State or any other state;

(iii) has had a license or permit to hold or conduct a horse race meeting denied for just cause, suspended or revoked in any other state or country; or

(iv) is not qualified to do business in the State, or is not subject to the jurisdiction of the courts of the State.

Section 17. Terms of Owner's License. An owner's license issued under this Act shall be for a period of twenty (20) years, but shall be reviewed annually. A Commission issuing an owner's license shall state

therein the person to whom such license is issued, the duration of such license, the location of the proposed racetrack, and such other conditions of the license and related information as such Commission shall deem proper. It shall be the policy of each Commission to permit widespread ownership of stock or limited partnership interests in a corporation or partnership holding an owner's license and owning a racetrack facility.

While any owner's license or licenses theretofore issued by a Commission shall remain in effect, such Commission shall not issue (i) any other owner's license with respect to the racetrack covered by the owner's license or licenses already in effect or (ii) any other owner's license covering any other racetrack to be located in the Sponsoring Municipality without, in either case, the duly authorized consent of the Owner or Owners holding all owner's licenses already in effect, which consent shall be obtained in writing prior to the issuance of any such other owner's license. Any provisions of this Act or any other law to the contrary notwithstanding, a Commission may, at the time of the issuance of an owner's license to an Owner or at any time thereafter, enter into a contract with such Owner establishing restrictive conditions under which such Commission may license racetracks that would compete with the racetrack covered by the license of such Owner, which conditions may, in the discretion of such Commission, preclude the licensing of any competing racetracks while such Owner's license shall remain in effect. The provisions of any such contract between a Commission and an Owner shall be deemed to be a part of the terms and conditions of the owner's license granted to such Owner. Without in any way limiting the nature of the consideration that might be given by an Owner to make such contract binding, the obligations (including any future obligations) of any Operator using the racetrack covered by such Owner's license to pay the State Wagering Fee and the Commission Wagering Fee, together with the economic benefits to be derived by the State and such Commission and its Sponsoring Municipality from the establishment and continued operation of a racetrack, shall be deemed sufficient consideration to make such contract binding upon such Commission and any State Racing Commission. Any such contract between a Commission and an Owner shall be binding upon such Commission and any State Racing Commission at any time exercising jurisdiction over such Commission or such Owner and shall not be impaired by any subsequent action of such Commission or such State Racing Commission or by any act of the Legislature of Alabama which, through the authorization of another licensing entity or by any other means, would permit or encourage the establishment and operation of a competing racetrack in contravention of such contract.

A Commission may require a bond with surety acceptable to it in an amount determined by it to be sufficient to cover the maximum indebtedness anticipated to be incurred by the licensee to such Commission in any year. The amount of such bond may be adjusted from time to time as such Commission may require.

Each Commission may require the licensee to pay such Commission a license fee of \$2,000 per month for a period beginning six months from the date of issuance of the owner's license to the date of the beginning of operation of the related racetrack. The license fee shall be used by the Commission for operating expenses prior to the beginning of operation of the racetrack.

Section 18. Application for Operator's License. Any corporation desiring to hold race meetings at which pari-mutuel wagering is permitted shall file with the appropriate Commission an application for an operator's li-

cense. Such application may be made in conjunction with an application for an owner's license. It shall be filed at the time and place prescribed by the Commission and shall contain such information as prescribed by the Commission, including all information required for an owner's license under this Act. Any application for an operator's license filed hereunder shall be verified by the oath or affirmation of an officer of the applicant and shall be accompanied by a nonrefundable fee of \$10,000.

Section 19. Review of Application for Operator's License. A Commission shall promptly consider any application for an operator's license submitted to it and shall grant or deny such license based on all information before it, including any investigation it deems appropriate. A Commission shall deny a license to any applicant unless it finds as follows:

(1) that such applicant is a corporation organized under Title 10 of the Code of Alabama 1975, or comparable law or laws of another state, and qualified to do business in the State;

(2) if the corporation is a stock corporation, that no one person owns more than thirty percent (30%) in voting rights or value of the stock of such corporation, and that no "family group" (which shall mean, for the purposes of this clause (2), any person and his or her spouse, parents, brothers and sisters) owns more than fifty percent (50%) in voting rights or value of the stock of such corporation; if the corporation is a nonstock corporation, that there are at least ten members, and that no more than twenty percent (20%) of the membership belongs to any family group;

(3) if the corporation is a stock corporation, that one hundred percent (100%) in voting rights and value of such corporation is owned directly or indirectly (through ownership of corporate stock, partnership interests or beneficial interests in one or more trusts or estates) by natural persons who have been residents of the State continuously for a period of five years next preceding the date of the application in question; if the corporation is a nonstock corporation, that members of such corporation possessing one hundred percent (100%) of the voting rights are natural persons who have been residents of the State for a period of five years next preceding the date of the application in question;

(4) that the members of the board of directors of such corporation, whether the same shall be a stock or a nonstock corporation, are individuals who have been residents of the State for a period of five years next preceding the date of the application in question;

(5) that the applicant's articles or certificate of incorporation or other corporate documents provide that it may, on vote of a majority of the stockholders or members, purchase at fair market value the entire stock or interest of any stockholder, or require the resignation of any member, who is or becomes unqualified for such position under this Act;

(6) that the applicant would be qualified, under the provisions of this Act, for a license to own the racetrack facilities at which it desires to hold a race meeting;

(7) that the applicant shall have made, or shall have committed to make, arrangements satisfactory to such Commission for the detection and prosecution of any corrupt or fraudulent act, practice, or conduct in connection with any race meeting, including utilization of the services of a protective agency acceptable to such Commission; and

(8) that the applicant shall have obtained and committed to maintain

membership in such racing associations (as, for example, the Thoroughbred Racing Association or the United States Harness Association) as such Commission finds necessary or desirable to assist an Operator to operate race meetings.

For purposes of clauses (3) and (4) of the next preceding sentence of this section, a resident of the State shall be a natural person who during the period in question had such continuing presence in the State as would have satisfied the residency requirements for such person to be and remain a registered voter in the State during such period.

Section 20. Terms of Operator's License. An operator's license issued under this Act shall be for a period of twenty (20) years, but shall be reviewed annually. Any such license issued under this Act shall permit the holder thereof to hold and conduct one or more race meetings each year at the racetrack to which such license shall be applicable. Races may be conducted six days or nights a week throughout the year, but not on Sunday.

A Commission issuing an operator's license shall state therein the corporation to which such license is issued, the location of the racetrack where meetings are to be conducted, the period during which such license shall be in effect, and such other conditions of the license and related information as such Commission shall deem proper.

While any operator's license or licenses theretofore issued by a Commission shall remain in effect, such Commission shall not issue any other operator's license with respect to any racing events of the kind covered by the operator's license or licenses already in effect without the duly authorized consent of the Operator or Operators holding all operator's licenses already in effect, which consent shall be obtained in writing prior to the issuance of any such other operator's license. Any provisions of this Act or any other law to the contrary notwithstanding, a Commission may, at the time of the issuance of an operator's license to an Operator or at any time thereafter, enter into a contract with such Operator establishing restrictive conditions under which such Commission may license the conduct of racing events that would compete with the racing events or activities covered by the license of such Operator, which conditions may, in the discretion of such Commission, preclude the licensing of any competing racing events or activities while such Operator's license shall remain in effect. The provisions of any such contract between a Commission and an Operator shall be deemed to be a part of the terms and conditions of the operator's license granted to such Operator. Without in any way limiting the nature of the consideration that may be given by an Operator to make such contract binding, the obligations (including any future obligations) of any Operator to pay the State Wagering Fee and the Commission Wagering Fee, together with the other economic benefits to be derived by the State and by such Commission and its Sponsoring Municipality from the conduct of horse racing and pari-mutuel wagering thereon, shall be deemed sufficient consideration to make such contract binding upon such Commission and any State Racing Commission. Any such contract between a Commission and an Operator shall be binding upon such Commission and any State Racing Commission at any time exercising jurisdiction over such Commission or such Operator and shall not be impaired by any subsequent action of such Commission or such State Racing Commission or by any act of the Legislature of Alabama which, through the authorization of another licensing entity or by any other means, would permit or encourage the conduct of racing events or activities by persons other than such Operator in contravention of such contract.

A Commission issuing an operator's license shall require a bond with surety acceptable to it, and in an amount determined by it to be sufficient to cover the maximum indebtedness anticipated to be incurred by the holder of such license to such Commission in any year. The amount of such bond may be adjusted from time to time as such Commission may require.

Section 21. Suspension or Revocation of License. A Commission may suspend or revoke any license or fine the holder thereof not to exceed \$5,000 after hearing with fifteen (15) days' notice in any case where it has reason to believe that any regulation of the Commission has not been complied with or has been violated. Annually, each Commission shall review the performance of each licensee for compliance with the provisions of this Act and the rules and regulations of such Commission. Deliberations of a Commission under this section may be conducted in executive session, unless otherwise requested by the licensee. If any such license is suspended or revoked, the Commission shall state its reason for doing so, which shall be entered of record. Such action shall be final unless appealed in accordance with the provisions of this Act.

Section 22. Application to Acquire Interest in Operator. Any person desiring to acquire stock in, or become a member of, a corporation which holds an operator's license hereunder shall apply to the Commission which issued such license on a form prescribed by it for approval of such acquisition or membership; provided, however, that no stock in any stock corporation holding an operator's license may be acquired or transferred pursuant to the provisions of this section unless all the natural persons who will ultimately own, directly or indirectly, all the voting rights and value represented by such stock shall have been residents of the State (as "resident of the State" is defined in Section 19 hereof) continuously for a period of five years next preceding the date on which such stock is to be acquired or transferred; provided further that no person shall become a member of any nonstock corporation holding an operator's license unless such person is a natural person who shall have been a resident of the State (as "resident of the State" is defined in Section 19 hereof) continuously for a period of five years next preceding the date on which such person is to become a member of such corporation. The Commission shall consider such application forthwith, and may, if it finds it necessary, demand additional information concerning the proposed acquirer or transferee of stock or the proposed member in a nonstock corporation, as the case may be. If in the judgment of the Commission the acquisition or transfer of stock or membership in a corporation holding an operator's license would be detrimental to the public interest, to the honesty and integrity of racing, or to the reputation of racing, the application shall be denied. If the application is not denied within sixty (60) days, it shall be deemed approved. It shall be the policy of each Commission to favor the widespread ownership of stock in Operators by residents of the State.

Section 23. Permits Required for Certain Individuals and Companies. No person, firm, corporation or partnership shall participate in any horse racing subject to the jurisdiction of a Commission or in the conduct of any racing event or pari-mutuel wagering thereon, whether as a horse owner, trainer, jockey, exercise boy, groom, stable foreman, valet, veterinarian, agent, pari-mutuel employee, concessionaire or employee thereof, or track employee, or enter the track enclosure in any capacity other than as a spectator, unless such person or the firm, corporation or partnership employing such person possesses a permit therefor from the appropriate Commission and complies with the provisions of this Act and all reasonable rules and

regulations of such Commission. No permit issued under this section shall be transferable.

The provisions of this section which require a concessionaire to obtain a permit from the appropriate Commission in order to operate a business selling food, beverages, souvenirs or other merchandise to persons attending racing events shall not be construed to permit any Commission to charge a concessionaire any license or permit fees measured by its gross revenues or to derive any economic benefit from the operations of such concessionaires other than the permit fees authorized by Section 24 of this Act, it being expressly provided that the Owner and the Operators for each racing facility shall have the exclusive rights (as they may by contract allocate such rights among themselves) to determine the business conditions under which concessionaire shall operate at racing facilities under the jurisdiction of any Commission and to retain all moneys (except for the Commission's permit fee as aforesaid) which any concessionaire is willing to pay for the privilege of conducting business at such racing facilities.

Section 24. Application for Permit. Any person, firm, corporation or partnership desiring to obtain a permit as required by this Act shall make application therefor on a form prescribed by the appropriate Commission. Each individual applicant and each principal of any firm, chief executive officer of any corporation and managing partner of any partnership applying for a permit for such firm, corporation or partnership, as the case may be, shall be photographed and fingerprinted and shall supply such information as such Commission may require. All information contained in, or submitted in support of, any application for a permit shall be confirmed by an affidavit of the person or persons making such application, whether such application shall be made on behalf of such person or persons or on behalf of a firm, corporation or partnership. Any application for a permit made by an individual who seeks to work at a racing facility under the jurisdiction of a Commission and any application for a permit made by a firm, corporation or partnership that seeks to provide services or sell merchandise at such racing facility, as the case may be, shall include a statement as to whether such individual, or any owner, principal, officer, director or partner of such firm, corporation or partnership, or any employee of such firm, corporation or partnership who will actually work at such racing facility, has ever been convicted of a felony or other offense involving moral turpitude. Any firm, corporation or partnership which has previously received an effective permit from a Commission to provide services or sell merchandise at a racing facility shall, as a condition of maintaining such permit, file with such Commission supplemental information (including the statement described in the preceding sentence) concerning any new or additional owners, principals, officers, directors or partners of such firm, corporation or partnership, as the case may be, or any new or additional employees thereof who will actually work at such racing facility.

A Commission shall be entitled to charge fees for permits according to such schedule as it shall adopt from time to time, and in addition to the fee that it may charge a firm, corporation or partnership having employees at a racing facility under its jurisdiction, it may charge a separate fee for each individual employee of such firm, corporation or partnership working at such racing facility; provided, however, that (i) the permit fee for any one firm, corporation or partnership shall not exceed \$1,000 in any period of one year and (ii) the permit fee for any individual shall not exceed \$50 in any period of one year, regardless of whether such individual is self-employed or is employed by a firm, corporation or partnership also paying a permit fee.

Section 25. Review of Applications for Permits. A Commission shall promptly consider any application for a permit submitted to it and shall issue or deny such permit based on the information in the application and all other information before it, including any investigation it deems appropriate. If an application for a permit is approved, the Commission approving such application shall issue a permit which shall contain such information as such Commission deems appropriate. Such permit shall be valid for one year.

A Commission shall deny any such application and refuse to issue a permit, which denial shall be final unless an appeal is taken under the provisions of this Act, if it finds that the issuance of such permit to the applicant therefor would not be in the interest of the applicant, the people of the Sponsoring Municipality or the horse racing industry in the Sponsoring Municipality, or that the applicant:

(1) has knowingly made a false statement of a material fact in the application or has deliberately failed to disclose any information called for by the application;

(2) is or has been guilty of any corrupt or fraudulent practice or conduct in connection with any horse racing activity in the State or any other state;

(3) has failed to comply with the provisions of this Act or the reasonable rules and regulations of the Commission;

(4) has had a permit to engage in an activity related to horse racing denied for just cause, suspended or revoked in any other state, and such denial, suspension or revocation is still in effect; or

(5) is unqualified to perform the duties required for the permit sought.

Section 26. Suspension or Revocation of Permit. A Commission may suspend or revoke a permit issued under this Act or fine the holder of such permit not to exceed \$1,000, after hearing with fifteen (15) days' notice to such holder, in any case where it has reason to believe that any provision of this Act, or any reasonable rule or regulation of the Commission, has not been complied with or has been violated. The Commission may revoke such permit, after such hearing, if it finds that facts not known by it at the time it considered the application for such permit indicate that such permit should not have been issued. Deliberations of a Commission concerning the suspension or revocation of a permit may be conducted in executive session unless otherwise requested by the holder of such permit. If any permit is suspended or revoked, the Commission shall state its reasons for so doing and shall enter the same in the permanent records of its proceedings. The suspension or revocation of a permit shall be final unless an appeal is taken in accordance with the provisions of this Act.

Section 27. License Required for Stewards; Appointment of Stewards for Race Meetings. Any person desiring to act as a steward for any race meeting conducted pursuant to this Act must obtain a license from the Commission having jurisdiction over such race meeting. Each Commission shall require each applicant for a steward's license to pass one or more examinations on matters relating to the duties of stewards. Such examinations shall be prepared and administered in accordance with rules and regulations to be adopted by each Commission. Any Commission may establish other requirements, in addition to successful completion of such examinations, which must be met by any applicant in order to obtain a steward's license, including, without limitation, payment of reasonable license fees. Any stew-

ard's license issued pursuant to this Act shall have a term not exceeding two years, provided that the term of any such license may be extended or renewed at the option of the appropriate Commission.

Three licensed stewards shall be appointed to supervise each race meeting conducted pursuant to this Act. Two of such stewards shall be appointed by the Commission governing such race meeting and one shall be appointed by the Operator conducting such race meeting. Such stewards shall exercise such powers and perform such duties at each race meeting as may be prescribed by the rules and regulations of the governing Commission.

Section 28. General Provisions Respecting Pari-Mutuel Wagering. Pari-mutuel wagering conducted by an Operator shall be conducted in accordance with the provisions of this section. An Operator shall provide a place or places at the racetrack operated by it at which such Operator shall conduct a pari-mutuel system of wagering by its patrons on the results of horse races held at such racetrack. Such place or places shall be provided with the electronic or mechanical equipment necessary to issue pari-mutuel tickets, as well as the electronic or mechanical equipment necessary to record the wagering, compute the odds, and determine the awards to winning bettors, all in an accurate and speedy manner. All such equipment shall be approved by the Commission licensing such Operator before being used, but such Commission shall not require the installation of any particular make of such equipment.

Subject to the provisions of the next succeeding paragraph, an Operator shall distribute to the winners of each pari-mutuel pool the total amount wagered with respect to that pool, less the following deductions to be retained by such Operator as in the case may be applicable:

(i) in the case of any pari-mutuel pool where the bettor is required to select one horse, there shall be deducted an amount equal to seventeen percent (17%) of the total amount wagered with respect to that pool plus the Breakage applicable to the winning bets for that pool;

(ii) in the case of any pari-mutuel pool where the better is required to select two horses, there shall be deducted an amount equal to twenty-one percent (21%) of the total amount wagered with respect to that pool plus the Breakage applicable to the winning bets for that pool; and

(iii) in the case of any pari-mutuel pool where the bettor is required to select three or more horses, there shall be deducted an amount equal to twenty-three percent (23%) of the total amount wagered with respect to that pool plus the Breakage applicable to the winning bets for that pool.

In addition to the amounts permitted by the preceding sentence to be deducted from all pari-mutuel pools and retained by an Operator, such Operator shall be permitted to retain all moneys represented by unclaimed, uncashed, or abandoned pari-mutuel tickets; provided, however, that no pari-mutuel ticket shall be deemed to be unclaimed, uncashed, or abandoned unless it shall not be presented for payment within six months from the date of the running of the race to which such pari-mutuel ticket pertains.

During any period in which an Operator shall be required to pay the State Wagering Fee, such Operator shall have the right to increase the deduction permitted by the next preceding paragraph by any amount up to one percent (1%) of the total amount wagered with respect to any pari-mutuel pool, any provisions of this Act or any other law to the contrary

notwithstanding. It is hereby expressly declared that this right is conferred upon each Operator licensed by a Commission for the purpose of enabling such Operator to generate all or part of the money necessary to pay the State Wagering Fee, and any increase in the amount deducted by an Operator from any pari-mutuel pools pursuant to the exercise of such right shall not be made the basis of any increase in the State Wagering Fee, the Commission Wagering Fee or any other taxes, fees or commissions payable by such Operator. No increase in the amount deducted from any pari-mutuel pool shall be permitted pursuant to this paragraph until such time as an Operator shall become liable for the State Wagering Fee, but thereafter, and for so long as such Operator shall remain liable for the State Wagering Fee, the right conferred by this paragraph to increase the amount deducted may be exercised at any time and from time to time (including the right to institute an increase and thereafter discontinue and resume it any number of times), may be exercised with respect to all pari-mutuel pools or with respect to some and not to others, and may be exercised with respect to any pari-mutuel pool in any degree of increase, not exceeding in any case more than one percent (1%) of the total amount wagered with respect to that pool, all as such Operator shall determine in the exercise of its sole discretion without direction or influence from the Commission licensing such Operator, any State Racing Commission or any other governmental body.

A Commission shall adopt and maintain rules and regulations for each kind of pari-mutuel pool that may be operated by an Operator licensed by such Commission, and such rules and regulations shall be published by such Commission in book or pamphlet form for general distribution to all interested persons. Under the pari-mutuel system of wagering hereby authorized, an Operator shall be permitted to provide separate pools for bets to win, place, and show, as well as separate pools for more complex wagers involving such combinations of races and such combinations of the outcomes of races as shall be approved by the Commission licensing such Operator. Each pool (less the amount that the Operator is permitted to retain pursuant to the provisions of this section) shall be distributed separately to the winners thereof in accordance with the rules and regulations of the governing Commission for that kind of pari-mutuel pool. If there is no ticket bet on the winning horse or combination of horses for any pari-mutuel pool, the portion of the pool which would have been distributed to any winners thereof shall be distributed to the holders of tickets for such pool in accordance with the rules and regulations of the governing Commission for that kind of pari-mutuel pool.

Section 29. State Wagering Fee. No license tax, fee or equivalent charge shall be levied by the State against horse racing or pari-mutuel wagering thereon licensed and regulated by a Commission during a period beginning with the effective date of this Act and continuing until the fifth (5th) anniversary of the date on which racing events shall first be conducted under the jurisdiction of such Commission. Beginning with such fifth (5th) anniversary of the date on which racing events shall first be conducted under the jurisdiction of a Commission, and continuing thereafter for so long as such Commission shall continue in existence, each Operator licensed by such Commission shall pay to the Department of Revenue of the State (or such other department or agency of the State as may be provided by law) a State Wagering Fee in an amount equal to one percent (1%) of the Handle of such Operator. The State Wagering Fee shall be paid in installments referable to the calendar months during which racing events shall be conducted by an Operator, and the installment referable to any calendar month shall be an amount equal to one percent (1%) of the Handle of such

Operator for such calendar month and shall be paid to the Department of Revenue of the State (or such other department or agency of the State as may be provided by law) prior to the end of the next succeeding calendar month. The Department of Revenue of the State (or other collecting department or agency of the State) is hereby authorized to promulgate and enforce such rules and regulations, not inconsistent with the provisions of this Act, as shall be reasonably necessary for the determination and collection of the State Wagering Fee. The Department of Revenue of the State (or other collecting department or agency of the State) may require a bond with surety acceptable to it in an amount determined by it to be sufficient to cover the maximum liability for the State Wagering Fee that may at any time be incurred by an Operator.

The Legislature hereby finds and determines that the State Wagering Fee authorized by this Act is the maximum license fee or equivalent tax or charge which can be levied by the State against horse racing or pari-mutuel wagering thereon without impairing the economic viability of horse racing and lessening its contribution to increased employment and tourism in the State. No State Racing Commission shall have the power to increase the State Wagering Fee above the limits provided in this Act, to impose the State Wagering Fee for any period not herein authorized, or to levy or impose any additional license fee or equivalent tax or charge against horse racing or pari-mutuel wagering thereon conducted under the provisions of this Act.

Section 30. Commission Wagering Fee. Each Operator shall pay to the treasurer of the Commission licensing such Operator a Commission Wagering Fee for each calendar year during which it conducts any racing events. The amount of the Commission Wagering Fee for an Operator for a given calendar year shall be equal to the sum of (i) two percent (2%) of the Handle of such Operator for such calendar year to the extent that such Handle does not exceed one hundred fifty million dollars (\$150,000,000) and (ii) four percent (4%) of the portion of the Handle of such Operator for such calendar year that exceeds one hundred fifty million dollars (\$150,000,000). Each Operator shall make payment of its Commission Wagering Fee for each calendar year to the treasurer of the licensing Commission in monthly installments. For each calendar year, the monthly installment referable to any month (other than the month during which the final racing event for such calendar year shall be conducted) shall be equal to two percent (2%) of the Handle for such month. The monthly installment referable to the month during which the final racing event for any such calendar year shall be conducted shall be equal to the sum of (i) two percent (2%) of the Handle for such month and (ii) two percent (2%) of the portion of the aggregate Handle for such calendar year in excess of one hundred fifty million dollars (\$150,000,000). The installment of the Commission Wagering Fee referable to any calendar month shall be paid to the treasurer of the appropriate Commission prior to the end of the next succeeding calendar month.

If at any time during a calendar year the aggregate Handle of an Operator for such calendar year exceeds one hundred fifty million dollars (\$150,000,000), then such Operator shall, in order to assure the availability of the moneys required to pay the final installment of its Commission Wagering Fee for such calendar year, set aside and invest moneys in an amount equal to two percent (2%) of the portion of such aggregate Handle in excess of one hundred fifty million dollars (\$150,000,000) in investments of the kind in which the funds of a Commission are permitted by Section 9 hereof to be invested by its treasurer. Any such investments acquired by an Operator shall be held by it in trust for the benefit of the Commission licensing

such Operator in order to secure the payment of the Commission Wagering Fee, but the Operator shall be entitled to any interest earned from such investments until the due date of the final installment of the Commission Wagering Fee for such calendar year.

The Legislature hereby finds and determines that the Commission Wagering Fee authorized by this Act is the maximum license fee or equivalent tax or charge which can be levied by a Commission or by any political subdivision of the State against horse racing or pari-mutuel wagering thereon without impairing the economic viability of horse racing and lessening its contribution to increased employment and tourism in the State. No Commission shall have the power to increase the Commission Wagering Fee above the limits provided in this Act or to levy or impose any additional license fee or equivalent tax or charge against horse racing or pari-mutuel wagering thereon conducted under the provisions of this Act.

Section 31. Purses. From the moneys deposited in pari-mutuel pools which are not distributed to the holders of winning tickets, each Operator shall apply an amount equal to seven percent (7%) of its total Handle to provide purse moneys for races conducted by such Operator. Prior to the commencement of any race meeting, the Operator conducting such meeting shall estimate the amount of its Handle to be derived from such meeting. Based upon such estimate, the Operator shall adopt a schedule providing for a reasonable allocation of purse moneys over the period of the anticipated race meeting. Any such schedule may be amended from time to time during the course of a race meeting if it becomes apparent that the Operator's actual Handle for such race meeting will not match its original estimate.

Each Operator shall provide the Commission licensing such Operator with periodic reports respecting the amounts applied by such Operator to provide purse moneys. If at the close of any race meeting it is determined that the Operator conducting such meeting failed to apply an amount equal to seven percent (7%) of its Handle for such meeting to provide purse moneys, then any excess shall be deducted from, and any deficiency shall be added to, the amount which such Operator is required to provide as purse moneys for its next succeeding race meeting.

Section 32. Television or Radio Transmission of Racing Events. Each Commission shall have the power to adopt rules and regulations specifying the conditions under which television or radio coverage of racing events held at racetracks located outside the State may be transmitted for public viewing to racetrack facilities within the Sponsoring Municipality which are under the jurisdiction of such Commission and there made the object of pari-mutuel wagering. Subject to such exceptions as a Commission may approve by rule or regulation in order to satisfy applicable requirements of federal law, all pari-mutuel wagering with respect to such racing events that are the subject of television or radio coverage shall be subject to the rules governing pari-mutuel wagering on racing events conducted at racetracks under the jurisdiction of such Commission, including the provisions of Sections 28, 29 and 30 hereof.

Each Commission shall also have the power to adopt rules and regulations specifying the conditions under which television or radio coverage of racing events held at racetracks under the jurisdiction of such Commission may be either (i) transmitted on a live or delayed basis by a commercial television or radio station or network for the entertainment of the public or

(ii) transmitted to specific locations in other states for the purpose of pari-mutuel wagering at such locations.

Nothing contained in this section or any other provision of this Act shall be construed to authorize or make lawful wagering or gambling of any kind at any location other than the pari-mutuel facilities located at race-track facilities licensed by a Commission.

Section 33. Admission Fee. The governing body of a Sponsoring Municipality may by ordinance impose a fee on an Operator licensed hereunder to conduct a race meeting of \$.25 on the admission of each person on each day of such meeting, except those persons holding valid permits under this Act and actually employed at such track in the capacities for which such permits were issued. The Operator may collect such amount from the ticket purchaser in addition to the amount charged for the ticket of admission.

Section 34. Breeding Fund. Each Commission shall establish a special fund to promote the breeding, raising and racing of thoroughbred and standardbred horses in the State, which shall be known as "The — [name of the Sponsoring Municipality] Racing Commission Breeding and Development Fund." Each Operator shall pay to its licensing Commission a Breeding Fund Fee for each month during which it conducts any racing events. For each Operator, the Breeding Fund Fee for any month shall be an amount equal to one-half of one percent ($\frac{1}{2}\%$) [or, in the case of any such fee referable to any month during the period of three years immediately following such Operator's receipt of an operator's license, one-quarter of one percent ($\frac{1}{4}\%$)] of the Handle for such Operator for such month. The Breeding Fund Fee payable by an Operator for a given month shall be paid to the treasurer of the Commission governing such Operator before the end of the succeeding month. All Breeding Fund Fees received by a Commission shall be deposited into its Breeding Fund.

Twenty percent (20%) of the aggregate amount of Breeding Fund Fees received by each Commission in each calendar year shall be set aside for distribution to the schools of veterinary medicine of Auburn University and Tuskegee Institute. Each Commission shall distribute the moneys so set aside on such schedule as shall be administratively reasonable and convenient, but in any event all such moneys referable to the Breeding Fund Fees received in any calendar year shall be distributed not later than sixty (60) days after the end of such calendar year. Each Commission shall divide the twenty percent of the Breeding Fund Fees required to be set aside for the schools of veterinary medicine at Auburn University and Tuskegee Institute between such schools in an equitable manner, taking into account the number of students served by each school, the financial needs of each school to maintain accepted academic standards, the nature and quality of equine research conducted at each such school and such other factors as such Commission shall deem relevant in the circumstances; provided, however, that neither of such schools of veterinary medicine shall receive less than twenty-five percent (25%) of the total amount required to be set aside by the provisions of this paragraph in any calendar year. All moneys distributed to the schools of veterinary medicine at Auburn University or Tuskegee Institute pursuant to this paragraph shall be used exclusively for supportive research on the health and diseases of the horse.

Each Commission shall adopt rules and regulations governing the maintenance and administration of its Breeding Fund and the disbursement of the moneys deposited therein, provided that such moneys may be used only

for the purposes specified in the next preceding paragraph of this section and for the following additional purposes:

(1) to provide awards to Breeders and owners of Alabama-Bred thoroughbred or standardbred horses finishing first, second, third or fourth in parimutuel races run in the State;

(2) to provide awards to Stallion Owners whose Alabama Stallions have sired Alabama-Bred thoroughbred or standardbred horses finishing first, second, third or fourth in pari-mutuel races run in the State;

(3) to provide purse moneys for races conducted exclusively for Alabama-Bred thoroughbred or standardbred horses under conditions which have been approved by such Commission;

(4) to advance and promote the breeding and raising of thoroughbred and standardbred horses in the State by the publication and dissemination of information relating thereto;

(5) to promote equine research through grants to universities within the State; and

(6) to provide for the administration and management of such Breeding Fund.

Section 35. No Taxes in Addition to Fees. The State Wagering Fee, the Commission Wagering Fee and any other fees imposed by this Act on parimutuel wagering shall be in lieu of all license and excise taxes imposed on horse racing and pari-mutuel wagering thereon by the State or any county, municipality or other political subdivision thereof; provided, however, that this section shall not be construed to confer any exemption with respect to any uniform taxes levied generally on property, income or business activity, including, without limitation, (i) income taxes levied by the State, (ii) occupational taxes levied on wages by a Sponsoring Municipality or Host County, (iii) ad valorem taxes levied on any racing facility at the same rates as are applicable to other commercial property having comparable market value, and (iv) state and local sales taxes on merchandise sold by Operators or their concessionaires at racing events.

Section 36. Application of Net Revenues. All commission wagering fees and other fees, commissions and moneys, including fines and forfeitures, to which a Commission shall be entitled under the provisions of this Act shall be paid to the treasurer of such Commission and shall be deposited by said treasurer to the account of such Commission. All such moneys remaining after (i) the payment of all expenses incurred in the administration of this Act, including (without limitation thereto) the payment of the salaries and expenses of the Members and employees of such Commission and (ii) the deposit into the Breeding Fund of all amounts required by Section 34 hereof to be deposited therein shall be allocated and paid not less frequently than once each calendar year as follows:

(1) eighteen percent (18%) of the Net Revenues shall be allocated to the Sponsoring Municipality, subject to the condition that five percent (5%) of the amount so allocated shall be contributed to the general employees' pension fund of the Sponsoring Municipality for the purpose of providing cost-of-living increases in pension benefits;

(2) ten percent (10%) of the Net Revenues shall be allocated in total to the county or counties in which the Sponsoring Municipality or any part thereof shall be located, subject to the conditions that

(ii) one-half of the amount of Net Revenues allocated to any county shall be used for county-wide purposes (including both incorporated and unincorporated areas) in such manner as shall be determined by the governing body of such county, and

(3) if the Board of Trustees of the University of Alabama operates a college, graduate school, extension center or other educational facility located in any county in which the Sponsoring Municipality or any part thereof shall be located, nine percent (9%) of the Net Revenues shall be allocated to the Board of Trustees of the University of Alabama, subject to the conditions that

(i) such amount shall be used exclusively in the county or counties in which the Sponsoring Municipality or any part thereof shall be located;

(ii) one twelfth (1/12) of the amount of Net Revenues allocated to the Board of Trustees of the University of Alabama shall be used for the support of any programs operated for the correction or treatment of learning disorders of any kind or research into the causes of such disorders, and if no such programs are operated by the Board of Trustees of the University of Alabama in the county or counties in which the Sponsoring Municipality or any part thereof shall be located, such portion of the Net Revenues shall be used in such county or counties for such other purposes or programs as may be determined by said Board of Trustees, and

(iii) one twelfth (1/12) of the amount of Net Revenues allocated to the Board of Trustees of the University of Alabama shall be used for the support of any programs or laboratories operated for research in virology, and if no such programs or laboratories are operated by the Board of Trustees of the University of Alabama in the county or counties in which the Sponsoring Municipality or any part thereof shall be located, such portion of the Net Revenues shall be used in such county or counties for such other purposes or programs as may be determined by said Board of Trustees;

(4) three percent (3%) of the Net Revenues shall be allocated in total to public junior colleges [other than any public junior colleges described in paragraph (5) of this section] located in the county or counties in which the Sponsoring Municipality or any part thereof shall be located; and if there shall be more than one of such public junior colleges, the said three percent of the Net Revenues shall be apportioned equally among such colleges;

(5) two percent (2%) of the Net Revenues shall be allocated in total to public junior colleges which are located in the county or counties in which the Sponsoring Municipality or any part thereof shall be located and the student enrollment of which is predominantly drawn from economically disadvantaged minorities; and if there shall be more than one of such public junior colleges, the said two percent of the Net Revenues shall be apportioned equally among such colleges;

(6) two percent (2%) of the Net Revenues shall be allocated in total to public technical colleges located in the county or counties in which the Sponsoring Municipality or any part thereof shall be located; and if there shall be more than one of such public technical colleges, the said two percent of the Net Revenues shall be apportioned equally among such colleges;

(7) two percent (2%) of the Net Revenues shall be allocated to any public corporation or authority which provides public transportation in an area including the Sponsoring Municipality;

(8) seventeen percent (17%) of the Net Revenues shall be allocated in total to all county, municipal, district or other public school systems operating primary and/or secondary schools in any county or counties in which the Sponsoring Municipality shall be located; and if there shall be more than one of such school systems, the said seventeen percent of the Net Revenues shall be allocated to such school systems in proportion to their average daily attendance during the most recently completed school year;

(9) if any incorporated municipalities other than the Sponsoring Municipality are located in the county or counties in which the Sponsoring Municipality or any part thereof shall be located, six percent (6%) of the Net Revenues shall be allocated in total to such other municipalities; and if there shall be more than one of such municipalities, the said six percent of the Net Revenues shall be allocated to such municipalities in proportion to their population as determined by the most recent federal decennial census;

(10) Five and one-half percent of the net revenues shall be allocated in total to any public fire districts or volunteer fire departments organized and operating in the county or counties in which the sponsoring municipality or any part thereof shall be located; and if there shall be more than one of such fire districts or volunteer fire departments, the said five and one-half percent of the net revenues shall be allocated as follows:

a. Among such fire districts and volunteer fire departments in proportion to the approximate number of single family residences and other buildings provided fire protection thereby, which number in the case of a public fire district shall be the paid membership thereof and in the case of a volunteer fire department shall be a census of the number of protected residences and other buildings confirmed by affidavit of the chief executive of such volunteer fire department.

(11) two percent (2%) of the Net Revenues shall be allocated in total to any hospitals which are owned by any county, municipality or public corporation or authority and which are located in the county or counties in which the Sponsoring Municipality shall be located; and if there shall be more than one of such hospitals, the said two percent of the Net Revenues shall be allocated to such hospitals in proportion to their average patient census during the most recently completed annual period selected by the Commission for the purpose of making such allocation;

(12) one-half of one percent ($\frac{1}{2}\%$) of the Net Revenues shall be allocated in total to any public authority or corporation at any time created by law to alleviate or solve, or to assist in the alleviation or solution of, flooding problems caused by creeks in the Sponsoring Municipality and Host County as the result of heavy rainfall; and if no such authority or corporation shall be in existence at the time of any allocation required to be made pursuant to this paragraph (12), such allocation shall be made to the Sponsoring Municipality for use in alleviating or solving such flooding problems, provided that the Sponsoring Municipality may use such allocation for other pur-

poses if its governing body shall determine that no such flooding problems occur in the Sponsoring Municipality;

(13) one percent (1%) of the Net Revenues shall be allocated to the Tannehill Furnace and Foundry Commission established pursuant to Code of Alabama 1975, §§ 41-9-320 through 41-9-330, inclusive;

(15) one percent (1%) of the Net Revenues shall be allocated to the Alabama State Fair Authority established pursuant to Act No. 215 enacted at the 1947 Regular Session of the Legislature of Alabama; and

(16) if and to the extent that the allocations of Net Revenues described in this paragraph can be lawfully made to recipients satisfying the applicable conditions as herein set forth, the Commission shall allocate and disburse the following percentages of the Net Revenues for the following purposes:

(i) three percent (3%) of the Net Revenues shall be allocated in total to private, not-for-profit colleges which are located outside the corporate limits of the Sponsoring Municipality in any incorporated or unincorporated part of any county in which the Sponsoring Municipality or any part thereof shall be located and the student enrollment of which is predominantly drawn from economically disadvantaged minorities;

(ii) three percent (3%) of the Net Revenues shall be allocated in total to private, not-for-profit law schools which are located outside the corporate limits of the Sponsoring Municipality in any incorporated or unincorporated part of any county in which the Sponsoring Municipality or any part thereof shall be located and the student enrollment of which is predominantly drawn from economically disadvantaged minorities, it being expressly provided that the receipt by a college of any amount pursuant to the provisions of subparagraph (i) of this paragraph (16) shall not disqualify any law school affiliated with such college from receiving any amount for which such law school would otherwise qualify pursuant to the provisions of this subparagraph;

(iii) one-half of one percent ($\frac{1}{2}\%$) of the Net Revenues shall be allocated in total to private, not-for-profit colleges which are located in the Sponsoring Municipality and the student enrollment of which is predominantly drawn from economically disadvantaged minorities;

(iv) one percent (1%) of the Net Revenues shall be allocated in total to not-for-profit organizations, whether public or private, which operate in any county in which the Sponsoring Municipality or any part thereof shall be located and which promote, undertake or otherwise assist the career orientation, training and employment of persons belonging to economically disadvantaged minorities;

(v) one percent (1%) of the Net Revenues shall be allocated in total to not-for-profit organizations, whether public or private, that are located in the Sponsoring Municipality and that promote economic development in the Sponsoring Municipality and the surrounding metropolitan area;

(vi) five percent (5%) of the Net Revenues shall be allocated in total to private not-for-profit hospitals located in the Sponsoring Municipality that primarily provide care for children;

(vii) one percent (1%) of the Net Revenues shall be allocated in total to not-for-profit organizations, whether public or private, which are located in any county in which the Sponsoring Municipality or any part thereof shall be located and which sponsor, promote or conduct research and education related to the cure or control of sickle cell anemia or provide treatment or other aid for victims of that disease;

(viii) subject to the provisions of subparagraph (ix) of this paragraph (16), one and one-half percent (1-½ %) of the Net Revenues shall be allocated in total to not-for-profit organizations (including any particular branch thereof) which are located in the Sponsoring Municipality (including, without limitation thereto, organizations such as the Young Men's Christian Association and the Young Women's Christian Association) and which provide educational and recreational activities for young persons predominantly belonging to economically disadvantaged minorities;

(ix) the provisions of subparagraph (viii) of this paragraph (16) to the contrary notwithstanding, if any Commission shall be created pursuant to this act for which the Sponsoring Municipality shall be the City of Birmingham, then, and in such case, one-half of one percent (½ %) of the Net Revenues of such commission shall be deducted from the amount to be allocated pursuant to the subparagraph (iii) and shall instead be allocated to Partners in Neighborhood Growth for use in providing recreational or educational activities for young persons;

(x) one and one-half percent (1-½ %) of the Net Revenues shall be allocated in total to not-for-profit organizations (including particularly any research development and scholastic assistance fund), whether public or private, which are located in any county in which the Sponsoring Municipality or any part thereof shall be located and which promote and encourage scientific or technical research or education at the secondary and college levels by any means, including (without limitation thereto) financial assistance to schools and students, the development of improved curricula, and the training of teachers; provided, however, that if any Commission shall be created pursuant to this Act for which the Sponsoring Municipality shall be the City of Birmingham, then, and in such case, the one and one-half percent of the Net Revenues of such Commission referred to in this subparagraph (x) shall be allocated in its entirety to the Research, Development and Scholastic Assistance Fund for Science and Technology, Inc., a private, not-for-profit corporation organized under the laws of Alabama;

(xi) one percent (1%) of the Net Revenues shall be allocated to the local chapter or affiliate of The National Urban League that is based in the Sponsoring Municipality;

(xii) one percent (1%) of the Net Revenues shall be allocated to the local chapter or affiliate of the United Cerebral Palsy Association, Inc. that is based in the Sponsoring Municipality;

(xiii) one-half of one percent (½ %) of the Net Revenues shall be allocated in total to private, not-for-profit organizations which are located in the Sponsoring Municipality and which sponsor and promote ballet and similar forms of the art of dance by any means, including the training of dancers and the giving of performances; and

(xiv) one-half of one percent (½ %) of the Net Revenues shall be allocated in total to not-for-profit organizations which are located in the Sponsoring Municipality and which assist and coordinate the activities of artists

or groups of artists which perform or display their works within the Sponsoring Municipality.

Except as may herein be specifically provided otherwise, if there shall at any time exist more than one institution or organization which qualifies for a portion of any generic allocation of Net Revenues made pursuant to any of subparagraphs (i) through (xiv), inclusive, of paragraph (16) of this section, then, and in such case, a Commission shall apportion such allocation among all institutions or organizations which evidence to such Commission (in such manner as it shall reasonably require) their respective qualifications to receive a portion of such allocation. Any such allocation shall be apportioned among the qualifying institutions and organizations of each generic category in an equitable manner to be determined by the Commission, taking into account the relative scale of activities of each qualifying institution or organization, the number of persons served thereby or other relevant factors. A Commission shall have reasonable discretion in determining whether, in the light of the legislative intent, a particular institution or organization shall be entitled to an allocation of any portion of the Net Revenues pursuant to the provisions of this section.

A Commission and the individual Members thereof shall be fully protected against any charge of malfeasance in relying upon an opinion of the Attorney General of the State of Alabama that a portion of the Net Revenues may be lawfully allocated and paid to any institution or organization pursuant to any of the provisions of paragraph (16) of this section, unless a court of competent jurisdiction shall declare invalid the allocation of Net Revenues to any such institution or organization.

If any allocation of any portion of the Net Revenues pursuant to any provision of this section cannot be made for any reason (including, without limitation thereto, the legal invalidity of the provisions of this Act authorizing such allocation, lack of lawful authority by a Commission to make such allocation, the nonexistence of any public body or any public or private institution or organization entitled to receive such allocation, or any other failure to satisfy the conditions of such allocation), then, and in such case, the failure of such allocation shall not impair the validity or effectiveness of any part of this Act other than the provisions hereof specifically providing for such allocation, nor shall the failure of such allocation adversely affect any other allocation of Net Revenues under this Act. Any portion of the Net Revenues that, for any reason, cannot be allocated in accordance with the specific provisions of any of paragraphs (1) through (16) of this section shall be apportioned among those governmental bodies, institutions and organizations actually receiving lawful allocations hereunder in proportion to the respective amounts of Net Revenues which would have been allocated to such governmental bodies, institutions and organizations if there had been no need to reallocate any Net Revenues that could not be allocated in accordance with the specific provisions of said paragraphs (1) through (16).

It is hereby expressly declared that the primary purpose of this Act is to provide a means for permitting and regulating horse racing and pari-mutuel wagering thereon in Class 1 municipalities and, further, that it is not a primary purpose of this Act to provide funds for the various governmental bodies and public or private institutions and organizations to which allocations of portions of the Net Revenues of each Commission are made pursuant to this section. The Legislature recognizes that one or more of such governmental bodies, institutions or organizations may not exist in the Sponsoring Municipality or in the surrounding county or counties, as the case may be, and that, even if the intended recipients do exist and satisfy

the applicable conditions, any one or more of such allocations of the Net Revenues may fail because of legal invalidity or other reasons. The allocations of Net Revenues made pursuant to this section represent the legislative effort to confer an incidental benefit upon a wide spectrum of governmental and charitable activities, all of which may not be present in the same degree in every Class 1 municipality subject to this Act. Therefore, the legal invalidity or other failure of one or more allocations of Net Revenues made pursuant to this section should not impair the general validity of this Act or prevent the provisions hereof, other than those relating to the invalid or ineffective allocations, from being implemented as a coherent whole. If and to the extent that any allocation of Net Revenues made to any governmental body or any institution or organization is of such character as to cause this Act to be a local act, it is the legislative intent that the provisions for such allocation be severed from this Act and thereby prevented from causing this Act to be a local act.

Section 37. Conducting Race Without License and Wagering Thereon Prohibited. Any person who directly or indirectly holds any horse race without having procured a license as prescribed in this Act, shall be guilty of a misdemeanor. Any person wagering upon the results of such a race, except in the case of a pari-mutuel wagering conducted by an Operator in accordance with the provisions of this Act, shall be guilty of a misdemeanor. Upon conviction of any of the above misdemeanors in a court of competent jurisdiction, the penalty shall be a fine of not less than one hundred dollars (\$100), nor more than one thousand dollars (\$1,000), or imprisonment of not less than five days nor more than six months, or both, such fine and imprisonment to be in the discretion of the court.

Section 38. Disqualification Due to Gambling Activities. No person who engages in the practice of professional gambling on horse races, or in the practice of making gambling or wagering books on such races, or who knowingly takes any part in such practice, shall be eligible as an applicant for any license or permit to own or operate a racetrack or conduct racing activities under the provisions of this Act, or to be connected therewith in any capacity, and any corporation, partnership or other entity which has an officer, director, stockholder, partner or executive or who employs any person who engages in such practices shall likewise be ineligible as a licensee, and each Commission is hereby empowered to inquire into such matters in entertaining any such application and otherwise in administering this Act.

Section 39. Tampering with Horses Prohibited. No person shall influence or have any understanding or connivance with any owner, trainer, jockey, driver, groom or other person associated or interested in any stable, horse or race in which any horse participates, to prearrange or predetermine the results of any such race, nor shall any person stimulate or depress a horse, for the purpose of affecting the results of a race, by use of any electrical device or any electrical equipment or by any mechanical or other device not generally accepted as regulation racing equipment, nor shall any person stimulate or depress a horse through the administration of any drug or chemical, or knowingly enter any horse in any race within a period of twenty-four hours after any drug or chemical has been administered to such horse, for the purpose of increasing or retarding the speed of such horse.

No person shall, except for medical purposes, administer any poison, drug, medicine or other substance to any horse entered or about to be entered in any race, or expose such substance to a horse with the intent that it be taken, or cause any foreign substance to be taken by or placed upon or in

the body of such horse, with intent to impede or increase its speed, endurance, health or physical or mental condition.

Any person violating the provisions of this section shall be guilty of a felony and, upon conviction thereof, shall be imprisoned for not less than one year nor more than ten years, or fined not less than one thousand dollars (\$1,000) nor more than five thousand dollars (\$5,000), or both, in the discretion of the court.

Section 40. Transmission of Racing Information Prohibited. With the exception of television or radio coverage of races authorized in accordance with Section 32 of this Act, it shall be unlawful for any person to transmit or communicate to another by any means whatsoever the results, changing odds, track conditions, or other information relating to any horse race from any racetrack in any Sponsoring Municipality between the period of time beginning one hour prior to the first race of the day and ending thirty (30) minutes after the posting of the official results of each race, as to that particular race, except this period may be reduced to permit the transmitting of the result of the last race each day not sooner than fifteen (15) minutes after the official posting of such results; provided, however, that each Commission may by rule permit the immediate transmission by radio, television (other than television or radio coverage pursuant to Section 32 hereof), or press wire of any pertinent information concerning feature races.

It shall be unlawful for any person to transmit by any means whatsoever racing information to any other person or relay the same to any other person by word of mouth, by signal, or by use of telephone, telegraph, radio or any other means when the information is knowingly used or intended to be used for illegal gambling purposes or in the furtherance of such gambling purposes.

Any person violating the provisions of this section shall be guilty of a felony and, upon conviction, shall be imprisoned for not less than one year nor more than ten years, or fined not less than one thousand dollars (\$1,000) nor more than five thousand dollars (\$5,000), or both, in the discretion of the court.

Section 41. Possession of Certain Drugs Prohibited. The possession or transportation of any drug or chemical except those permitted by regulations of the appropriate Commission within the racing enclosure is prohibited except upon a bona fide veterinarian's prescription with complete statement of uses and purposes on the container. A copy of such prescription shall be filed with the stewards.

Section 42. Misuse of License. Any credential, license or permit issued by a Commission, if used by the holder thereof for a purpose other than identification and in the performance of legitimate duties on a racetrack, shall be automatically revoked whether so used on or off a racetrack.

Section 43. Racing under Unregistered Name Prohibited. No person shall knowingly enter or race any horse in any running or harness race under any name or designation other than the name or designation assigned to such horse by and registered with the Jockey Club, the United States Harness Association or other applicable association or knowingly instigate, engage in or in any way further any act by which any horse is entered or raced in any running or harness race under any name or designation other than the name or designation duly assigned by and registered with the Jockey Club, the United States Harness Association or other applicable association.

Section 44. Wagering by Underage Persons Prohibited. No person shall wager on or conduct any wagering on the outcome of a horse race pursuant to the provisions of this Act unless such person be twenty-one years of age or older. No person shall accept any wager from a person under the age of twenty-one years.

Section 45. Exemption from Jurisdiction of State Racing Commission. In the event that a State Racing Commission shall be created, organized or established at any time, whether before or after the effective date of this Act, each Commission created hereunder and all Owners and Operators licensed thereby shall be exempt from the jurisdiction of such State Racing Commission and from the force and effect of all laws providing for or relating to such State Racing Commission for a period beginning with the effective date of this Act and continuing until the fifth (5th) anniversary of the date on which racing events shall first be conducted under the jurisdiction of such Commission created hereunder. It is hereby expressly declared that no act enacted as the session of the Legislature during which this Act is enacted or at any subsequent session shall be construed to effect a repeal or negation of the exemption conferred by this section, whether by implication or otherwise, in the absence of a provision in such act expressly repealing the provisions of this section.

Section 46. County-Wide Referendum to Approve Pari-Mutuel Wagering. Pari-mutuel wagering with respect to horse racing may not be conducted in the State within the corporate limits of any Class I municipality unless the conduct of such pari-mutuel wagering within such municipality shall have been approved at a referendum at which all of the qualified voters residing in the county or counties in which such municipality, or any part thereof, is located are permitted to cast votes.

In order to satisfy the requirement imposed by this section, any referendum called and held pursuant to and in accordance with the provisions of Section 4 of this Act for the purpose of determining whether a Commission shall be incorporated for a Class I municipality shall be converted into a referendum permitting participation by all qualified voters residing within the county or counties in which such municipality, or any part thereof, is located. In the event that a referendum for any municipality shall be converted to a referendum in any county or counties pursuant to this section, the conduct of pari-mutuel wagering within such municipality shall be deemed to have been approved at such referendum for the purposes of this section only if it shall have been approved by both (i) a majority of all of the voters casting votes in such referendum and (ii) a majority of the voters casting votes in such referendum who reside in such municipality. If pari-mutuel wagering is not approved in any referendum conducted pursuant to this section, whether because of an unfavorable majority of all votes cast or because of an unfavorable majority of the votes cast by voters residing in the municipality involved, then any subsequent referendum called and scheduled by the governing body of such municipality in accordance with the provisions of Section 4 of this Act may be used to satisfy the requirement of this section, but only if such referendum is converted into a referendum permitting participation by all qualified voters residing within the county or counties in which such municipality, or any part thereof, is located.

Anything contained herein to the contrary notwithstanding, the provisions of this section providing for the conduct of county-wide referenda are hereby expressly declared to be severable from the other provisions of this Act, and if such provisions of this section shall be determined by any court

of competent jurisdiction to be invalid because of any defect in the notice required to be published with respect to this Act by Sections 106 and 110 of the Constitution of Alabama, as amended, or to be invalid for any other reason, such determination shall not affect, impair or invalidate the remaining provisions of this Act (including, without limitation, the provisions of Section 4 hereof).

Section 47. Severability. The provisions of this Act are expressly declared to be severable. If any provision of this Act shall be adjudged to be invalid by any court of competent jurisdiction (including, without limitation thereto, any particular allocation of Net Revenues or other provision which, if not severed from this Act, would cause it to be a local act in violation of any constitutional limitation or condition applicable to local acts), such provision shall be severed from this Act in order to effectuate the legislative intent that such judgment shall not affect, impair or invalidate the remainder of this Act, and the operation of such judgment shall be limited to the provision thereof directly involved in the action in which such judgment shall have been rendered.

Section 48. Provisions of this Act Control. Insofar as the provisions of this Act may be inconsistent with the provisions of any other law concerning activities and actions authorized by this Act, the provisions of this Act shall control, it being specifically declared that any other provisions of existing law that prohibit or regulate horse racing, gambling or pari-mutuel wagering shall not be applicable to any activities or actions authorized by this Act.

Section 49. Section Captions. The section headings or captions contained in this Act are included for convenience only and should not be considered a part of this Act or affect in any manner the construction or interpretation of this Act.

Section 50. Effective Date. This Act shall become effective immediately upon its passage and approval by the Governor or upon its otherwise becoming a law.

H. R. 178. EXPRESSING THE SENSE OF THE HOUSE THAT ANY INCREASE IN COMPENSATION GRANTED BY THE LEGISLATURE FOR TEACHERS AND STATE EMPLOYEES SHOULD BE EQUAL.

WHEREAS, the Alabama House of Representatives recognizes that a salary increase for both teachers and state employees is indeed long overdue as there has been no legislative granted increase for either sector since 1982; and

WHEREAS, further, those raises which have been granted within the past few years have fallen sufficiently short of the cost-of-living increase that buying power for teachers and state employees has actually decreased; and

WHEREAS, it therefore rests upon the legislature to rectify this inequity by providing salary increases which will allow both groups, equally, to partially recover from past inflationary inroads in their pay; and

WHEREAS, this body also is of the opinion that there is no justification for a recommended higher salary increase for teachers than that recommended for state employees, the latter having received increases totaling some 17% less than teachers since 1975; now therefore,

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE LEGISLATURE OF ALABAMA, That it is the sense of this body that any increase in compensation granted by the legislature for teachers and state employees should be equal.

Provided, however, that members shall not receive additional legislative compensation or per diem when the legislature is in session but they shall receive their travel expenses for all meetings attended and any travel upon the business of the committee within and without the state. All expenses for travel, per diem, salaries, benefits, clerical assistance, supplies and costs incurred as a result of this resolution shall be paid out of any funds appropriated to the legislature, in accordance with law.
